AGENDA ITEM A

ISSUE: RESOLUTION HONORING YEARS OF SERVICE

ACTION PROPOSED:

Vice Chairman Weitzenhoffer recommends the Board of Regents approve a resolution honoring years of service.
Agenda Items for ROGERS STATE UNIVERSITY
AGENDA ITEM 1

ISSUE: HOUSING RATES – RSU

ACTION PROPOSED:

President Rice recommends the Board of Regents approve the proposed housing rates effective August 1, 2016, and summer conference rates and athletic camp rates effective May 1, 2016.

BACKGROUND AND/OR RATIONALE:

The University continued to increase housing to the current level with the opening of University Village C in August 2015. Renovations and repairs to all of the housing complexes continue on an annual basis in order to offer our students the best and most appealing student housing in the area. Rogers State University’s residence hall rates are competitive to similar facilities at other higher education institutions and the University is the only regional public institution in the Tulsa Metropolitan area to offer residential housing on campus.

No change to the rates for University Village A, University Village B, or conference rates are recommended. A new rate for athletic camps is proposed. A rate increase is proposed for Family Housing, Guard Officer Leadership Development housing, and for University Village C. Holding the rates at current levels and increasing some rates will allow the University to continue to offer options and remain as affordable as possible.

Living on campus will remain an attractive option for our student population.

Current and proposed semester rates effective August 1, 2016 are:

AGENDA ITEM 2

ISSUE: REVISIONS TO THE REGENTS’ POLICY MANUAL – CAMERON UNIVERSITY/ROGERS STATE UNIVERSITY – RSU

ACTION PROPOSED:

President Rice recommends the Board of Regents adopt the changes and revisions to update the University of Oklahoma Board of Regents’ Policy Manual – CU/RSU so the Regents Policy Manual is consistent with changes in Regents’ policy and relevant laws.

BACKGROUND AND/OR RATIONALE:

Although the Board of Regents’ Policy Manual – Cameron University/Rogers State University is periodically updated, it has not been substantially revised in several years. This has led to deviations between policy and practice, outdated legal standards and application, and greater inconsistencies between the universities under the Board’s governance. Accordingly, over the last six months, the Presidents and their respective executive staff, with assistance from the Office of Legal Counsel, have worked to review and provide recommended revisions to the Policy Manual. Presidents for both universities agree and support the proposed revisions. The bases for these recommended revisions fall into one of the following categories:

Necessary updates based on changes in laws, regulations, and guidance.
Inaccurate references to policies and procedures.
Updates based on university changes.
Formatting changes and moving language for ease of use and clarity.
Consistency with the Board of Regent’s Policy Manual – University of Oklahoma where appropriate in the interests of the universities.
Incorporate more policies by reference such as gender-based misconduct, student code, and the equal opportunity policy allowing more flexibility to revise policies to ensure compliance with changing law. This is similar to how these policies are treated in Board of Regent’s Policy Manual – University of Oklahoma.

SECTION 2 — ACADEMIC POLICIES

The Board of Regents is vested with the governance of the University. Within its authority is the supervision, management and control of the University, including the power to do all things necessary and convenient to carry out the powers expressly granted to it by the Constitutions and the laws of the state, or to make the University effective for the purposes for which it is operated. Governance of all faculty personnel matters, including without limitation, appointments, evaluations, academic misconduct, grievances, and academic appeals. Specific provisions pertaining to faculty personnel policies and related matters may be set forth in the Faculty and Staff Handbooks, student handbooks, and/or other official policy documents of the University.

Any modification to a Board of Regents’ policy in the policy documents referred to above or elsewhere must be made through action of the Board of Regents.

OK. Const. Art. XIII, § 8; 70 O.S. § 3305.

2.1 — FACULTY PERSONNEL POLICIES
It is the policy of the University to recognize and implement the functions assigned to it by the Oklahoma State Regents for Higher Education. These functions include teaching; research and creative/scholarly activity; and professional and University service, and public outreach/community engagement. The responsibility for carrying out this policy is shared by the Board of Regents, administrative officers, and the regular faculty.

70 O.S. § 3206.

2.1.1 —THE REGULAR FACULTY

The Regular Faculty of the University is composed of all faculty members with regular appointments including non-tenure track, tenure track, and tenured appointments at the ranks of instructor, assistant professor, associate professor, and professor.

Additional policies related to the Regular Faculty and the Faculty Senate are contained in the faculty handbook of the University.

2.1.2 —ACADEMIC FREEDOM AND RESPONSIBILITY

2.1.2.1 —INSTITUTIONAL ACADEMIC FREEDOM

The accumulation and exchange of knowledge is among the preeminent purposes of the University, and the acknowledgement of individual academic freedom is one of the cornerstones to ensure such purposes are achieved. Equally important in meeting these goals is the recognition of the right inherent in the responsibility of the Board of Regents to govern the University. “[I]t is the business of a university to provide that atmosphere which is most conducive to speculation, experimentation and creation. It is an atmosphere in which there prevail ‘the four essential freedoms’ of a university—to determine for itself on academic grounds who may teach, what may be taught, how it shall be taught, and who may be admitted to study.” Sweezy v. New Hampshire, 354 U.S. 234, 263, 77 S.Ct. 1203; 1 L.Ed.2d 1311 (1957).

2.1.2.2 —ACADEMIC FREEDOM

The 1940 Statement of Principles on Academic Freedom and Tenure, with 1970 Interpretive Comments by the American Association of University Professors (hereinafter “AAUP”), with 1970 Interpretive Comments of the American Association of University Professors has long been recognized as providing valuable and authoritative guidelines for policy and practice in American colleges and universities. The section on academic freedom below is essentially a restatement of these principles, with some modification. In the formulation that follows, these principles have been adopted as policy by the Board of Regents.
a) Faculty members are entitled to full freedom in research and publication, subject to any restrictions set by law or by applicable codes of professional ethics, and subject to adequate performance of their other academic duties and to stated University policy on outside employment; but, except under conditions of national emergency, a faculty member should not undertake to do research on University time or using University facilities or funds under any agreement which would (except for a definitely and reasonably limited time) prohibit open communication of the results.

b) Faculty members are entitled to freedom in the classroom in discussing their subject, but it is inappropriate for a teacher persistently to intrude material, which has no relation to the subject of instruction.

c) As members of the community, university teachers have the rights and obligations of any citizen. They measure the urgency of these obligations in the light of their responsibilities to their subject, to their students, to their profession, and to their institution. In speaking or acting as private persons, faculty members avoid creating the impression of speaking or acting for their college or university. As a citizen engaged in a profession that depends upon freedom for its health and integrity, the university teacher has a particular obligation to promote conditions of free inquiry and to further public understanding of academic freedom.

d) As citizens, university teachers should be free to engage in political activities consistent with their obligations as teachers and scholars and with University policy.

e) Freedom of access to recorded knowledge being essential to learning and research in a democracy, the right and the obligation of the university to provide a full range of materials on any subject, even though some views might be currently unpopular or controversial, or appear incorrect, shall not be infringed. The principles of academic freedom shall apply to the presence of materials and also to those who provide and those who use them.

f) The University endorses—adopts, as stated herein, the 1957 declaration of the American Association of University Professors (AAUP) which “…asserts the right of college and university students to listen to anyone whom they wish to hear…affirms its own belief that it is educationally desirable that students be confronted with diverse opinions of all kinds, (and) therefore, holds that any person who is presented by a recognized student or faculty organization should be allowed to speak on a college or university campus.” Duly constituted organizations at Cameron University and Rogers State University may invite speakers without fear of sanctions. However, in the exercise of these rights, it is clearly recognized that:

Membership in the academic community imposes on students, faculty members, administrators, and trustees an obligation to respect the dignity of others, to acknowledge their right to express differing opinions, and to foster and defend intellectual honesty, freedom of inquiry and instruction, and free expression on and off the campus. The expression of dissent and the attempt to produce change, therefore, may not be carried out in ways which injure individuals or damage institutional facilities or
disrupt the classes of one’s teachers or colleagues. Speakers on campus must not only be protected from violence but must be given an opportunity to be heard. Those who seek to call attention to grievances must not do so in ways that significantly impede the functions of the institution. (1970 declaration of the AAUP Council).

2.1.2.3 —ACADEMIC RESPONSIBILITY

The concept of academic freedom shall be accompanied by an equally demanding concept of academic responsibility. The Board of Regents endorse (adopt) the AAUP’s 1987 Statement on Professional Ethics.

2.1.2.3.1—INTRODUCTION

From its inception, the American Association of University Professors AAUP has recognized that membership in the academic profession carries with it special responsibilities. The Association AAUP has consistently affirmed these responsibilities in major policy statements, providing guidance to professors in such matters as their utterances as citizens, the exercise of their responsibilities to students and colleagues, and their conduct when resigning from an institution or when undertaking sponsored research. The 1987 Statement on Professional Ethics that follows sets forth those general standards that serve as a reminder of the variety of responsibilities assumed by all members of the profession.

In the enforcement of ethical standards, the academic profession differs from those of law and medicine, whose associations act to ensure the integrity of members engaged in private practice. In the academic profession the individual institution of higher learning provides this assurance and so should normally handle questions concerning propriety of conduct within its own framework by reference to a faculty group. The Association supports such local action and stands ready, through the general secretary and the Committee on Professional Ethics, to counsel with members of the academic community concerning questions of professional ethics and to inquire into complaints when local consideration is impossible or inappropriate. If the alleged offense is deemed sufficiently serious to raise the possibility of adverse action, the procedures should be in accordance with the 1940 Statement of Principles on Academic Freedom and Tenure, the 1958 Statement on Procedural Standards in Faculty Dismissal Proceedings, or the applicable provisions of the Association’s AAUP’s Recommended Institutional Regulations on Academic Freedom and Tenure.

2.1.2.3.2—THE STATEMENT

1. Professors, guided by a deep conviction of the worth and dignity of the advancement of knowledge, recognize the special responsibilities placed upon them. Their primary responsibility to their subject is to seek and to state the truth as they see it. To this end professors devote their energies to developing and improving their scholarly competence. They accept the obligation to exercise critical self-discipline and judgment in using, extending, and transmitting
knowledge. They practice intellectual honesty. Although professors may follow subsidiary interests, these interests must never seriously hamper or compromise their freedom of inquiry.
2. As teachers, professors encourage the free pursuit of learning in their students. They hold before them the best scholarly and ethical standards of their discipline. Professors demonstrate respect for students as individuals and adhere to their proper roles as intellectual guides and counselors. Professors make every reasonable effort to foster honest academic conduct and to ensure that their evaluations of students reflect each student’s true merit. They respect the confidential nature of the relationship between professor and student. They avoid any exploitation, harassment, or discriminatory treatment of students. They acknowledge significant academic or scholarly assistance from them. They protect their academic freedom.

3. As colleagues, professors have obligations that derive from common membership in the community of scholars. Professors do not discriminate against or harass colleagues. They respect and defend the free inquiry of associates. In the exchange of criticism and ideas professors show due respect for the opinions of others. Professors acknowledge academic debt and strive to be objective in their professional judgment of colleagues. Professors accept their share of faculty responsibilities for the governance of their institution.

4. As members of an academic institution, professors seek above all to be effective teachers and scholars. Although professors observe the stated regulations of the institution, provided the regulations do not contravene academic freedom, they maintain their right to criticize and seek revision. Professors give due regard to their paramount responsibilities within their institution in determining the amount and character of work done outside it. When considering the interruption or termination of their service, professors recognize the effect of their decision upon the program of the institution and give due notice of their intentions.

5. As members of their community, professors have the rights and obligations of other citizens. Professors measure the urgency of these obligations in the light of their responsibilities to their subject, to their students, to their profession, and to their institution. When they speak or act as private persons, they avoid creating the impression of speaking or acting for their college or university. As citizens engaged in a profession that depends upon freedom for its health and integrity, professors have a particular obligation to promote conditions of free inquiry and to further public understanding of academic freedom.

2.1.3 —FACULTY ACCOUNTABILITY

A faculty member is held accountable for his or her performance in fulfilling faculty duties and in meeting the requirements of academic responsibility and University policies. Persons who accept full-time employment at the University owe their first duty and first loyalty to the University. Any other employment or enterprise in which they engage for income must be secondary to their University duties. The most immediate agents of faculty accountability are the department heads/chairs, who should maintain close and regular communication with the faculty member.

Among the various mechanisms for ensuring faculty accountability, the most important include annual performance evaluations, and such periodic evaluations as those for advancement in rank.
These processes have the primary function of identifying meritorious performance to be rewarded, but they also provide a means by which the University may strengthen itself, by identifying needs for improved performance.

Meritorious and responsible faculty performance is first and foremost an individual professional obligation. But it is also the product of a cooperative effort by faculty members and administrative officers assisting one another, informing one another, and jointly seeking to assure that each faculty member’s capabilities are developed fully and creatively. Performance that is lacking in merit or responsibility, when identified, is a challenge both to the individual and to the academic unit and its leaders, in their exercise of the unit’s career development responsibilities. Just as faculty members are held accountable for their performance, administrators of academic units are held accountable for their leadership in the career development of the faculty in their units.

For those cases where they are needed, the University has at its disposal the more drastic measures of severe sanctions.

2.1.4 —PROFESSIONAL ACTIVITIES OF THE FACULTY

Above all else, the University exists for learning and scholarship of a breadth and depth that result in excellence in teaching; research and creative/scholarly activity; and professional and University service, and public outreach/community engagement. Each academic unit has an obligation to contribute to each of these. Faculty members play a central role in the realization of the obligations of the academic unit by contributing their unique expertise and competence. Decisions regarding tenure, promotions, and salary increases are based upon an assessment of the faculty member’s performance and contributions to the total mission of the University.

(RM, 6-22/23-2004, pp. 29140, 29237)

2.2—FACULTY APPOINTMENTS

2.2.1 —RESERVE OFFICERS’ TRAINING CORPS PERSONNEL

The senior line officer of each department (Army, NavalNavy, and Air Force) shall be given the rank of Professor; the executive officer (next senior officer) shall be given the rank of Associate Professor; the other officers shall be given the rank of Assistant Professor or Instructor. Officers who arrive for duty and who are interested in undertaking graduate work may be designated as Special Instructors instead of Assistant Professors so they will not be precluded from receiving a graduate degree which, under regulations of the Graduate College and the University, cannot be conferred on faculty members with an academic rank higher than Instructor; non-commissioned officers and petty officers shall be given the title of Instructor.
An academic rank, once assigned to an officer, shall be retained by him or her during the entire tenure with the University unless he or she is promoted to a higher faculty position, even though a more senior line officer becomes either the commanding officer or executive officer, except when regulations of a branch of the Defense Department provide that only one officer may be designated as Professor and Associate Professor on a campus.

2.2.2 — REAPPOINTMENT AND NON-REAPPOINTMENT

Action on the reappointment of non-tenure track and tenure-track regular faculty may be initiated by the academic department chair/head through the respective dean to the Vice President for Academic Affairs, President, and Board of Regents. Any final decision not to reappoint a faculty member shall be determined by the Board of Regents.

2.2.2.1 — NOTIFICATIONS OF NON-REAPPOINTMENT OF NON-TENURE TRACK OR TENURE-TRACK REGULAR FACULTY

a) A non-tenured faculty member with a regular appointment who is not to be reappointed must be so notified no later than March 1.

b) All notifications of non-reappointment shall be given in writing by the Vice President for Academic Affairs.

b) Failure to reappoint may be without specific or stated cause.

