

SUBSURFACE STRUCTURE MAP OF MARSHALL COUNTY, OKLAHOMA

By
George G. Huffman
1987

Subsurface geology by G. G. Huffman, 1983; interpretation in much of western Marshall County based on data furnished by F. B. Jones, Jr., H. E. Ware, Jr., J. D. Garrison, Jr., B. K. Reed, and others.
Note: Because well information used in this report was compiled from various sources over a considerable period of time, there may be discrepancies between this plate and certain figures in the text.
Oil- and gas-field outlines and names according to field information from the Nomenclature Committee, Oklahoma-Kansas Division, Mid-Continent Oil and Gas Association; field outlines and names complete through March 1986.
Base furnished by American Quasar Petroleum Co., courtesy of H. E. Ware, Jr. Lake Texoma from U.S. Geological Survey 7.5-minute-quadrangle map series.
