Sec. 001 "Ethics & International Affairs", TR 10:30-11:45am, Dr. Eric Heinze
While global events and affairs are largely driven by political actors vying for influence on the international scene, they also have an undeniable ethical dimension. From global terrorism, arms control, genocide, humanitarian intervention, global trade, and the global environment, ethical questions abound in the study of global politics. This course seeks to investigate the relationship between ethics and global politics. The focus of the class will be on the role that moral considerations play in determining how global actors behave, as well as the use of ethical frameworks as a way to appraise and critique global actors as they pursue their

2/22/2017 2:16 PM
There are few larger threats to our global future than environmental and health crises. This class examines a series of global environmental and disease threats from the perspectives of international security, economic stability, global inequality, and social and familial well-being. Likely topics include: climate change, water scarcity, food security, pollution, AIDS, SARS, state-sponsored medical care, rural health care, chronic (lifestyle) diseases, over-population, and aging.