(RM, 6-22/23-2004, pp. 29140, 29237)

2.3—FACULTY EVALUATION

2.3.1 — FACULTY EVALUATION, ADVANCEMENT IN SALARY, AND PROMOTION IN RANK

Faculty evaluation is a continuous process, both prior to and following the granting of tenure. An annual review of each faculty member’s performance is the responsibility of the academic deans and the specific academic department chair/head. A systematic procedure for accomplishing such evaluations shall be developed in each academic unit, with the participation and approval of the dean and the Vice President for Academic Affairs. The criteria for evaluation shall be carefully and clearly stated. Specific faculty assignments within an academic unit and the specific mission of a particular academic unit may have different percentages of effort distributed across the areas of professional activity (teaching; research and creative/scholarly activity; and professional and University service and public outreach/community engagement) if, in consultation with the dean and Vice President for Academic Affairs, this is determined to assist the entire University in best meeting its mission.
Specific provisions prescribing faculty evaluation, advancement in salary, tenure, and promotion in rank are set forth in the Faculty Handbook of the respective University.

2.3.2 —FACULTY TENURE

Tenure implies a mutual responsibility on the part of the University and the tenured faculty member. In granting tenure to a faculty member, the University makes a commitment to the faculty member’s continued employment, subject to certain qualifications. The University expects that tenured faculty members will maintain the level of performance by which they initially earned tenure. In those exceptional cases when it is recommended that a faculty member be permitted to reduce his or her employment to less than full-time and maintain a tenured status, specific Regental approval must be granted by the Regents.

Faculty members accorded tenure will normally commence their tenure appointments in the academic year immediately following the Board of Regents’ action.

In each case where tenure is awarded, there must be assurance that continuing financial support can reasonably be anticipated. The President shall determine whether funds are sufficiently secure to support the awarding of tenure.

2.3.3 —POST-TENURE REVIEW

Post-tenure review at the University is a periodic peer-based evaluation of tenured faculty for the purpose of guiding career development and, when judged necessary, improving faculty performance. The post-tenure review process is based on and extends the annual evaluation of faculty through two processes:

1) A retrospective review of faculty performance in teaching; research and creative/scholarly activity; and professional and University service and public outreach, over a period of time, not to exceed five years but no less than three, the three years preceding the review, and

2) A formative evaluation for future professional growth.

For all faculty, post-tenure review provides a formal opportunity for self-assessment and discussion with peers about professional development. For those faculty whose performance is judged to be below expectations, the evaluation leads to the formulation of a professional development plan, the purpose of which is to assist the faculty member to raise his or her level of performance to meet or exceed the expectations for tenured faculty.

Post-tenure review is mandatory for all tenured faculty.
Bearing in mind the value and importance of academic freedom and procedural due process to the well-being and success of the academic community, the University acknowledges and supports in principle the policies and procedures set forth in the AAUP's *Standards for Good Practice in Post-Tenure Review*. Post-tenure review is not a re-evaluation of a faculty member's tenure status, nor is it intended as means to effect programmatic change. The post-tenure review process will be carried out in a manner that is consistent with the University's policies on academic freedom and responsibility and on faculty evaluation. Post-tenure review will be based on the criteria for annual review established by the faculty of the unit and approved by the administration.

Specific provisions prescribing post tenure reviews are set forth in the Faculty Handbook of the University and include, but are not limited to, sections detailing procedures for normal and early review and the development of a professional development plan for faculty needing assistance.

**2.3.4 —SEVERE SANCTIONS**

The University strives to exercise great care in selecting faculty appointees and to confer tenure upon only those faculty members who have demonstrated their merit for tenured appointment. For that reason, severe sanctions such as dismissal of a tenured faculty member (abrogation of tenure) or of a regular faculty member during a non-tenure track or tenure-track appointment should be an exceptional event. It is also recognized, however, that a few faculty members may, from time to time, engage in improper conduct which requires severe sanctions short of dismissal. Such sanctions may include but are not limited to loss of prospective privileges for a stated period; restitution; a fine; a reduction in salary; or suspension from service for a stated period, without other prejudice. As in the case of dismissal, the imposition of severe sanctions short of dismissal should be viewed as a serious and infrequent step usually undertaken only after administrative remedies and minor sanctions have failed.

While extreme action will be required infrequently, the University must be prepared for such an eventuality, so that both the integrity of the University and the rights of the faculty member may be preserved. Toward this end, the faculty must be willing to recommend severe sanctions upon or dismissal of a colleague when necessary. By the same token, the President and the Board of Regents shall give all reasonable consideration to faculty recommendations.

Only the Board of Regents has the power to impose severe sanctions. The Board of Regents shall exercise this power only in cases where it determines that there exists sufficient cause for such action.

**2.3.4.1 —GROUNDS FOR ABROGATION OF TENURE, DISMISSAL, AND OTHER SEVERE SANCTIONS**

A faculty member against whom the imposition of a severe sanction is to be brought or whose dismissal is to be requested must have given such cause for the action as relates directly and substantially to his or her professional capabilities or performance. It is not possible to specify all proper grounds for these drastic measures. Proper reasons for dismissal of a regular faculty member
who has tenure or whose tenure-track appointment has not expired include, but are not necessarily limited to, the following:

a) Professional incompetence or dishonesty, including but not limited to, academic dishonesty, or misuse of University property or resources;

b) Substantial, manifest, or repeated failure to fulfill professional duties or responsibilities;

c) Personal behavior preventing the faculty member from satisfactory fulfillment of professional duties or responsibilities, including but not limited to, deliberate and grave violations of the rights and freedoms of fellow faculty members, administrators, or students.

d) Serious violations of law which are admitted or proved before a court of competent jurisdiction or the administrative body established to hear such matters, preventing the faculty member from satisfactory fulfillment of professional duties or responsibilities, or violations of a court order, when such order relates to the faculty member’s proper performance of professional responsibilities;

e) Changes in the University’s educational function through action of the Board of Regents and/or the Oklahoma State Regents for Higher Education, which result in the elimination of an academic unit. In such instances the University will make every reasonable effort to reassign affected faculty members to positions for which they are properly qualified before dismissal results from such elimination;*

f) Financial Emergency;*

g) Action(s) involving moral turpitude.

*Although not considered severe sanctions, (e) and (f) are proper reasons for dismissal of a faculty member who has tenure or whose tenure-track or non-tenure track term has not expired.

2.3.4.2 —GROUNDS FOR SUMMARY SUSPENSION

Suspension of a faculty member or assignment to other duties in lieu of suspension is justified only if immediate harm to the faculty member or to others is threatened by that person’s continued performance of regular duties. The faculty member may, on request and at the convenience of the department, be relieved of some professional duties if this is necessary to provide time for the preparation of a defense. Summary suspension does not remove from the University the obligation to provide due process within a reasonable period of time following action.

(RM, 6-22/23-2004, pp. 29140, 29237)

2.4 —FACULTY APPEALS & GRIEVANCES
Grievance procedures shall be available to any aggrieved party who is a member of the Regular Faculty of the University. Violations covered by this procedure include but are not limited to academic freedom and academic due process violations. Such violations may occur in the course of performing professional duties or in the process of being considered or evaluated for salary increase, promotion, tenure, or other personnel decisions in which the faculty member believes there has been unjust discrimination, harassment, violation of due process or academic freedom, or other grievance.

Specific provisions prescribing faculty appeals and grievances are set forth in the Faculty Handbook of the University.

(RM, 6-22/23-2004, pp. 29140, 29237)

2.5 FACULTY HONORS

2.5.1 ENDOWED CHAIRS AND PROFESSORSHIPS

Faculty may be appointed to endowed chairs and professorships.

2.5.1.1 CRITERIA FOR SELECTION

Specific criteria for the selection of occupants may be established for particular chairs as appropriate. To qualify for an endowed chair or professorship, a faculty member must be distinguished within a particular academic field or an interdisciplinary program.

2.5.1.2 SEARCH COMMITTEE

The President, with advice and counsel of the Vice President for Academic Affairs, the dean, and the department head, will appoint the Search Committee. Search Committees for occupants of endowed chairs and professorships shall be composed of:

1) Two faculty members from the academic unit concerned,

2) Two outside individuals distinguished within the relevant area and appointed by the President, and

3) The dean of the relevant school.

At least one member will be from outside the University and at least one member from another school. The President and the Vice President for Academic Affairs will meet with the Search Committee (and the dean and department head if appropriate) to hear their recommendations. The Vice President for Academic Affairs, after consultation, may make a recommendation to the
2.5.2 —SABBATICAL LEAVE POLICY

Sabbatical leaves of absence are among the most important means by which an institution’s academic program is strengthened, a faculty member’s teaching effectiveness enhanced, and scholarly usefulness enlarged. The major purpose is to provide opportunity for continued professional growth and new or renewed intellectual achievement through study, research, writing, and training.

However, a faculty member does not automatically earn a sabbatical leave. Instead, it is an investment by the University in the expectation that the sabbatical leave will significantly enhance the faculty member’s ability to contribute to the objectives of the University. There should be a clear indication that the improvements sought during a sabbatical will benefit the work of the faculty member, department, school, and the University. Only sabbatical leave proposals that meet this criterion will be accepted and approved by the University. Sabbatical leaves are supported as an investment in the future of the faculty member and the future of the faculty member’s students at the University.

The purposes for which a sabbatical leave may be granted may include:

1) Research on significant problems and issues.

2) Important creative or descriptive work in any means of expression; for example, writing or painting.

3) Postdoctoral study at another institution to update teaching skills.

4) Other projects satisfactory to the University.

It should be demonstrated that such work cannot occur as effectively during the regular work schedule of the faculty member.

Normally, the University will not grant a sabbatical for the purpose of pursuing work on the terminal degree in the faculty member’s academic field.

Adherence to the plan submitted by the faculty member is expected. Within two months of returning from leave, the faculty member shall submit to the Vice President for Academic Affairs, through the department head/chair and school dean, a report of activities undertaken, which will be used in evaluating future applications for sabbatical leaves.

A faculty member who is on sabbatical leave shall not be penalized on matters of salary consideration. The report on the sabbatical will be used in consideration for merit raises in subsequent
Specific provisions, if any, prescribing the policy and procedures related to sabbatical leaves are set forth in the Faculty Handbook of the University.

2.6 —GENERAL ACADEMIC ISSUES

2.6.1 —DENIAL OF ADMISSION

Any person who is otherwise academically qualified, meets all University admission requirements, and is denied admission for any reason may appeal that denial by requesting a hearing before the University committee charged with hearing appeals of admission denial within five days of receipt of denial. The committee shall proceed as quickly as possible to hear the matter so that one who has been wrongfully denied admission will not be prejudiced in his or her ability to perform the academic work required of him or her in that semester.

2.6.2 —ACADEMIC APPEALS PROCESS

In each University, there shall be established an Academic Appeals committee consisting of both students and faculty. Faculty members of the committee will be chosen by the faculty for a term determined by the faculty. Student members of the committee will be appointed for a term of one year by the chief student affairs officer upon recommendations from the Student Government Association president.

The responsibility for academic evaluations of students rests with the faculty. If a student feels wrongfully and unfairly treated by an instructor and if he or she is unable to resolve the matter in conference with the instructor or the departmental chair/head of the academic unit, an appeal may be made.

Specific provisions prescribing academic appeals are set forth in the University’s Student Handbook.

2.6.3 —ACADEMIC MISCONDUCT

2.6.3.1 —BASIC PRINCIPLE OF HONESTY

Honesty is a fundamental precept in all academic activities, and those privileged to be members of a university community have a special obligation to observe the highest standards of honesty and a right to expect the same standards of all others. Academic misconduct in any form is inimical to the purposes and functions of the University and therefore is unacceptable and rigorously proscribed.
2.6.3.2 —DEFINITION OF ACADEMIC MISCONDUCT

Academic misconduct includes:

a) Cheating (using unauthorized materials, information, or study aids in any academic exercise or on national board examination), plagiarism, falsification of records, unauthorized possession of examinations, intimidation, and any and all other actions that may improperly affect the evaluation of a student’s academic performance or achievement;

b) Assisting others in any such act; or

c) Attempting to engage in such acts.

Specific provisions of the Academic Misconduct Code are set forth in University publications, such as the University’s Student Handbook and Faculty Handbook.

2.6.4 —DEGREES GRANTED BY OKLAHOMA STATE REGENTS FOR HIGHER EDUCATION

Pursuant to the Oklahoma State Constitution, the Oklahoma State Regents for Higher Education shall grant degrees and other forms of academic recognition for completion of the prescribed courses in all state educational institutions.

2.6.4.1—DIPLOMAS

All diplomas awarded on the achievement of a degree shall bear the seal of the University and of the Oklahoma State Regents for Higher Education. In issuing diplomas for whatever purpose, the University and all of its divisions shall conform to the specifications stipulated by the Oklahoma State Regents for Higher Education and endorsed by the Board of Regents.

The diplomas of the University, for any and all degrees, may be changed only on recommendation of the President and with the approval of the Board of Regents and the Oklahoma State Regents for Higher Education.

Specific provisions prescribing the issuing of diplomas are set forth in a general catalogue or bulletin published by the University.

2.6.4.2—CERTIFICATES

Certificates bearing the name and the Seal or Coat of Arms of the University may be issued only by the University, pursuant to the applicable legislation in each instance as created by the President and Board of Regents and/or the State as represented by the Oklahoma State Regents for Higher Education or the Governor or legislature of the State of Oklahoma. Academic colleges, schools, departments, and other subdivisions of the University do not have such authority.
II-2-41, 6)

2.6.4.2.1 — CREDIT CERTIFICATES

The appropriate University Office of Admissions and Records is charged with the responsibility of administering the regulations governing the issuance of certificates. No certificates intended as an extension or elaboration of the curricular requirements for a degree shall be issued by the University or any subdivision thereof, nor shall certificates be issued for courses, programs of study, or stages required by the University in the fulfillment of the prescriptions for a degree.

Curricular programs based upon University policy and/or State legislation for which University credit is allowed but for which no degrees are granted (as, for example, the program in Office Administration), may be recognized by certificates. Certificates for other forms of professional proficiency than those herein before described may be issued only if programs for the achievement of such proficiency have been approved by the Board of Regents and/or the Oklahoma State Regents for Higher Education and are incorporated in the official publications of the University describing its curricular requirements. Nothing in this section shall be construed to contravene the requirements of the Oklahoma State Regents for Higher Education.

2.6.4.2.2 — NONCREDIT CERTIFICATES

Noncredit certificates (e.g., certificates of participation, certificates of completion, certificates of achievement) may be issued recognizing achievement of proficiency in some designated area through successful completion of either single or multiple course, credit-free, University-sponsored continuing education activities (e.g., short courses, conferences, workshops, professional development, and training). Such activities may be conducted in association with recognized professional associations, business groups, government agencies, and/or other academic units of the University, and the certificate may so state.

2.6.4.3 — AWARDING HONORARY DEGREES

The University is authorized to confer honorary degrees. (OSRHE Policy II-2-39 (14)

The University will award honorary degrees only in recognition of extraordinary achievement or in recognition of outstanding contributions to the welfare and/or enrichment of the University, State, nation, or world. A recipient may be any individual who has made outstanding contributions to a field or profession represented at the University.

(RM, 6-22/23-2004, pp. 29140, 29237)
and convenient to carry out the powers expressly granted to it by the Constitutions and the laws of the state, or to make the University effective for the purposes for which it is and operated; governance of all general policy matters, including without limitation, personnel appointments, internal auditing, retirement, leaves of absence, outside employment, intellectual property, equal opportunity, and grievance procedures for discrimination and harassment.

Specific provisions pertaining to general policies for the University may be set forth in the Faculty and Staff employee handbooks, Personnel Manuals, student handbooks, and/or other official policy documents of the University. Any modification to a Board of Regents’ policy in the policy documents referred to above or elsewhere must be made through action of the Board of Regents.

