ABET STUDENT OUTCOMES: This course will be evaluated for the following ABET Outcome 6: *Apply computer science theory and software development fundamentals to produce computing-based solutions.*

GRADING:

Graded Homework (Group and Individual)	40%
Individual Project	25%
Midterm Exam	15%
Final Exam	20%

No make-up exam, graded homework, or project will be given.

GRADED HOMEWORK: Each graded homework assignment will have two parts: group graded homework and individual graded homework. For the group graded homework part, you will work with your group members to answer the given questions. Your work for this part will be evaluated by both the instructor and your group members. Read the “The Grading Policy for the Group Graded Homework” posted on the

course website for details. The individual graded homework part, which consists of the follow-up questions for the group graded homework part, must be answered by you only. For you to do well on the individual graded homework part, it is important that you work with your group members to answer the questions in the group graded homework part.

PRACTICE HOMEWORK: Practice homework will be assigned occasionally in class and will not be graded. Solutions to the practice homework will be posted on the class home page. It is the students' responsibility to do the practice homework and evaluate their solutions. Be warned that reading the solutions to the practice homework without trying to work the problems yourself first is a very poor strategy and will almost certainly result in failure on the exams.

REQUIRED EQUIPMENT FOR EXAMS: Exams will be given online and proctored. You are required to have a working computer with WIFI connection and a webcam to take the Exams.

ACADEMIC INTEGRITY: Individual Project, Graded Individual Homework, and Exams are individual work; they must be done by you only – no collaboration with anyone else is allowed. Graded Group Homework is group work; they must be done by you and your assigned group members only – no collaboration with other groups or anyone is allowed. Plagiarism will result in actions as specified in the Academic Integrity Code at OU: <http://www.ou.edu/integrity>. Consult also the following web page for a Student's Guide to Academic Integrity at OU: <http://www.ou.edu/integrity/students>.