3.1 — GENERAL PERSONNEL POLICIES

3.1.1 — PERSONNEL ACTIONS

The President or the President’s authorized designees are authorized to approve the appointment of and fix the salary and terms of office of the following categories of personnel within funds available in the budgets approved by the Board of Regents (including reserve for contingencies) or within grant funds received by the University.

- Appointments, salaries, and other changes for members of the faculty who are non-tenure track, not tenured, or not eligible for tenure, whether part-time or full-time, unless full-time equivalent salary for the academic year will be $60,000 or more.

- Part-time graduate assistants, teaching assistants, research assistants, and consultants.

- Appointments, salaries, and other changes, including leaves of absence, for all members of the faculty and staff for terms of three months or less.

- Changes in title for tenured or tenure-eligible members of the faculty not involving a change in rank or salary.

- Appointments of part-time instructors for terms of no more than one semester during the regular academic year.

- Personnel in the administrative staff, managerial staff, professional staff, administrative officer, and executive officer classifications unless the full-time equivalent annual salary will be
$60,000 or more. Mid-year salary increases, other than for a promotion or completion of a probationary period, for monthly salaried staff at any level are excluded from this authorization.

- Service and operations staff and supervisory staff.

3.1.2 —CONTRIBUTIONS TO FRINGE BENEFITS PROGRAMS

Specific provisions pertaining to insurance and retirement benefits are set forth in the University’s faculty and/or staff/employee handbook(s).

The University’s contribution to the Oklahoma Teachers’ Retirement System and/or other charges for any other fringe benefit program for those individuals paid from other than Educational and General sources shall be charged to the source or sources of pay on a pro rata basis except where expressly forbidden by the source.

3.1.3 —PAYROLL DEDUCTIONS

The Board of Regents authorizes (1) current withholding from the compensation for an employee’s services, with the consent of the employee, amounts necessary for participation in various programs and (2) the President to approve future deductions which appear to be in the best interests of the University and its employees.

3.1.4 —EMPLOYMENT BENEFITS FOR PART-TIME EMPLOYEES

See the University’s Personnel Policy Manual staff/employee handbook or other policies for a description of “benefits for Part-Time employees.”

3.1.5—RESIGNATIONS

Resignations shall be effective on the last day of service of the employee, and an employee shall not be paid for a holiday if the last day of service was prior to the holiday period.

3.1.6 —LEAVES OF ABSENCE

3.1.6.1—ADMINISTRATIVE

An administrative leave with pay may be given when it is determined to be in the University’s best interest that an employee not return to work for a specified period of time or for designated emergency closings of the University. Recommendations for administrative leave must be submitted to the President or the President’s designee for approval.

3.1.6.2 —MILITARY LEAVE

The University’s policy on military leave of absence is administered in accordance with federal and
3.1.6.3 —LEAVE OF ABSENCE WITHOUT PAY

For specific policies relating to "Leave of Absence without Pay," see the University’s Faculty and/or Staff Handbook(s) or other applicable policies.

3.1.7 —PAID LEAVE AND EXTENDED SICK LEAVE

See the University’s Faculty and/or Staff Handbook(s) for specific policies on Paid Leave and Extended Sick Leave.

3.1.8 —CONFLICTS OF INTEREST

3.1.8.1 —PURPOSE OF POLICY

This policy addresses situations where there might be a potential financial conflict between a particular outside interest of a faculty or staff employee and the obligation that the employee owes to the University, such that an employee’s profit or advantage may come, or reasonably appear to come, at the expense of the well-being of the University.

The purpose of this policy is to aid in identifying apparent, actual, and potential conflicts of interest and assuring that such conflicts do not improperly affect the activities or professional conduct of the University or its employees. It is not the intent of this policy to restrict legitimate work related to the employee’s profession or discipline, but only to provide the University with authority to take action that is appropriate, proportionate, and focused on substantial conflicts of interest that compromise an employee’s professional judgment.

3.1.8.2 —STATEMENT OF GENERAL POLICY

The University is a public institution committed to the mission of teaching, research and creative/scholarly activity, and professional and University service and public outreach/community engagement. To these ends, the University balances an assortment of principles: maintaining an atmosphere that promotes free and open scholarly inquiry; facilitating the transfer of information and technology for the benefit of the public; and serving as a prudent steward of public and private resources entrusted to it. Faculty and staff have a primary commitment to their basic University duties of teaching; research and creative/scholarly activity, and professional and University service and public outreach/community engagement. These basic duties often limit outside activities. As a result, professional and personal activities may present conflict of interest situations, which should be evaluated under the auspices of this and other applicable policies.

Employee participation in outside professional, commercial, and pro bono publico activities can
REGENTS' POLICY MANUAL

make important direct and indirect contributions to the strength and vitality of the University. Through participation in such activities, employees may add to knowledge and understanding that is relevant and useful to teaching and research within the University, develop sources of funding and support for activities carried out in the University, and establish relationships valuable to the University. Because of its value to the University, its rewards for an individual employee, and its contributions to the larger society of which the University is a part, the University recognizes that employee participation in outside professional, commercial, or pro bono publico activities is often appropriate.

Sound professional discretion is an integral part of the University’s conflict of interest system. Any review of a potential conflict of interest will be undertaken in light of four general propositions.

First, conflicts of interest per se are inevitable and do not necessarily represent any impropriety by employees if disclosed in advance. Second, the failure to disclose a conflict of interest for administrative review and response would be a serious mistake for any employee and may be a breach of this policy. Third, there is a presumption in favor of allowing employees to act in dual roles once the conflict of interest has been disclosed (prior written approval is required in cases of potential conflicts involving federal grants or contracts). Fourth, conflicts of interest may be so profound or substantial that it would be best for all concerned if the employee did not participate in a particular transaction.

It is not possible to completely eliminate the potential for conflicts of interest because there are certain rewards and incentives that are inherent or appropriate in the structure of a University enterprise. Such conflicts become detrimental when the potential temptations, financial or otherwise, undermine reasonable objectivity in the design, interpretation, and publication of research; in setting University policies; in managing contracts; in selecting equipment and supplies; in involving students in sponsored projects; or in performing other roles in University governance in which objectivity and integrity are paramount. Furthermore, since allegations of conflicts of interest based on appearances can undermine public trust in ways that may not be adequately restored even when mitigating facts are brought to light, apparent conflicts should be avoided, when feasible and appropriate.

Other sections of this policy notwithstanding, it is the ongoing responsibility of the employee to abide by the provisions of all other applicable federal and state laws, and the University’s policies relating to conflicts of interest; to identify potential conflicts of interest; and to disclose and seek guidance on such matters from the appropriate vice president.

3.1.9 INTELLECTUAL PROPERTY POLICY

The people of the State of Oklahoma may reasonably expect that their investments in the University will create new industry and enhance existing industry within the State and Nation. Such new industry creates greater employment opportunities for citizens of the State and the Nation and an improvement in their standard-quality of living.

The creation and development of intellectual property at the University encourages new business
and is key to creating strong University and industry partnerships. It is the responsibility of University employees to disclose intellectual property and to foster an entrepreneurial attitude within the work force by involving students in the creation of intellectual property. Intellectual property development shall be pursued in concert with, but subject to, the University’s principal responsibilities of education and knowledge creation.

Therefore, it is in the best interest of the University to adopt a policy that encourages disclosure of discoveries and inventions and rewards such creative activity. To do so, the University’s policy must ensure that creators of copyrightable works or trademarks and inventors share in any financial success enjoyed by the University through the creation and commercialization of intellectual property. The basic objectives of the University’s policy concerning creative works, trademarks, discoveries, and inventions (i.e., intellectual property) include the following:

1) To maintain the University’s academic policy of encouraging research, publication, and scholarship independent of potential gain from royalties or other income.

2) To make patented materials created pursuant to University objectives available in the public interest under conditions that will promote their effective utilization and commercialization.

3) To provide adequate incentive and recognition to faculty and staff through proceeds derived from their creative works, trademarks, discoveries, and inventions.

Specific provisions prescribing matters related to the intellectual property policy are set forth in the University’s Faculty and/or Staff Handbook(s).

3.1.10 —OUTSIDE EMPLOYMENT AND EXTRA COMPENSATION POLICY

3.1.10.1—FACULTY

The missions of the University are teaching; research and creative/scholarly activity; and professional and University service and public outreach/community engagement. As professionals, University faculty are individually and primarily responsible for arranging their time among such academic functions as teaching assignments, research, service, continuing education, and consultation. Such arrangements will be subject to evaluation and approval by appropriate authorities as part of a faculty member’s total professional activity during the year with reference to department, school, and University criteria for merit salary increases, tenure, and promotion.

The professional expertise of the faculty is normally available to the state and its citizens for incidental and minor services without remuneration. When, however, the services desired from outside the University exceed a reasonable and mutually agreed limit, direct extra remuneration may be accepted, provided the extent of the involvement does not infringe on the faculty member’s regular University duties.
A person who accepts full-time faculty employment at the University assumes a primary professional obligation to the University. Any other employment or enterprise in which he or she engages for income shall be secondary to his or her University work. In addition, the academic department head should be informed and approve of arrangements which are made to dismiss classes or to provide substitute teachers for them, when the faculty members are to be absent from these duties. All professional activities, whether within the University or without, whether for extra remuneration or for no remuneration of any kind, should contribute to the faculty member’s professional growth or efficiency and to his or her teaching or scholarly competence.

After prior written arrangement, faculty members may engage in professional activities for extra remuneration (from within the University, or from outside sources, or in any combination of the two) to a maximum of 25% of their full-time professional effort. Faculty on twelve-month appointments may not receive extra compensation for teaching in the summer term or for performing sponsored research, except for teaching approved overload courses.

During any portion of the summer in which faculty members are not under appointment with the University, they may engage in outside employment without restriction.

Within the University, the time required for all extra compensation assignments during the entire year, and for all professional assignments during the summer, will be determined by those responsible for the various programs as an appropriate fraction of the faculty member’s full-time professional effort and the University will pay the faculty member the corresponding fraction of his or her base salary rate or at an adjunct rate, which shall be determined in the University’s sole discretion. The time required for all professional activities for extra remuneration outside the University will be determined by the faculty member as an appropriate fraction of his or her full-time professional effort when approval for such activity is requested.

Approval of outside employment shall be requested on a form entitled “Application for Permission to Engage in Outside Employment,” which is available in the office of human resources. Such applications and arrangements must be submitted at the beginning of each contract year and are the responsibility of the faculty member. All activities performed inside within the University for extra-compensation must be arranged, as all in-load assignments are, with the agreement of the department head, dean, and Vice President for Academic Affairs.

 Faculty should avoid possible conflicts of interest with the University in all outside employment. Questions regarding potential conflicts of interest should be addressed to the Vice President for Academic Affairs who may wish to consult the University Office of Legal Counsel.

No faculty member may hold a split (joint) appointment, which reflects more than a total of 1.0 full-time equivalent.

3.1.10.2—STAFF

The policy for faculty shall apply to administrative and professional staff who are on the monthly
payroll. Each Vice President may stipulate a more restrictive policy pertaining to administrative and professional staff within his or her administrative area.

With prior written approval, such individuals may engage in professional activities for extra remuneration (within the University, or from outside sources, or in any combination of the two) to a maximum of 25% of their twelve-month, full-time professional effort, but they may not receive extra compensation for teaching in the summer term or for performing sponsored research.

Administrative and professional staff who are on the monthly payroll shall request approval of outside employment on a form entitled “Request for Permission to Engage in Outside Employment,” available from the office of human resources. All activities performed within the University for extra compensation must be arranged, as regular assignments are, with the agreement of the Vice President, immediate supervisor, and, if applicable, the appropriate department chair/head, dean (where applicable), and Vice President.

(RM, 10-24-2005, p. 29901)

3.1.10.3—HARDSHIP PROVISION

If this policy creates a demonstrable hardship for a University program, exceptions may be granted by the President in response to a written request.

3.1.11—NEPOTISM

Except as prohibited by the laws of the State of Oklahoma, relationship by consanguinity (blood) or by affinity (marriage) shall not, in itself, be a bar to appointment, employment, or advancement by the University or, in the case of faculty members, to eligibility for tenure. The University recognizes, however, that there is an inherent conflict of interest when an employee makes hiring, promotion, or salary decisions about a family member, although there may be extremely rare circumstances when the potential benefit to the University in having an employee supervise a family member outweighs the potential harm.

Therefore, no two persons who are related by affinity or consanguinity within the third degree shall be given positions in which either one is directly responsible for making recommendations regarding employment, promotions, salary, or tenure for the other; nor shall either of two persons so related who hold positions in the same budgetary unit be appointed to an executive or administrative position in that unit, or to a position involving administrative responsibility over it, as long as the other person remains in the unit, without first receiving a waiver that has been recommended by the Vice President for Academic Affairs, or the appropriate Vice President, and approved by the President and Board of Regents. In recommending the waiver, the Vice President for Academic Affairs or the appropriate Vice President must make a written statement of the facts that have led him or her to conclude that the benefit to the University in granting the waiver outweighs the potential harm. In addition, the Vice President for Academic Affairs or the appropriate Vice President must propose in writing a means by which a qualified, objective person, unrelated to the employee at issue, shall make performance evaluations and recommendations for compensation, promotion,
and awards for that employee and state in writing how that means will avoid the conflict of interest. The statement and proposal for supervision shall be made part of the Board of Regents’ agenda item. Further, a salary increase above the average increase granted to all University employees in similar positions will not be granted to an employee who has been granted a waiver under this policy unless it has been approved by the applicable Vice President for Academic Affairs or appropriate Vice President and the President.

It is the responsibility of the head of the budget unit to seek a waiver before offering employment to any person whose employment would violate this policy, and the willful failure to follow this policy may result in disciplinary action against the head of the budget unit.

Notwithstanding any other provision of this policy, a conditional hire, prior to the approval of the Board of Regents, may be made pursuant to this policy if deemed necessary for legitimate academic or business reasons if justified in writing by the appropriate Vice President and approved by the President. At the next regular meeting of the Board of Regents, the written justification and the conditional hire will be considered by the Board of Regents.

Relatives that are within the third degree of relationship to an employee by consanguinity or affinity include the following: spouse, parent, parent of spouse, grandparent, grandparent of spouse, great-grandparent, great-grandparent of spouse, uncle or aunt, uncle or aunt of spouse, brother or sister, brother or sister of spouse, son or daughter, son-in-law or daughter-in-law, grandson or granddaughter, grandson’s or granddaughter’s spouse, great grandson or great granddaughter, and great grandson’s or great granddaughter’s spouse. For the purposes of this policy, step- and half relatives are considered to be related by affinity.

3.1.12 —PREVENTION OF ALCOHOL ABUSE AND DRUG USE ON CAMPUS AND IN THE WORKPLACE

The federal Drug-Free Workplace Act enacted into law in 1988 requires that any entity seeking to be considered to receive a grant from any federal agency, and any entity seeking to be awarded a contract for the procurement of any property or services of a value of $25,000 or more from any federal agency, certify to the Federal granting or contracting agency that it will provide a drug-free workplace.

The University recognizes its responsibility as an educational and public service institution to promote a healthy and productive work environment. This responsibility demands implementation of programs and services which facilitate that effort. The University is committed to a program to prevent the abuse of alcohol and the illegal use of drugs and alcohol by its students and employees. The University’s program includes this policy, which prohibits illegal use of drugs and alcohol in the workplace or as part of any University-sponsored activities. It shall be Board of Regents’ policy that:

1. All students and employees shall abide by the terms of this policy as a condition of initial and continued enrollment and employment.
2. The illegal use of drugs and alcohol is in direct violation of local, state, and federal
law, as well as University policies governing faculty, staff, and student conduct. This
policy strictly prohibits the illegal use, possession, manufacture, dispensing, or
distribution of alcohol, drugs, or controlled substances in the workplace, on its
University premises, or as a part of any University-sponsored activities.

4.3. Violating this policy shall be a major offense, which can result in a requirement for
satisfactory participation in a drug or alcohol rehabilitation program, at the employee’s
or student’s expense, referral for criminal prosecution, and/or immediate disciplinary
action up to and including termination from employment and suspension or expulsion
from the University. A criminal conviction is not required for sanctions to be imposed
upon an employee or student for violations of this policy.

2.4. Violations of applicable local, state, and federal laws may subject a student or employee
to a variety of legal sanctions including, but not limited to, fines, incarceration,
imprisonment, and/or community service requirements. Convictions become a part of
an individual’s criminal record and may prohibit—a certain career and professional
opportunities. A current listing of applicable local, state, and federal sanctions can be
obtained through the Office of Student Affairs and human resources.

3.5. An employee shall notify his or her supervisor in writing of a criminal conviction for
drug or alcohol-related offenses occurring in the workplace no later than five calendar
days following the conviction.

4.6. The University provides access to information about the dangers of drug and alcohol
abuse. Voluntary participation in or referral to these services is strictly confidential.

5.7. An employee shall not perform safety sensitive functions while a prohibited drug is in
his or her system.

6.8. The University may require drug testing of safety sensitive employees (as defined
by federal law) prior to employment, when there is reasonable cause, after an accident,
on a random basis, and before allowing the employee or student to return to duty after
refusing to take a drug test or after not passing a drug test.

7.9. The University shall distribute this policy to all staff, faculty, and students.

Health risks generally associated with alcohol and drug abuse can result in, but are not
limited to include, but are not limited to the following: a lowered immune system, damage to critical nerve
cells, physical dependency, lung damage, heart problems, liver disease, physical and mental
depression, increased infection, irreversible memory loss, personality changes, and thought disorders.

The chief fiscal officer is responsible for notifying Federal funding agencies within ten calendar
days whenever an employee is convicted of a drug-related crime which occurred in the workplace.
Decisions under this policy are subject to the grievance procedures stated elsewhere in the Board of Regents’ policy.

3.1.13 —FIREARMS POLICY

7) Any group desiring to use a firearm and/or munitions for ceremonial purposes on the campus—property owned, leased, or occupied by the Board of Regents—must tender a request to the appropriate Director of Campus Police. The chief public safety officer will review the request and forward it to the chief fiscal officer, who will in turn forward the request to the Office of Legal Counsel with a recommendation for approval or disapproval based upon safety considerations. The Office of Legal Counsel will notify the chief fiscal officer and any other appropriate officials of any approvals that are granted for the use of ceremonial firearms.

8) For use during a public performance, subject to the following conditions:

a) Firearms for use in public performances shall be rendered inoperable whenever discharge is not required as an integral part of the production.

10) The Rogers State University President has the authority to make exceptions to the above provisions when appropriate to further the University’s mission.

For purposes of this policy, “inoperable” means physically rendered incapable of firing either by removal of critical parts or installation of a device to prevent operation, or both. Where firearms are required to be inoperable, the Director of Campus Police shall inspect and certify that the firearm is inoperable.

3.1.14 —CANDIDATES FOR POLITICAL OFFICE

Employees may regard it as their duty to become candidates. In making the announcement of the adoption of the resolution, the Board of Regents stated that it did not want to be understood as offering discouragement to employees from becoming candidates for public office. Employees may regard it as their duty to become candidates.

3.1.15 —POLITICAL CONTRIBUTIONS BY THE PRESIDENT

While the President has significant political rights under applicable state and federal statutory and constitutional law, his or her political activities must not be represented, or implied to represent, that the President is speaking on behalf of the Board of Regents or the University.

(RM, 6-22/23-2004, pp. 29140, 29237)

3.2 — EQUAL OPPORTUNITY POLICIES

3.2.1 —EQUAL OPPORTUNITY POLICY

The University, in compliance with all applicable federal and state laws and regulations, does not discriminate on the basis of race, color, national origin, sex, sexual orientation, gender identity, gender expression, age, religion, political beliefs, disability, or status as a veteran in any of its policies, practices, or procedures. This includes, but is not limited to, admissions, employment, financial aid, and education services.

Each University, recognizing its obligation to guarantee equal opportunity to all persons in all segments of University life, reaffirms its commitment to the continuation and expansion of positive programs which reinforce and strengthen their affirmative action policies. This commitment stems not only from compliance with federal and state equal opportunity laws but from a desire to ensure social justice and promote campus diversity. Each University will continue its policy of fair and equal employment practices for all employees and job applicants without insidious discrimination on the basis of race, color, national origin, sex, sexual orientation, gender identity, gender expression, genetic information, age, religion, political beliefs, disability or status as a veteran. Each University will maintain a critical and continuing evaluation of its employment policies, programs and practices. Each budget unit bears a responsibility for constructive implementation of this Plan, and whenever possible, to the overall progress toward employment opportunity and participation in all University programs and activities. Our commitment to the concept of affirmative action requires sincere and cooperative efforts throughout all levels of our employment structure. We will continue to strive to reach the goals of fair and equal employment opportunities for all.

3.2.2 —AFFIRMATIVE ACTION PLAN
The Affirmative Action Plan serves to supplement the Board of Regents’ policy on equal opportunity, as it pertains to employment and is an integral part of the employment policies of the University. The Plan is revised once each year to address the current requirements for affirmative action in employment. The principal objectives are:

1) To assure all persons equal opportunity for employment and advancement in employment regardless of race, color, national origin, sex, sexual orientation, gender identity, gender expression, religion, age, disability, political beliefs, or status as a veteran.

2) To meet institutional responsibilities under the Civil Rights Act of 1964 and commitments as a federal contractor under Executive Order 11246 and Executive Order 11375.

3) To take positive actions in the recruitment, placement, development and advancement of diversity women and racial minority members in University employment.

Each person having administrative or supervisory responsibilities is expected to provide leadership in applying the Affirmative Action Plan.

Coordination of the application of the Affirmative Action Plan is the responsibility of the office of human resources.

3.2.3—RACIAL AND ETHNIC HARASSMENT POLICY

3.2.3.1—INTRODUCTION

Diversity is one of the strengths of our society as well as one of the hallmarks of a great university. The University supports diversity and therefore is committed to maintaining employment and educational settings which are multicultural, multiethnic, and multiracial. Respecting cultural differences and promoting dignity among all members of the University community are responsibilities each of us must share.

Racial and ethnic harassment is a growing concern across American college campuses. It has taken various forms, from criminal acts (assault and battery, vandalism, destruction of property) to anonymous, malicious intimidation, most often directed toward persons whose race and ethnicity is readily identifiable. The University does not discriminate or permit discrimination by any member of its community against any individual based on race, color, sex, sexual orientation, gender identity, gender expression, religion, political beliefs, national origin, age (40 or older), genetic information, disability, or veteran status in matters of admissions, employment, financial aid, housing or services in educational programs or activities the University operates. In employment, racial/ethnic harassment is a form of race discrimination— which that interferes with an employee’s ability to perform his or her duties or creates a hostile or intimidating work environment, that is prohibited by
law under Title VII of the Civil Rights Act of 1964. In the educational context, racial and ethnic harassment is a form of race discrimination which interferes with the students’ opportunities to enjoy the educational programs offered by the University, prohibited by law under Title VI of the Civil Rights Act of 1964.

The University policy also prohibits retaliation against a person for filing a complaint of discrimination or harassment under this policy or other applicable federal, state or local laws. This policy also prohibits retaliation against any person who assists someone with a complaint of discrimination or harassment or who participates in any manner in an investigation or resolution of a complaint of discrimination or harassment.

3.2.3.2 —POLICY STATEMENT

Principles of academic freedom and freedom of expression require tolerance of the expression of ideas and opinions, which may be offensive to some, and the University respects and upholds these principles. The University also adheres to the laws prohibiting discrimination in employment and education. The University recognizes that conduct which constitutes racial and ethnic harassment in employment or educational programs and activities shall be prohibited and is subject to remedial or corrective action as set forth in this policy. This policy is premised on the University’s obligation to provide an environment free from unlawful discrimination. The University will vigorously exercise its authority to protect employees and students from harassment by agents of the University, students, visitors, and guests.

Agents of employees of the University, acting within the scope of their official duties, shall not treat an individual differently on the basis of race, color, sex, sexual orientation, gender identity, gender expression, religion, political beliefs, national origin, age (40 or older), genetic information, disability, or veteran status or national origin in the context of an employment or educational program or activity without a legitimate, nondiscriminatory reason.

The University shall not subject an individual to different treatment on the basis of race, color, sex, sexual orientation, gender identity, gender expression, religion, political beliefs, national origin, age (40 or older), genetic information, disability, or veteran status or national origin by effectively causing, encouraging, accepting, tolerating, or failing to correct a racially or ethnically hostile environment of which it has notice.

The full text of the University Nondiscrimination Policy shall be made publicly available on the websites of each University. Hard copies may be requester through the University’s equal opportunity and/or student affairs office.

3.2.3.3 —CORRECTIVE ACTIONS

Violations of this policy shall result in corrective action(s) designed to reestablish an employment or educational environment which is conducive to work or learning. Corrective actions will include disciplinary action directed by the executive officer having responsibility for the offender, where
appropriate. Corrective actions will be tailored to redress the specific problem and may range from apologies, mandatory attendance at specific training programs, reprimands, suspension, demotion, expulsion, or termination. Corrective actions shall be based upon the facts and circumstances of each case and shall be in accordance with the terms and guidelines of the applicable campus grievance procedures.

Violations of this policy by students will be considered as violations of the Student Code and will subject student offenders to the corrective action(s) provided by the Code.

3.2.3.4 ADMINISTRATIVE ACTION

The University recognizes its obligation to address incidents of racial and ethnic harassment on campus when it becomes aware of their existence, even if no complaints are filed. Therefore, in such circumstances, the University reserves the right to take appropriate action unilaterally under this policy.

With respect to students, the University President, chief student affairs officer, or other appropriate persons may take immediate administrative or disciplinary action which is deemed necessary for the welfare or safety of the University community. Any student so affected must be granted due process including a proper hearing. Any hearing involving disciplinary suspension or expulsion shall be conducted in accordance with the University’s Student Code.

Lesser administrative or disciplinary action may be appealed to the University chief student affairs officer. Such requests must be in writing and filed within seven calendar days following summary action. The University chief student affairs officer will issue a written determination to the student within three working days following the date the request is received.

With respect to employees, upon a determination at any stage in the investigation or grievance procedure that the continued performance of either party’s regular duties or University responsibilities would be inappropriate, the proper executive officer may suspend or reassign said duties or responsibilities or place the individual on leave of absence, with or without pay, as may be approved by the President, pending the completion of the investigation or grievance procedure.

3.2.3.5 RETALIATION

Threats or other forms of intimidation or retaliation against complaining witnesses, other witnesses, any reviewing officer, or any review panel shall constitute a separate violation of this policy which may be subject to direct administrative action.

COMPLAINT PROCESS

The complaint procedures delineated herein apply to all students, faculty, staff, guests, or visitors. Complaints alleging violation of the racial and ethnic harassment policy will be reviewed and investigated by the appropriate University office. Complaints may be resolved informally or may
Complaints against students or student organizations, faculty or staff, or contractors working on University premises shall be filed with the Equal Opportunity Officer for review and investigation. The Equal Opportunity Officer, or his or her designee, may assist in the informal resolution of the complaint or in processing a complaint through the applicable University procedures.

Complaints against visitors or guests should be directed to the University Campus Police Department. The Campus Police department forwards informational copies of all reports and inquiries dealing with discrimination, harassment, or hate crimes to the Equal Opportunity Officer.

3.2.3.6—RESPONSIBLE OFFICIAL

The each University shall appoint an employee(s) to serve as the Equal Opportunity Officer, who is charged with the responsibility for administering this policy. The Office of Equal Opportunity Officer shall serve as a repository for all records of complaints, investigative reports, and remedies provided or corrective actions taken in connection with this policy are stored and maintained. The Equal Opportunity Officer is the overall coordinator of all University activities dealing with discrimination in employment or education.

The below are the designated equal opportunity officer(s) at each University:

Cameron University
Title IX/Equal Opportunity Officer

Rogers State University
Vice President, Student Affairs (Student)

Director of Human Resources (Faculty/Staff)

OU Equal Opportunity Officer

3.2.4—SEXUAL HARASSMENT/ AND SEXUAL ASSAULT GENDER-BASED MISCONDUCT POLICY

3.2.4.1—STATEMENT

The Board of Regents explicitly condemns gender-based misconduct, including, but not limited to, discrimination based on sex, sexual assault, sexual or sexual harassment sexual harassment of students against students, staff, and faculty. Sexual harassment and sexual assault are unlawful and will subject those who engage in it to University sanctions as well as civil and criminal penalties.

When criminal action is pursued in addition to an administrative grievance under this policy, the
Office of Equal Opportunity will coordinate its investigative actions with the University or local law enforcement authorities to ensure that criminal prosecution is not jeopardized. The University Equal Opportunity Officer may defer administrative action at the request of University or local law enforcement authorities pending completion of the criminal investigation. Where review by the University Equal Opportunity Officer or other University executive officer determines that immediate administrative action is necessary for the safety, health, and/or well-being of the University community, such action may be taken in advance of resolution of any criminal charges.

Since some members of the University community hold positions of authority that may involve the legitimate exercise of power over others, it is their responsibility to be sensitive to that power. Faculty, and supervisors in particular, in their relationships with students and subordinates, need to be aware of potential conflicts of interest and the possible compromise of their evaluative capacity. Because there is an inherent power difference in these relationships, the potential exists for the less powerful person to perceive a coercive element in suggestions regarding activities outside those appropriate to the professional relationship. It is the responsibility of faculty and staff to behave in such a manner that their words or actions cannot reasonably be perceived as sexually coercive, abusive, or exploitive. Sexual harassment and sexual assault can also involve relationships among equals, as when repeated advances, demeaning verbal behavior, or offensive physical contact interfere with an individual's ability to work or study productively.

Accordingly, the University is committed to providing an environment of study and work free from all forms of gender-based sexual harassment, exploitation, or intimidation and to ensuring the accessibility of appropriate grievance procedures for addressing all complaints regarding sexual harassment and sexual assault, discrimination. Any such activity committed by a member of the University community may subject the individual to University sanctions as well as civil and criminal penalties. This policy covers unwelcome conduct of a sexual nature. Consensual romantic relationships between members of the University community are subject to other University policies.

The full text of the University Gender-Based Misconduct Policy shall be made publicly available on the websites of each University. Hard copies may be requester through the University's equal opportunity and/or student affairs office.

The University reserves the right, however, to deal administratively with sexual harassment issues whenever becoming aware of their existence.

Records of all complaints, except for hearings before the Faculty Appeals Committee, shall be transmitted to and maintained by the University Equal Opportunity Officer as confidential records.

The University encourages victims to report instances of sexual harassment, sexual assault, or other sex offenses, either forcible or nonforcible. In addition to internal grievance procedures, victims are encouraged to file complaints or reports with Campus Police or local law enforcement agencies by telephoning 911 as soon as possible after the offense occurs in order to preserve evidence necessary to the proof of prove possible criminal offenses. The Campus Police Department is available to assist victims in filing reports with other area law enforcement agencies.
3.2.4.2—DEFINITION OF SEXUAL HARASSMENT

Gender-based misconduct comprises a broad range of behaviors focused on sex and/or gender that may or may not be sexual in nature. Any intercourse or other intentional sexual touching or activity without the other person’s consent is sexual assault, which is a form of gender-based misconduct under this Policy. Sexual harassment, sexual exploitation, gender-based harassment, stalking, domestic violence, and dating violence are also forms of gender-based misconduct. Intimidation for one of these purposes is gender-based misconduct, as is retaliation following an incident of alleged gender-based misconduct or attempted gender-based misconduct. Misconduct can occur between strangers or acquaintances, or people who know each other well, including between people involved in an intimate or sexual relationship, can be committed by anyone regardless of gender identity, and can occur between people of the same or different sex or gender. This Policy prohibits all forms of gender-based misconduct.

Sexual harassment shall be defined as unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature in the following context:

1) When submission to such conduct is made, either explicitly or implicitly, a term or condition of an individual’s employment or academic standing, or

2) When submission to, or rejection of, such conduct by an individual is used as the basis for employment or academic decisions affecting such individual, or

3) When such conduct has the purpose or effect of unreasonably interfering with an individual’s work or academic performance or creating an intimidating, hostile, or offensive working or academic environment.

3.2.4.4—RETAILIATION

University policy also prohibits retaliation against a person for filing a complaint of discrimination or harassment under the Nondiscrimination Policy and/or the Gender-Based Misconduct Policy or other applicable federal, state or local laws. This Retaliation Policy also prohibits retaliation against any person who assists someone with a complaint under these laws or policies or who participates in any manner in an investigation or resolution of such a complaint. Any attempt to penalize or retaliate against a person for filing a complaint or participating in the investigation of a complaint of sexual harassment will be treated as a separate and distinct violation of this policy.

3.2.4.5—SANCTIONS

Appropriate disciplinary action may include a range of actions up to and including dismissal and/or expulsion.
3.2.4.6—DUTY TO REPORT GENDER-BASED MISCONDUCT

Any member of the University community may report conduct that could constitute gender-based misconduct, including sexual assault, discrimination and harassment. Additionally, supervisors, managers, and other designated employees are responsible for taking all appropriate action to prevent gender-based misconduct sexual assault, discrimination and harassment, to correct it when it occurs, and to promptly report it to the Equal Opportunity Officer, Title IX Officer, or other appropriate University official. Failure to do so may result in disciplinary action up to and including termination.

3.2.4.7—COMPLAINT PROCEDURE

Any individual who at the time of the actions complained of was employed by the University or was an applicant for University employment or was enrolled as a student or an applicant for admission at the University may file a complaint concerning violations of the Nondiscrimination Policy with the Equal Opportunity Officer, and with respect to violations of the Gender-Based Misconduct Policy with the Title IX Officer and/or the Equal Opportunity Officer for review and investigation regarding complaints against University students, faculty, staff or those third parties utilizing University services or third parties on University premises. Complaints alleging a violation of the Sexual Harassment/Sexual Assault Policy shall be handled in accordance with the Equal Opportunity Grievance Procedure.

3.2.5—DISCRIMINATION POLICY

(For Other than types of discrimination that are not otherwise provided for in this Policy Manual Sexual or Racial/Ethnic Harassment)

The University has a policy of internal adjudication in matters relating to alleged—discrimination. Any faculty member, staff member, or student, including without restriction, those on temporary or part time status, who believes that he or she has been discriminated or—retaliated against should file a complaint under the Equal Opportunity Grievance Procedure.

Any attempt to penalize or retaliate against a person for filing a complaint or participating in the investigation of a complaint of discrimination and/or harassment will be treated as a separate—and distinct violation of this policy.

3.2.6.2.5—CONSENSUAL SEXUAL RELATIONSHIPS POLICY

3.2.6.1—RATIONALE

The University’s educational mission is promoted by professionalism in faculty, staff, and student relationships. Professionalism is fostered by an atmosphere of mutual trust and respect. Actions of faculty, staff, and students that harm this atmosphere undermine professionalism and hinder
University employees exercise power over subordinate employees and students, whether in giving them praise or criticism; evaluating them; making recommendations for promotion, further studies, or their future employment; or conferring any other benefits on them.

Amorous relationships between employees and subordinate employees or subordinate students are wrong when the employee has professional responsibility for the subordinate employee or student.

Consensual amorous, dating, or sexual relationships have inherent risks when they occur between a faculty member, supervisor, or other member of the University community and any person over whom he or she has a professional responsibility. The risks include a student or subordinate’s feeling coerced into an unwanted relationship to ensure they receive a proper educational or employment experience; potential conflicts of interest in which the person is in a position to evaluate the work or make personnel or academic decisions with respect to the individual with whom he or she is romantically involved; a perception by students or employees that a fellow student or coworker who is involved in a romantic relationship with his or her supervisor or professor will receive an unfair advantage; either or both of the parties engaging in behavior destructive to the other or their academic or working environments if the relationship ends; and the potential that University/state resources are used inappropriately to further the romantic relationship. Such situations greatly increase the opportunities that a University employee may abuse his or her power and sexually exploit the subordinate employee or subordinate student. Voluntary consent in such a relationship is suspect, given the fundamentally asymmetric nature of the relationship. Moreover, other employees and students will likely be adversely affected by such unprofessional behavior because it places the employee in a position to favor or advance one individual’s interests at the expense of others and implicitly makes obtaining benefits contingent on amorous or sexual favors. Therefore, the University will view it as unethical if staff or faculty members engage in amorous relations with subordinate employees or students enrolled in their classes or subject to their supervision, even when both parties appear to have consented to the relationship.

Those with professional responsibility over others and with whom they have a romantic relationship should be aware that their involvement may subject them and the University to legal liability; consequently, such relationships are strongly discouraged. “Professional responsibility” is defined as performing functions including but not limited to teaching, counseling, grading, advising, evaluating, hiring, supervising, and making decisions or recommendations that confer benefits such as promotions, financial aid awards, or other remuneration, or that may impact upon other academic or employment opportunities.

3.2.6.2—DEFINITIONS

As used in this policy, the term “employee” includes all employees, including but not limited to, academic and non-academic administrators, supervisory personnel, staff, faculty, graduate students
with or without teaching responsibilities, student employees, and other instructional personnel. The term “consensual sexual relationship” may include amorous or romantic relationships and is intended to indicate conduct which goes beyond what a person of ordinary sensibilities would believe to be a collegial or professional relationship.

The term “subordinate” as used here means an employee or student in a position of lesser power or authority than the other party to the amorous relationship; e.g., any employee or student who is beneath another in the employment chain of command or who relies upon the other for day-to-day directions would be “subordinate,” as would a project team member or housing resident with respect to the project director or resident advisor, respectively.

3.2.6.3—POLICY

Consensual sexual relationships between employees and subordinate employees or subordinate students are prohibited. Violations of this policy may lead to disciplinary action up to and including termination and/or expulsion.

3.2.6.3.1—FACULTY-STUDENT RELATIONSHIPS

A. Employee Relationships with Subordinate Students or Subordinate Employees

Within the Instructional Context – It is considered a serious breach of professional ethics for an employee to initiate or acquiesce in a sexual relationship with a student who is enrolled in a course being taught by the employee or whose academic work (including work as a teaching assistant) is being supervised by the employee.

Outside the Instructional Context -- Sexual relationships between faculty members and students occurring outside the instructional context may lead to difficulties. Particularly when the faculty member and student are in the same academic unit or in units that are academically allied, relationships that the parties view as consensual may appear to others to be exploitative. Further, in such situations, the faculty member may face serious conflicts of interest and should be careful to distance himself or herself from any decisions that may reward or penalize the student involved. A faculty member who fails to withdraw from participation in activities or decisions that may reward or penalize a student with whom the faculty member has or has had an amorous relationship will be deemed to have violated his or her ethical obligation to the student, to other students, to colleagues, and to the University.

3.2.6.3.24—STAFF-SUBORDINATE RELATIONSHIPS

Other Contexts—Sexual relationships between employees and subordinate employees or subordinate students occurring outside the instructional context may also lead to difficulties, particularly when the employee and subordinate employee or subordinate student are in the same academic unit or in units that are closely allied. Relationships that the parties view as consensual may appear to others to be exploitative. Further, in such situations the employee may face serious conflicts of interest and must be careful to distance himself or herself from any decisions that may
reward or penalize the subordinate employee or subordinate student involved. An employee who fails to withdraw from participation in activities or decisions that may reward or penalize such subordinates with whom the employee has or has had an amorous relationship will be deemed to have violated his or her ethical and professional obligations to the University.

Supervisors, or those with professional responsibility, over someone with whom they have or have had an amorous, consensual, romantic, or sexual relationship must notify their direct supervisor that a management-control plan needs to be implemented, or that the supervisor wishes a transfer so that he or she is no longer in a position of professional responsibility over the affected individual. To avoid the severe risks noted, supervisors in such relationships may not manage, supervise, evaluate, or make other employment decisions concerning the individual with whom they are engaged in a romantic relationship. If the relationship ends, the management-control plan must remain in effect. Failure to notify a supervisor to ensure a plan is in place may result in disciplinary action, including termination, for that supervisor. An employee who fails to enter a management control plan or withdraw from participation in activities or decisions that may reward or penalize such subordinates with whom the employee has or has had an amorous relationship will be deemed to have violated his or her ethical and professional obligations to the University.

Prohibitions

Consensual sexual relationships between employees and subordinate employees or subordinate students are prohibited. Violations of this policy may lead to disciplinary action up to and including termination and/or expulsion.

3.2.7.1 — WHO MAY USE PROCEDURE

The grievance procedure embodied herein shall be available to any person who, at the time of the acts complained of, was employed by, was an applicant for employment with, or was enrolled as a student at the University.

This procedure applies to persons who have complaints alleging discrimination based upon race, color, national origin, sex, age, religion, disability, political beliefs, or status as a veteran or complaints alleging sexual harassment, consensual sexual relationships, retaliation, or racial and ethnic discrimination, harassment, or retaliation. Such persons may file their complaints in writing with the University Equal Opportunity Officer.

Complainants who exercise their right to use this procedure agree to accept its conditions as outlined. Where multiple issues exist (e.g., sexual harassment and violation of due process or grade appeal), the complainant must specify all of the grounds of the grievance of which the complainant knows or should have reasonably known at the time of filing. A grievance filed under this procedure may normally not be filed under any other University grievance procedure. Depending on the nature
of the issues involved, the complainant will be advised by the University Equal Opportunity Officer or his or her designee about the appropriate procedure(s) to utilize.

### 3.2.7.3 TIMING OF COMPLAINT

Any complaint must be filed with the University Equal Opportunity Officer within 180 calendar days of the act of alleged discrimination, harassment, or retaliation. The University Equal Opportunity Officer may reasonably extend all other time periods.

### 3.2.7.4 ADMINISTRATIVE ACTION

A. The University recognizes its obligation to address incidents of discrimination, harassment, or retaliation on campus when it becomes aware of their existence. Even if no complaints are filed, the University reserves the right to take appropriate action unilaterally under this procedure.

B. With respect to students, the University chief student affairs officer or other appropriate persons in authority may take immediate administrative or disciplinary action, which is deemed necessary for the welfare or safety of the University community. Any student so affected must be granted appropriate due process.

C. With respect to employees, upon a determination at any stage in the investigation or grievance procedure that the continued performance of either party’s regular duties or University responsibilities would be inappropriate, the proper executive officer may suspend or reassign said duties or responsibilities or place the individual on leave of absence pending the completion of the investigation or grievance procedure.

### 3.2.7.5 WITHDRAWAL OF COMPLAINT

The complainant may withdraw the complaint at any point prior to the adjournment of a formal hearing.

### 3.2.7.6 CONFIDENTIALITY OF PROCEEDINGS AND RECORDS

Investigators and members of the Hearing Panel reviewing the grievance are individually charged to preserve confidentiality with respect to any matter investigated or heard. A breach of the duty to preserve confidentiality is considered a serious offense and will subject the offender to appropriate disciplinary action. Parties and witnesses also are admonished to maintain confidentiality with regard to these proceedings.

All records, involving discrimination, harassment, or retaliation upon disposition of a complaint, shall be transmitted to and maintained by the University Equal Opportunity Officer as confidential records except to the extent disclosure is required by law.
3.2.7.7—PROCEEDINGS AND INVESTIGATION

Upon receipt of a complaint, the University Equal Opportunity Officer is empowered to investigate the charge, to interview the parties and others, and to gather pertinent evidence. The investigation should be completed within 60 calendar days of receipt of the complaint, or as soon as practical. If a time period is extended for more than 10 calendar days, the University Equal Opportunity Officer will provide written or oral notice of reason for extension to all parties involved. The investigator shall prepare a record of the investigation.

In arriving at a determination of a policy violation at any stage of the proceedings, the evidence as a whole and the totality of the circumstances and the context in which the alleged incident(s) occurred shall be considered. The determination will be made from the facts on a case-by-case basis.

Upon completion of the investigation, the University Equal Opportunity Officer is authorized to take the following actions:

1. Satisfactory Resolution—Resolve the matter to the satisfaction of the University and both the complainant and the respondent. If a resolution satisfactory to the University and both parties is reached through the efforts of the University Equal Opportunity Officer, he or she shall prepare a written statement indicating the resolution. At that time, the investigation and the record thereof shall be closed.

2. Dismissal—Find that no policy violation occurred and dismiss the complaint, giving written notice of said dismissal to each party involved. Within 15 calendar days of the date of the notice of dismissal, the complainant may appeal said dismissal in writing to the University Equal Opportunity Officer by requesting a hearing. If no appeal is filed within the 15 calendar day period, the case shall be considered closed.

3. Determination of Impropriety

1) Make a finding of impropriety and notify the parties of the action to be taken. Either party has the right to appeal said determination in writing within 15 calendar days of the date of determination to the University Equal Opportunity Officer by requesting a hearing. If no appeal is filed within the 15 calendar day period, the case shall be considered closed.

2) In the case of a complaint against a faculty member, the administrative investigator may determine that the evidence is sufficiently clear and serious so as to warrant the immediate commencement of formal proceedings as provided in the Severe Sanctions sections of the Faculty Handbook. If the President concurs with the administrator’s finding, the case may be removed at the option of the accused from the grievance proceedings contained herein, and further action in the case shall be

(RM, 6-22/23-2004, pp. 29140, 29237)

4.4 — OBLIGATION AND COLLECTION OF STUDENT FEES

Tuition and fees and, including other fees for special educational services, are due prior to the first day of class. The University’s administration shall establish and publish a deadline when tuition and fees are payable, after which the payment may be subject to a service or late payment charge.

4.4.1 —ADD/DROP PERIOD

Changes of schedule may be made. A student may change his or her schedule during the first two weeks of a regular semester, or and during the first week of a summer term, without incurring a penalty, and the with appropriate charges will be added and/or removed charge removals for the respective classes added or dropped by the student. Classes may be dropped during the first ten regular instructional days of a regular semester and the first five regular instructional days of a summer session, or, in general, the first one-eighth of the academic term. The University may also allow students to add courses during this period or a designated shorter period. In either case, appropriate add/drop charges apply.

4.4.2 —LATE PAYMENT

Late payment will require payment in full and will be subject to a service/late payment charge in an amount determined and published by the University.

4.4.3 —FINANCIAL OBLIGATIONS INCURRED BY STUDENTS

The following procedures modify and clarify existing practices of the University governing financial obligations incurred by students, including both initial payments and delinquent debts. These procedures may be categorized as:

Obligation and collection of tuition and fees

Obligation and payment of other charges and fees

Insufficient funds checks

Delinquent housing payments
4.4.3.1 — OBLIGATION AND COLLECTION OF TUITION AND FEES

1) A financial obligation is incurred at the time a student elects to register. Registration may be canceled without financial obligation at any time before the scheduled first day of classes, or during the first two weeks of a regular semester, or during the first week of a summer term or during the drop period defined in 4.4.1.

2) Students may pay tuition and fees prior to the first day of classes. Monthly statements will be prepared and mailed prior to the fee payment deadline. Failure to receive a statement will not exempt a student from late penalties. It is the student’s responsibility to determine his or her financial obligation and how it is to be met.

3) To avoid penalties and/or service charges, students are required to pay all tuition and fees in total prior to the date designated by the Business Office or Bursar as the last day to pay tuition and fees without penalty. At the time of enrollment, students will receive detailed information regarding tuition and fee payment.

4) Students may pay their tuition and fees in four payments during each fall and spring semester. These payments are subject to the service charge as defined in paragraph 6.

5) Students who do not pay their tuition and fees during the period noted above will be considered to have delinquent accounts. The Business Office or Bursar will send “Overdue Notices” directly to the students when their tuition and fees are not paid on time.

6) Students will be charged a payment plan fee and/or a monthly service charge on any unpaid balance on their student accounts receivable that is one billing cycle past due. The payment plan fee and/or a monthly service charge rate is published by the Business Office/Bursar each semester.

Service/Llate Payment Charges may be waived if the University, through its action or inaction, has caused the payment for tuition and fees to be made beyond published deadlines, or if there are extraordinary circumstances (e.g., death in family, serious illness, accident, etc.) which result in the student’s tuition and fees not being paid by the published deadlines. The extraordinary circumstances must be an event which the student could not reasonably control or foresee. Extraordinary circumstances do not include reasons such as failure to receive a bill, not having the funds to pay, having a car payment or other payments due, or having other reasons which could be reasonably controlled or foreseen by the student. Students requesting a waiver of the Service/Llate Payment Charges due to an extraordinary circumstance should submit a written request to the Business Office/Bursar fully describing the circumstances and include copies of supporting information. Requests for waivers should be submitted prior to the published deadline for tuition and fee payment whenever possible. The Business Office/Bursar shall review the request and
supporting documentation and determine whether a Service/Late Payment Charges waiver is to be made. In addition, students requesting Service/Late Payment Charges waivers should contact the Office of Financial Aid to determine if their extraordinary circumstance makes them eligible for aid from any of the University’s financial aid programs. Students paying tuition and fees with financial aid must obtain a Service/Late Payment Charges waiver from the Office of Financial Aid, in addition to the waiver from the Business Office/Bursar. Eligibility for this additional waiver will be determined by the Office of Financial Aid.

7) Students with outstanding tuition and fees at the beginning of any enrollment period who are not in conformance with items paragraphs 3 or 4, above, at the beginning of any enrollment period will not be permitted to enroll. The Business Office/Bursar will notify the Registrar of the names of those students with outstanding tuition and fees. Except for HOLDS on students’ accounts that have been referred to Collections, the Business Office/Bursar or their designee may remove enrollment HOLDS as an exception to this policy when, in the judgment of the Business Office/Bursar or his/her designee, there are extraordinary circumstances which prevented the student from paying outstanding tuition and fees.

8) Until and including the last day of final examinations, students may pay their delinquent accounts by paying their account balance in full, including all tuition and fees for all of their original enrollment plus the service charge noted in paragraph 6, above. Students settling their delinquent accounts after the last day of final examinations will be charged an additional penalty over and above the charges for delinquent accounts noted above. The amount of the additional late payment charge is published by the Business Office/Bursar each semester.

9) The Business Office/Bursar will notify the Registrar of the names of those students whose tuition and fees are not paid by the last day of classes. The Registrar may withhold the reporting of their final grades for such a student and will not release their student’s transcript until his or her account balance is paid in full.

10) Withdrawal from classes after the first two weeks of a fall or spring semester, and or after the first week of a summer term, does not relieve students of their financial obligation to the University, and these students will be charged 100% of the tuition and fees due the University.

11) Those students who wish to pay tuition and fees to be reinstated for a semester or summer term after the last day of finals for that session must be referred to the Vice President for Academic Affairs. The basic posture is that retroactive reinstatement would be allowed only in cases where it can be established that the University somehow contributed to the student’s late payment by some error on its part. Students requesting to be retroactively enrolled or added for prior semesters will be charged the tuition and fee rates in effect for the current semester plus applicable late fees and service charges. Regardless of when a student pays tuition and fees, payment for the entire enrollment is required. Selective course payment is not permitted.

12) All payments for delinquent accounts must be paid in a manner acceptable to
4.4.3.2—OTHER CHARGES AND FEES

1) Fines, charges, or other miscellaneous fees become a financial obligation of the student at the time they are assessed.

2) These charges will be periodically added to the central student’s bursar accounts receivable which is maintained by the Business Office/ or Bursar.

3) Payment or satisfactory adjudication of all existing charges may be made at any time. If not paid prior to payment of tuition and fees, all other charges and fees are immediately due, and payment must be made when tuition and fees are paid.

4) Miscellaneous charges incurred during the remainder of the semester will be billed to the student on a monthly basis.

5) Delinquent payment of charges will not constitute grounds for withdrawal. The charges will be carried forward to the next semester, at which time all fees and charges must be cleared prior to any new enrollment. Except for HOLDS on students’ accounts that have been referred to the Collection Division Office, the Business Office/Bursar, or their designee may remove enrollment HOLDS as an exception to this policy when, in the judgment of the Business Office/Bursar, or their designee, there are extraordinary circumstances which prevented the student from paying outstanding fees and charges. Students leaving the University will find their official records and transcripts tagged, and these records will not be released to other persons, institutions, or agencies until all debts are paid.

4.4.3.3—DELINQUENT HOUSING PAYMENTS

A financial and legal obligation is incurred when a student or the student’s parent signs a housing contract. The contract specifies the payment procedures.

The University shall establish, publish, and maintain policies and procedures to ensure the collection of University housing and food services obligations in accordance with housing and food service contracts. Said policies and procedures shall include the use of both internal and external collection offices and the University’s Legal Counsel when appropriate.

The chief business officer/appropriate Vice President or his or her designee will be responsible for the supervision and enforcement of the procedures set out herein.

All questions about financial obligations should be directed to the Business Office/Bursar. If the question concerns the student’s enrollment, verification of registration records will be performed and, if appropriate, financial obligations adjusted. If the question concerns miscellaneous charges, and
fines, or fees, satisfactory adjudication must be obtained from the charging department. If it is evident that a problem developed as a result of an error in the University’s administrative processes, payment and reinstatement will be permitted without additional late charges or penalties.

### 4.4.34.4 —LEGAL ACTION TO COLLECT ACCOUNTS

The Board of Regents authorizes the Office of Legal Counsel to institute file suit in the name of the Board of Regents to collect accounts due and owing to the University, and to compromise or settle said suits upon such terms and conditions as the General Counsel believes to be in the best interest of the University.

The University Collection Division, under the authority of the Office of Legal Counsel, is responsible for the recovery of delinquent student accounts receivable and student loans that require litigation.

(RM, 6-22/23-2004, pp. 29140, 29237)

### 4.5 — TUITION AND FEE REFUND POLICY

The refund policy for tuition and fees (except for Title IV recipients) collected from students at the University shall be included in the published class schedule, program brochures, and relevant web sites.

(RM, 6-22/23-2004, pp. 29140, 29237)

### 4.6 — SCHOLARSHIP AND FINANCIAL AID INFORMATION

To facilitate the responsibilities charged to the University Financial Aid Services office, all scholarship and financial aid information and resources awarded from any school, department, office, or other University-related entity are to be reported to the Office of Financial Aid Services in a complete and timely fashion.

(RM, 6-22/23-2004, pp. 29140, 29237)

### 4.7 — AUXILIARY ENTERPRISES/ SERVICE UNITS

Auxiliary enterprises and service units primarily exist to furnish goods and services to students, faculty, or staff, and charge a fee for the cost of the goods or services. To ensure that data
Each Auxiliary Enterprise and/or Service Unit is to develop, maintain, and implement prudent business practices including, but not limited to:

1) A comprehensive procedure manual documenting applicable policies, procedures, standards, and other administrative and operating criteria;

2) Formal procedures for outlining operating standards and pricing criteria. The underlying procedures must include the processes for evaluating costs and determining prices, fees, charges, etc.;

3) The development of budgets and operating plans;

4) Transfers of excess funds from unrestricted auxiliary accounts to other auxiliary or general University accounts within the University to accomplish general management goals and meeting needs and priorities; and

5) Periodic reporting of financial activities to the Vice President for Business Affairs, the President, and the Board of Regents.

Creation of Auxiliary Enterprises and Service Units shall be approved by the President or his or her designee. Deletion or Termination of any Auxiliary Enterprises and Service Units may be approved by the President or his or her designee. In those circumstances where creation or closure will result in significant financial or other institutional impact, the Board of Regents’ notification is also required.

The primary responsibility for managing each unit shall be with the operating manager of each Auxiliary Enterprise and Service Unit, and their respective Dean or Director, and their respective Executive Officer.

4.7.1—UNIVERSITY POLICE OFFICERS

In 1963, the Oklahoma Legislature passed a law that allows universities and colleges to commission their campus police officers. Under this law, the campus police officers have all the power vested by law in peace officers, except the service of civil process, in the protection and guarding of the grounds, buildings, persons, and equipment of the University, and as well as the power to prevent improper conduct and trespassing upon the grounds of the institution. The law also allows the commissioned campus police officers to make arrests and take
into custody persons guilty of illegal conduct or trespassing.

All campus police officers of the University shall be commissioned by the Board of Regents.

The statute provides that the Board of Regents shall prescribe the duties, designate the uniform, fix the compensation, and provide a written commission for the campus police officers.

The following duties shall be given to the commissioned campus police officers:

- To enforce all University rules and regulations referred to for enforcement.
- To enforce all state and federal criminal laws upon the property of the University.
- To protect and safeguard all students, employees, and visitors of the University.
- To protect and guard all of the grounds, buildings, and equipment of the University.
- To strive to prevent any improper conduct at the University.
- To prevent trespassing upon any property belonging to the University.
- When called upon, to aid any other law enforcement agency.
- To enforce traffic regulations.
- To make investigations and inquiries believed to be necessary to carry out all of their other prescribed duties.
- To make arrests and take into custody any person when such action is necessary to carry out the duties of the office.

The President or his or her designee shall approve the uniforms for campus police officers and other enforcement personnel to wear while on duty, or shall prescribe dress appropriate to the individual’s assignment. Police uniforms shall clearly identify the wearer as a campus law enforcement officer, shall be distinguished from uniforms worn by other law enforcement agencies operating in the same geographic area, and shall represent the University in a positive and professional manner.

\[\text{RM, 6-22/23-2004, pp. 29140, 292374 O.S. § 360.15, et seq.}\]

### 4.8 — PARKING AND TRAFFIC REGULATIONS

The Board of Regents has determined that it is in the best interests of the University that rules and regulations be promulgated and adopted governing the keeping and use of automobiles by University
employees and students, providing parking areas for the employees and students of the University, and providing a method of carrying such rules and regulations into effect and the enforcement thereof. The applicable portion of these regulations shall apply to every employee of the University, and the portions applicable to students shall be deemed a part of the established regulations of the University that govern every student.

The President may revise, alter, or amend these regulations when conditions warrant. Such amendments, revisions, or alterations shall, unless otherwise ruled by the Board of Regents, be effective and of the same dignity as if enacted or ordered by said Board of Regents.

Specific provisions of the University’s parking and traffic regulations are prescribed in the University’s parking and traffic regulations handbook.

(RM, 6-22/23-2004, pp. 29140, 29237)

4.9 — AUTHORITY TO SIGN CONTRACTUAL DOCUMENTS

The authority for any individual to sign contracts on behalf of the University originates with the Board of Regents. The Board of Regents grants to the President the power to delegate such signature authority to appropriate University executives, officers, and directors. Unless the President specifically delegates this authority to an individual by formal written communication, that individual may not sign any document whatsoever that binds, or has the appearance of binding, the Board of Regents and/or any element thereof.

Such documents include, but are not limited to, purchase orders, grants, contracts, sub-contracts, licenses, leases, funding applications, extensions and renewals, letters and/or memoranda of understanding, sales orders, and work orders, and the like. The common feature of such documents is the obligation it imposes on the University, the breach of which may impose legal liability on the University. Such documents may involve products and services that the University provides to other parties for compensation and products and services that the University acquires from other parties in exchange for payment. They may also involve mere agreements by which duties and responsibilities of the parties involved are formally delineated, even though monetary or other valuable consideration may not be involved.

The delegated authority to sign contractual documents does not carry with it any exemption from other policies and procedures that otherwise govern. The President shall designate the positions and names of the individuals who should bear authorized to sign contractual documents. Each recommendation shall include the nature of the authority delegated, the areas of activity to which it is limited, and the upper limit of the authority in terms of dollars.

- The original letter of authorization shall be forwarded to the individual to whom the authority is delegated; and
4.10 — BUYING AND SELLING GOODS AND SERVICES

4.10.1—POLICY

The University’s legal capacity to acquire goods and services from others in exchange for payment, and to provide goods and services to others in exchange for revenue, originates with the Board of Regents. University funds are budgeted on an annual basis, and these budgets are approved by the Board of Regents. The Board of Regents recognizes that substantial authority must be delegated.

4.10.2—BUYING GOODS AND SERVICES

The University purchases a substantial volume of goods and services. Except in certain situations, University employees shall acquire these goods and services through an open and competitive process aimed at fairness to interested suppliers and the best value for the University. Competition allows for the use of new technology in communications, telephone quotes, and prior competitive history. Existing contracts established by cooperative associations, educational purchasing consortium contracts, existing contracts awarded by a state college or university, and contracts with state and federal entities, which meet the criteria for the formal competitive process, may be considered competitively bid. University departments may request and receive assistance from the Purchasing Department for purchases, regardless of dollar amount.

4.10.3—PURCHASES THAT REQUIRE FORMAL COMPETITION OR BIDS
Generally, the dollar amount of a purchase determines whether it must be competitively bid.

The dollar limits are on a per-transaction basis and are not cumulative. Unless otherwise exempt, purchases exceeding $50,000 must be formally bid. Splitting orders to avoid this dollar limit is prohibited.

Unless otherwise exempted, purchases above $5,000 and not exceeding $50,000 must be competitively bid. Splitting orders to avoid this dollar limitation is prohibited. The competition may be conducted by the ordering department and the results submitted to the Purchasing Department, which may rely on such results, or the Purchasing Department may conduct further competition.

4.10.4 —PURCHASES THAT DO NOT REQUIRE FORMAL COMPETITION OR BIDS

Because of their unique or peculiar nature, the following types of purchases do not require formal competition or bids. The dollar limits are on a per-transaction basis and are not cumulative.

- Purchases up to $50,000 by University departments from University auxiliary enterprises, service units, or other University units engaged in the resale of products or services in accordance with their mission.

- Purchases of products, services, or utilities for resale, including minor operating supplies consumed in the resale process, by University auxiliary enterprises, service units, or other University units engaged in the resale of products or services in accordance with their mission.

- Purchases up to $50,000 of legal, medical, accounting, consulting, architectural, engineering, interior design, appraisal, landscape design, real estate agency, or similar professional services, only when such services are ordered by the President or his or her designee pursuant to University-wide matters of importance, and only when such services represent discrete short-term engagements with specific terminal objectives. Purchases of legal services shall be coordinated through the Office of Legal Counsel.

- Purchases up to $50,000 against University-wide contracts with suppliers that have been arrived at competitively and for which exclusive usage by University departments has been mandated by the Board of Regents or the President.

- Purchases of professional dues, memberships, and similar products or services that are otherwise authorized, but which cannot reasonably be competitively bid.

- Purchases of property designated as surplus by federal agencies, state agencies, county governments, municipalities, school districts, other institutions of higher education, and similar bodies; provided, however, that evidence of reasonableness of price must be
• Payments to federal agencies, state agencies, county governments, municipalities, school districts, other institutions of higher education, and similar bodies for products and services in situations that cannot reasonably be subjected to the competitive process.

Because they are covered by separate University policies and procedures, the following types of purchases do not typically require processing by the Purchasing Department. The dollar limitations are on a per-transaction basis and are not cumulative. However, the requirement for competition may still apply, and the requirement for processing by another University department may apply.

• Individual travel costs (air fare, hotel, ground transportation, conference registrations, etc.) incurred by employees attending conferences, seminars, and the like pursuant to official University business (governed by policies on travel reimbursement).

• Architectural, engineering, construction, and construction management services related to major real property construction and renovation of University capital assets.

• Such other purchases as may be identified by the chief fiscal officer and approved by the President

4.10.5 —PURCHASES THAT DO NOT REQUIRE COMPETITION OR BIDS

Unless they are otherwise governed, restricted, or addressed by University policy, purchases of $5,000 or less do not require competition or bidding by the Purchasing Department, although competition is recommended. Splitting orders to take advantage of this dollar limit is prohibited. The ordering department shall ensure that such purchases meet all other requirements including, but not limited to, legality, availability of funding, and whether the purchase is allowable, as in the case of a sponsored grant or contract.

4.10.6 —PURCHASES THAT REQUIRE THE ASSISTANCE AND REVIEW OF THE PURCHASING DEPARTMENT

To ensure effective and efficient mission accomplishment, the Purchasing Department, in meeting the requirement for a professional buyer to place an order, may establish for University departments orders that specify time frames, dollar limits, and product/service categories. Such orders may be established in response only to mission-critical needs that cannot be met timely or that cannot possibly otherwise benefit from the direct involvement of the Purchasing Department. Such orders permit University departments to place orders with vendors, up to the specified dollar limits. Departmental requests for such orders shall be communicated in writing and approved by an administrative officer of the department/school/administrative office before being forwarded to the Purchasing Department. The Purchasing Department shall maintain a list of such orders and provide
such list to the appropriate Vice Presidents for business affairs no less frequently than quarterly. The Purchasing Department shall continually review such orders for need to determine their necessity and shall audit their usage for compliance with the principles of competition, fairness, and best value. The Purchasing Department may recommend to the appropriate Vice Presidents for business affairs termination of any such order when the need for it no longer exists, if there is evidence of noncompliance, or for similar reasons.

4.10.7 —PURCHASES FROM AUXILIARY ENTERPRISES AND SERVICE UNITS

University auxiliary enterprises and service units offer various products and services for sale, primarily to University departments, faculty, staff, and students. Examples are food services, printing services, and maintenance and repair of working spaces. Any excess of revenues over expenses generated by these entities is used to ensure future operations, renew and replace plant buildings and equipment, and contribute back to the University’s education and research missions through Presidential priorities. When a University department purchases such products or services, the University department must allow the related auxiliary enterprise or service unit first opportunity at the transaction. Such purchases may be awarded to outside vendors only upon sufficient justification or upon refusal by the auxiliary enterprise or service unit.

4.10.8 —SUBMITTING PURCHASES TO THE BOARD OF REGENTS FOR APPROVAL AND REPORTING OTHER PURCHASES

Separate and apart from the policies and procedures governing competition and processing by the Purchasing Department, the following conditions govern those purchases that must be submitted to the Board of Regents for prior approval, those purchases that must be reported to the Board of Regents at least quarterly, and those purchases that are exempt from either the approval or reporting requirements. The dollar limitations are on a per-transaction basis and are not cumulative.

- Purchases over $125,000 must be submitted to the Board of Regents for prior approval; sole source purchases in this category must be identified as such; changes that would increase the financial obligation of the University by more than 15% must be submitted to the Board for prior approval.

- Purchases above $50,000 but not exceeding $250,000 must be reported to the Board of Regents at least quarterly; sole source purchases in this category must be reported separately and identified as such.

- Purchases of air charter services must be reported to the Board of Regents at the earliest opportunity at the following meeting of the Board at next earliest opportunity.

- Purchases by University departments from University auxiliary enterprises or service units are exempt from the approval and reporting requirements.
• Purchases of products, services, and utilities for resale, including minor operating supplies consumed in the resale process, by University auxiliary enterprises, service units, or other University units engaged in the resale of products or services in accordance with their mission, are exempt from the approval and reporting requirements.

• Acquisition contracts, such as for office supplies University-wide or for materials for physical plant maintenance, arrived at through the competitive process, but which are indefinite as to quantity and delivery, are exempt from the approval and reporting requirements.

• Purchases of property designated as surplus by federal agencies, state agencies, county governments, municipalities, school districts, other institutions of higher education, and similar bodies are exempt from the approval and reporting requirements.

• Payments to federal agencies, state agencies, county governments, municipalities, school districts, other institutions of higher education, and similar bodies for products and services in situations that cannot reasonably be subjected to the competitive process are exempt from the approval and reporting requirements.

4.10.9 —SOLE SOURCE PURCHASES

The following policy regarding sole source purchases explains why a particular action may not be subject to competition. However, it does not affect the criteria governing when a purchase must be processed through the Purchasing Department. Other than the requirement for competition, sole source purchases are subject to the same policies and procedures set forth above.

A sole source purchase is any which, by the specifications needed by the requestor or by the specific restrictions imposed by a funds provider, restricts the action to one supplier or to one brand name. The sole source determination and justification shall not be based upon personal or professional preference of the requestor. Justification shall be objective rather than subjective.

A major component of a sole source purchase is the determination of fairness of price. Even though a material, service or supplier may truly fit the conditions of sole source, the requestor shall demonstrate that the related price is fair and reasonable.

A sole source purchase is preferable to a formal competitive process in which specifications are written so narrowly that the outcome has no chance but to be the same as if a sole source was executed.

Any University employee involved in a potential sole source purchase shall weigh two risks. The first risk is conducting a sole source purchase when in fact a competitive situation exists. The second risk is conducting a competitive purchase when in fact a sole source situation exists. The first is the greater risk, but both shall be addressed.

Where a sole source purchase satisfies the criteria that it must be approved by or reported to the
Board of Regents, the requestor shall defend the action, if necessary, before the Board of Regents. For every sole source purchase that has been executed, the requestor shall, if necessary, justify the action in cases of audit, protest, public inquiry, litigation, or similar circumstance.

Any requestor or buyer who knowingly executes a sole source purchase when, in fact, it is not one, may be subject to administrative action as otherwise provided for by Board of Regents policy.

The Purchasing Department is responsible for developing and maintaining the specific guidelines and forms necessary for requestors to document and justify proposed sole source purchases. The appropriate Vice Presidents for business affairs have the authority to challenge and deny requested actions that lack sufficient justification. The completed and executed forms shall be an integral part of the procurement file, which shall be available for inspection and audit by appropriate authorities.

**4.10.10 INVENTORY CONTROL AND CAPITALIZATION OF CERTAIN PURCHASES, GIFTS, OR OTHER ACQUISITIONS**

In addition to the policies and procedures governing the acquisition of products and services, the following requirements apply to certain purchases, gifts, or other acquisitions.

Capital assets coming under the control of a University department, whether through purchase, gift, or otherwise, shall be recorded in the University’s inventory system. Additionally, capital assets that are movable shall be tagged. If a movable capital asset is transferred from one location to another, the transferring department shall report such movement to the appropriate inventory control office, and the new location shall be recorded in the system.

For purposes of this policy, a capital asset is one that meets the federal useful life and cost criteria specified in the Office of Management and Budget Circular A-21, as may be amended or superseded.

The President or President’s designee may impose inventory controls above and beyond those required in OMB Circular A-21, as may be amended or superseded.

**4.10.11 ACQUISITION OF SURPLUS PROPERTY**

The following University officers are authorized to sign instruments and enter into negotiations as necessary in the acquisition of surplus property from federal agencies, state agencies, county governments, municipalities, school districts, other institutions of higher education, and similar bodies:

- President
- Chief Fiscal Officer

**4.10.12 DEMONSTRABLE EMERGENCIES**

SIGNIFICANT EMERGENCIES
The President shall have authority to direct University Administration to enter into such transactions as may be necessary for the University to timely respond to significant emergencies. For purposes of this policy, a significant emergency is an event of substantially harmful or catastrophic impact, whether resulting from natural or human causes. Examples of such events are addressed in the National Incident Management System (NIMS) literature and guidance. However, the President shall have the authority contemporaneously to declare any event as “significant” based upon his/her judgment and assessment of the developing situation. In such instances, the President shall keep the Chair of the Board of Regents timely informed of the attendant facts and circumstances. All material transactions shall be reported back to the Board at the earliest opportunity. The President shall have authority to approve a financial decision up to $325,000 in the case of a demonstrable emergency.

4.10.13 — PROVISION SELLING OF GOODS AND SERVICES

In accordance with its mission, the University may contract to provide services for compensation. Before signing, to protect and preserve the University’s interests and ensure compliance with all applicable laws and regulations, related contractual documents must be processed through the University’s Legal Counsel Office and any other appropriate officer the University officer responsible for signing such contractual documents shall ensure that all appropriate and required reviews and approvals of the arrangement and the contractual document have been completed. Only an individual to whom the President has delegated the appropriate authority (to sign contractual documents in the nature of the document in question) may sign the contractual document. Each such contractual document involving annual revenues of $125,000 or more shall be reported to the Board of Regents. Additionally, if the agreement would establish or make policy for the University, or would otherwise involve a substantial service to be performed by the University, it must be submitted to the Board of Regents for approval.

Separately, the selling or disposing of excess or obsolete University property shall be carried out in all respects in compliance with governing laws and regulations. Examples of such property are, without limitation, desks, chairs, equipment, furniture, and vehicles. Only appropriate departmental authority (such as vice president, dean, or department head) may declare property as excess or obsolete. The appropriate Vice Presidents of Administration & Finance of each campus shall establish the detailed procedures necessary to ensure that University property is sold or disposed of properly. The detailed procedures shall specifically address and require the complete and irreversible destruction of data on any device (e.g., computers, copiers, printers, PDAs, pads, etc.) that may contain such data.

4.11 — USE OF STUDENT ACTIVITIES FEES
Student Activity Fees and other funds generated by student activities may be utilized for any lawful purpose to enhance the quality of University life for the students, including, but not limited to, student scholarships or other student awards, operating costs for student activities, travel, entertainment, athletics, guest speakers, and student organizations.

The following guidelines, in addition to those adopted by the University with Board of Regents Approval, shall pertain to those funds budgeted by the SGA:

1) No student activity fee funds money shall be used to pay the legal fees of any student or students in a criminal or civil court action. No Student Activity Fee funds money may be used in any court action against the University.

2) The highest priority in disbursing the program portion of the student activity fee funds should be those student activities (educational, social, and recreational) which have substantial campus-wide effects. The funding of student organizations shall be discontinued except in those instances in which projects sponsored by a certain organization are deemed to have great significance for a substantial segment of the student community.

4.11.1—STUDENT GROUP TRAVEL

The University utilizes revenues generated by student activities in funding student-related trips. The University is authorized to advance these funds to a faculty sponsor or sponsoring coach. The funds must be used only for the students’ travel, transportation, and/or other trip-related expenses in the exact amount of the actual and reasonable expenditures that were incurred. Separately itemized receipts and/or supporting documentation must be submitted by the sponsor for each of the trip’s expenditures. The unused portion of the funds advanced for a trip must be returned to the University upon the trip’s completion. A report of expenses incurred during the trip must be prepared by the sponsor within a reasonable time after the completion of the trip. The University’s business office should develop the necessary forms and accountability and control procedures for processing the requests for advanced trip funds, as well as the reports of trip expenses, that which are prepared upon completion of the trips.

(RM, 6-22/23-2004, pp. 29140, 29237)

4.12 — CRITERIA FOR TRANSFERRING EQUIPMENT AND/OR FUNDS

The criteria for determining transferability of equipment and/or funds to another institution at the request of faculty members terminating their faculty appointment here at the University and transferring activities to another institution are as follows:

1) At no time will title to assets vested in the University be transferred directly to the terminating departing faculty member.

2) Transfer of equipment may be considered when:
3) Funds may be considered for transfer to the departing faculty member’s new institution only when it was the specific intent of the donor or granting agency that the funds were/are for the purpose of supporting the activity of the departing faculty member (rather than a program of the University).

4) Transfers of equipment and/or funds must be pre-authorized by the appropriate contracting official and approved by the appropriate dean or department head/chair and the appropriate Vice Presidents for business affairs.

5) Funds shall not be transferred to another institution when residual funds remain following completion of the program or project for which the funds were provided.

(RM, 6-22/23-2004, pp. 29140, 29237)

4.13 — ACQUISITION AND DISPOSITION OF REAL PROPERTY

The Board of Regents will approve the acquisition or disposition of all real property as required to satisfy the mission of the University. The University administration will use the following guidelines in determining acquisition or disposition actions to be proposed to the Board of Regents.

4.13.1 — ACQUISITION OF PROPERTY

1) Acquire property when it is needed for the future expansion of the University.

2) Acquire property needed to protect or secure the perimeter of the campus or other University facilities or land holdings.

3) Select property for acquisition that is located in primary expansion zones where the area is contiguous to the campus or in outlying areas when needed for specific purposes.

4) Purchase property in primary areas as it becomes available from willing sellers or in special cases when it is needed immediately to develop a new facility.

5) Have independent appraisals made before purchasing land and buildings.
6) Accept gifts of real estate away from campus when they are needed for University programs or if the property will be of financial benefit.

If acquired property is not required for immediate development, it will be maintained at a standard level of repair and appearance.

4.13.2 — DISPOSITION OF PROPERTY

The Board of Regents may dispose of property:

1) that is not required for University expansion or to protect other University lands and facilities;

2) that is not economical to operate and maintain and does not provide other benefits;

3) that is not in a primary expansion zone contiguous to the campus or other University land holdings and is not required for future development;

4) that is received from donors but not needed for University purposes; disposition will comply with all lawful terms and conditions of the gift; or

5) that can be converted to more liquid assets for other immediate needs or long—term requirements.

(RM, 6-22/23-2004, pp. 29140, 29237)

4.14 — SELECTION OF DESIGN CONSULTANTS AND CONSTRUCTION MANAGERS

An objective of the University is to develop the best possible campus environment, within the limits of available resources and to enhance teaching; research and creative/scholarly activity; and professional and University service and public outreach/community engagement. To this end, the Board of Regents hereby establishes this procedure to be followed in the selection of professional consultants, which shall supersede all previous policies in this area. The policy covers three areas of concern:

1) Soliciting names and screening qualifications of interested design consultant or construction management firms or individuals.

2) Interviewing, screening, and selecting firms or individuals identified during the solicitation process.
3) Selecting design consultants and construction managers in an emergency.

4.14.1—SELECTION PROCESS

When the President decides that the University requires the services of a licensed architectural, registered engineering, registered land surveying firm, or construction manager, the provisions of this policy will be followed. The basic sequence of actions will be as follows:

1) The President shall request approval from the Board of Regents to initiate a selection process.

2) The President or his or her designee will forward a letter to the State Department of Central Services requesting the names of all firms who have established a consultant file with the State of Oklahoma. The letter will contain information which shall define the scope of the proposed project and identify or describe the various project components, phases, and timetables and sources of funds.

3) Upon receipt of the list of appropriate firms, the University will send letters of notification to all firms on the list. The letters will solicit a timely expression of interest in performing consultant services for the project and shall contain the following information: (a) description and scope of the project; (b) estimated construction cost; (c) time schedule for the project; (d) funds available, including, federal, state, or other sources; (e) specification of the last date for submitting a notice of interest in performing the proposed services to the University; and (f) other pertinent data.

4) The University will advise the State Department of Central Services of the firms which responded within 20 days (or longer if allowed by the University) of the postmark date of the letter of notification, and request the State Department of Central Services to forward copies of the information that each consultant has on file there.

5) An interview committee will be established by the President to interview the responding firms. This committee will normally consist of the following persons:

a) Representative of the Vice President for Academic Affairs (if the project is for an academic use);

b) Representative of Physical Plant;

c) Other appointees as directed by the President.

Normally, the chair of the committee will be designated by the President, who may also augment the committee to permit comprehensive representation.

2) The interview committee shall review the consultant files forwarded by the State Department of Central Services.
Department of Central Services and select at least three, and but a maximum of no more than five, firms for more detailed consideration and an interview. Where possible, the maximum should be selected. In making these selections, the committee shall consider, among other things: (a) factors of on the Consultant Interview Evaluation form; (b) specialized experience in type of work proposed; (c) capacity of the consultant to perform the services on time; (d) past performance by the consultant; and (e) the consultant’s principal place of business.

3) The interview committee will conduct interviews of the firms selected for more detailed consideration and develop a numerical rating of the qualifications of each firm. If out-of-state firms are under consideration, all in-state firms will be given a five percent preference by multiplying their final numerical rating by a factor of 1.05. For the purpose of determining whether a firm or a team consisting of both in-state and out-of-state firms can be qualified as an in-state firm, the following criteria are to be used: (a) the firm with which the contract will be executed must have a principal place of business and a substantial continuing presence in Oklahoma, and (b) a majority of the work effort on the project must be accomplished by the in-state firm(s). A report of the results will be forwarded to the President for action by the Board of Regents to rank and select consultants.

4) Normally, the President or his or her designee will negotiate a contract with the first choice consultant. However, if the University cannot reach agreement with the first choice consultant, negotiations shall be terminated and the University shall negotiate in a similar pattern with the remaining consultants in descending rank order until an agreement is reached. The President or his or her authorized designee may execute the consultant contract.

4.14.23—EMERGENCIES

Specific provisions pertaining to fundraising, development, and related matters may be set forth in the Faculty and Staff Handbooks, student handbooks, and/or other official policy documents of the University. If special public recognition is planned through a publication, signage, or event, University Development will contact the donor to determine the donor’s intention for gift recognition.

Individual gifts paid with company or business checks will be credited to the individual(s) who received the original solicitation or the individual assigned to receive donor credit on the gift remittance form if requested.

7.1.4  —GIFT CREDIT

(RM, 6-22/23 2004, pp. 29140, 29237)

7.2  — GIFTS TO THE UNIVERSITY

The University actively encourages and appreciates gifts to the University that benefit students and the mission of the University. The purpose and conditions for gifts are expected to conform to the Board of Regents’ policy, Oklahoma State Regents for Higher Education policy, and all applicable laws.

The President of the University will announce major gifts (over $100,000) at meetings of the Board of Regents. Special action by the Board of Regents is required when gifts involve the naming of buildings and major facilities and the naming of University schools and major programs.

The Cameron University Foundation, Inc., and Rogers State University Foundation, Inc., (the “Foundations”) are independent organizations with their own governing boards and their own policies.
on accepting gifts. In certain situations that require action by the University—for example, establishing and filling a chair—the Foundations asks the University to join with it in accepting a gift, and the acceptance of such gifts is covered by this policy.

Normally, the Board of Regents will accept gifts to the University unless there are clear and compelling reasons to decline, such as: (a) the funds were obtained from questionable sources; or (b) the purpose or conditions on the gift are illegal or not in accord with the mission and goals of the University or the policies of the Board of Regents. The Board of Regents reserves the right to decline gifts if, in its sole judgment, not accepting the gift is in the best interests of the University.

(RM, 6-22/23-2004, pp. 29140, 29237)

7.3 — NAMES OF BUILDINGS AND OTHER GIFTS SELECTED BY DONORS

The following policies and guidelines for endowed funds facilitate the processing of major gifts, which are to be used primarily for endowment purposes.

1) Donors, the University, and, if applicable, the Foundations, must agree on terms before a gift is accepted, either as an endowment or an expendable account.

2) The Development Office should be notified immediately when a prospective donor inquires into establishing an endowment. The Development Office or the designated development officer will work with the academic dean, the department chair/ or head, and a representative of the respective Foundation, if applicable, in establishing the endowed fund and developing the terms of the agreement.

3) Each endowment will have specific guidelines that detail the purpose(s) of the endowment and provide a method for obtaining approval of changes in the endowment guidelines and procedures.

4) The University or the respective Foundation may seek changes through probate to any bequeathed endowment that has guidelines that are in violation of University policy and/or law.

5) Investment of endowment funds will be administered by the appropriate governing board. Investment of endowment funds in the Cameron University Foundation, Inc., and the Rogers State University Foundation, Inc., Foundations will be administered by the Trustees of the respective Foundation in compliance with the Foundation’s investment policy.

A donor may express his or her preference for investment of assets, but final determination will be made by the appropriate governing board.
6) The principal may be deposited as the initial gift or accumulated over a period of time, as determined at the time the gift is accepted.

7) Unless otherwise stipulated by the terms of the gift, earnings on the endowment fund shall be made available for expenditure in accordance with the spending policies of the appropriate board. Endowments in the Cameron University Foundation, Inc., and the Rogers State University Foundation, Inc., Foundations will be administered according to the guidelines adopted by the Trustees of the Foundations. It is the intent of the spending policies to maintain the purchasing power of endowment income and to protect the real value of the endowment for future generations.

7.3.1—ACADEMIC PROGRAMS

To name a school or department will require a significant endowment that will generate resources to strengthen and build excellence in academic and research programs. All naming requests require approval by the President and the Board of Regents.

7.3.2—BUILDINGS

Buildings included in the University’s list of priority needs may be named in recognition of a major gift for construction. Generally a building may be named for one-half of the private funds required for the project or for one-half of the estimated cost of construction, unless otherwise stipulated as part of a University-approved fund-raising campaign with naming guidelines. New buildings to be constructed with a combination of private, state, and federal monies may suggest different naming requirements that will be established with approval by the President and Board of Regents. Other new buildings may be named by a donor for the cost of construction.

Existing unnamed buildings on campus (i.e., buildings not named for an individual) may be named for a significant endowment that will generate sufficient resources to strengthen and enrich programs housed in the facility, or that will provide for continued maintenance and operations of the building.

Laboratories, auditoriums, classrooms, and other special rooms or facilities within existing or future buildings may be named for one-half of the estimated value of the facility or the full cost of renovation.

7.3.3—NAMED GARDEN OR LANDMARKS

Existing gardens or landscaped areas of campus may be named with the establishment of an endowment to support annual plantings and upkeep.

Creation of new gardens or campus landmarks may be named for the donor for the cost of construction and an arrangement for annual upkeep.
The establishment of endowed faculty positions is encouraged for the opportunities they provide to enrich and strengthen the teaching and research programs of the University in perpetuity.

An endowed chair or professorship enables the University to strengthen its academic programs by recruiting, recognizing, and retaining nationally renowned educators, scholars, and researchers, and to provide the University with enrichment funds that support and strengthen academic activities. It is proposed, therefore, that each endowed faculty position will be supported in part by a state-funded faculty line.

Earnings from the endowed positions also may be used to support travel, equipment, supplies and staffing needs of the position. When the position is not filled, all or a part of the annual earnings will be returned to the principal. Earnings not returned to the principal may be encumbered to provide monies for recruiting, start-up funding, equipment, or supplies for the appointee.

Endowed faculty positions will be effective when the full donor-funding component is received.

**Named Endowed Chair** — Requires a minimum endowment of $500,000, which can be provided entirely from private sources or through $250,000 in private funding, matched by $250,000 from the Oklahoma State Regents’ Endowment Program.

**Named Endowed Professorship** — Requires a minimum endowment of $250,000, which can be provided entirely from private sources or through $125,000 in private funding matched by $125,000 from the Oklahoma State Regents’ Endowment Program.

**Named Endowed Lectureship** — Recommended endowment of $50,000, which can be provided entirely from private sources or through $25,000 in private funding matched by $25,000 from the Oklahoma State Regents Endowment Program.

**7.3.5 —ENDOWED UNDERGRADUATE SCHOLARSHIPS**

**Named Endowed Scholarship Funds** — May be established with a recommended endowment of $10,000. This generally will support one scholarship on an annual basis. The amount of the scholarship will be limited by the annual earnings.

A constant effort will be made to keep scholarship guidelines flexible to alleviate any possible difficulties that would make it impossible to administer the scholarship in any one year.

Scholarship guidelines cannot exclude students on the basis of race, color, national origin, sex, sexual orientation, gender identity, gender expression, age, religion, disability, political beliefs, or status as a veteran.
In compliance with the Internal Revenue Code, donors will not be permitted to select the recipients of the scholarships which they sponsor.

All criteria for endowed scholarships should be predetermined and outlined prior to approval and acceptance by the University and the University’s Foundation.

Scholarship recipients should communicate annually, during the term of the scholarship, with the donors of the endowed scholarships.

(RM, 6-22/23-2004, pp. 29140, 29237)

7.4 — NAMES OF CAMPUS FACILITIES

The naming of major campus buildings or additions requires the approval of the Board of Regents. The Board of Regents also reserves the right to deny the naming of any campus facility, other than that which designates the type of work done therein, as a way to ensure that no name is given to a campus facility that does not reflect the ideals of the University, as well as the right to rename campus buildings or additions. No facility shall ordinarily be named after individuals who are members of the active faculty or staff of the University.

Any fundraising activity, whether on behalf of students, faculty/staff, schools, or programs, must be approved by the appropriate Vice President for development and/or alumni relations. Any communication developed for potential donors, whether individuals, corporations, or foundations, must be approved by the said Vice President for Development. This includes proposals, letters, brochures, and pledge or gift cards. The use of the name of the University in any form in fundraising appeals shall be restricted to, or with the approval of, the University Development.

This policy is designed to protect the University’s friends and alumni from multiple solicitations by schools and programs. If multiple University divisions seek to solicit the same prospective donor, the President may be asked to make the ultimate decision on which entity will move forward with a solicitation. (RM, 6-22/23-2004, pp. 29140, 29237)

7.8 — ORGANIZATION OF UNIVERSITY DEVELOPMENT

The appropriate Vice President responsible for development and/or alumni relations shall also oversee all aspects of development and alumni affairs. The said Vice President of Development will oversee management of the alumni association and assume responsibility for annual, major, corporate, and foundation giving. In addition, the he or she Vice President of Development also will regulate fundraising efforts within all divisions of the University. (RM, 6-22/23-2004, pp. 29140, 29237)

7.9 — SCOPE OF DEVELOPMENT ACTIVITY

University Development, at the direction of the appropriate Vice President, will coordinate solicitation efforts. Constituencies will be solicited for support via any means deemed appropriate, including personal contact, telephone, or direct mail. Campaigns directed by University Development might include annual, capital, special needs, college, unrestricted, endowment, federal or state grants, or planned gifts. All grant writing activities for the benefit of the University shall be coordinated or approved by the University Development. Gifts to support the University may be restricted to a college, department, or program, or may be designated as unrestricted and allocated by the President.

Agenda Items for CAMERON UNIVERSITY
AGENDA ITEM 1

ISSUE: SUBSTANTIVE PROGRAM CHANGES – CU

ACTION PROPOSED:

President McArthur recommends the Board of Regents approve the proposed changes to the Cameron University academic programs.

BACKGROUND AND/OR RATIONALE:

The Oklahoma State Regents for Higher Education require that all substantive changes in degree programs be presented to the institution’s governing board for approval before being forwarded to the State Regents for consideration. The changes in the academic programs presented below have been approved by the President, upon recommendations of the appropriate faculty, academic unit and dean, the Curriculum Committee or Graduate Council, and the Vice President for Academic Affairs. The changes are being submitted to the Board of Regents for approval prior to submission to the State Regents.

1. PROGRAM: B.S. in Organizational Leadership

PROPOSED CHANGE: Option Deletion – Communication

COMMENTS: One option in the program will be deleted. Lack of student interest, lack of available online courses, and low enrollment with no foreseeable increase in demand for the future necessitates deletion of the Communication option. No courses will be deleted. The final students in the option will finish in Spring 2016. Funds from the option will be used in the remaining options in the program. Total hours required for the degree and major will not change. The requested change will not require additional funds.

2. PROGRAM: B.S. in Organizational Leadership

PROPOSED CHANGE: Option Addition – Sociology

COMMENTS: A new option will be added. The requested addition of a Sociology option is in response to growing student demand for an option in this discipline. All requirements for the option were developed using existing courses. No new courses will be added. Total hours required for the degree and major will not change. The requested change will not require additional funds.
AGENDA ITEM 2

ISSUE: REFUNDING MASTER EQUIPMENT LEASE REVENUE BONDS – CU

ACTION PROPOSED:

President McArthur recommends the Board of Regents:

I. Authorize the refunding of the 2006A Master Equipment Lease Energy Savings Program in one or more Series, in amounts sufficient to redeem balances outstanding as of May 31, 2016; and

II. Authorize the President or his designee to execute any documents required by the Oklahoma State Regents for Higher Education, Oklahoma Council of Bond Oversight and the Oklahoma Development Finance Authority and to take any further action required to consummate the transactions contemplated herein.

BACKGROUND AND/OR RATIONALE:

In 2006, the University entered into the 2006A Master Equipment Lease for 15 years in the amount of approximately $6.1 million to fund equipment and other resources for the energy savings program. The University’s administration is seeking approval to refund the bonds for economic savings for the remaining five years of the lease. At this time, the bonds are expected to be issued in an approximate amount of $2.5 million. Gross and present value savings are estimated to be $202,000 and $190,000, respectively. Anticipated closing date is June 1, 2016.

The Oklahoma State Regents for Higher Education (OSRHE) implemented the Master Lease-Purchase program to facilitate for Oklahoma colleges and universities acquisitions of long-lived assets using the lease-purchase method. OSRHE submits funding requirements periodically through the State of Oklahoma Council of Bond Oversight and the Oklahoma Development Finance Authority, the conduit-financing agency, and assists in developing and executing an appropriate plan of financing. Institutions service the bond debt using current operating funds. This service provided by OSRHE reduces the time and effort that would otherwise be required for an institution to finance the acquisition of a major asset or refunding of existing debt.
AGENDA ITEM 3

ISSUE:  REVISIONS TO THE REGENTS’ POLICY MANUAL – CAMERON UNIVERSITY/ROGERS STATE UNIVERSITY – CU

ACTION PROPOSED:

President McArthur recommends the Board of Regents adopt the changes and revisions to update the University of Oklahoma Board of Regents’ Policy Manual – CU/RSU so the Regents Policy Manual is consistent with changes in Regents’ policy and relevant laws.

BACKGROUND AND/OR RATIONALE:

Although the Board of Regents’ Policy Manual – Cameron University/Rogers State University is periodically updated, it has not been substantially revised in several years. This has led to deviations between policy and practice, outdated legal standards and application, and greater inconsistencies between the universities under the Board’s governance. Accordingly, over the last six months, the Presidents and their respective executive staff, with assistance from the Office of Legal Counsel, have worked to review and provide recommended revisions to the Policy Manual. Presidents for both universities agree and support the proposed revisions. The bases for these recommended revisions fall into one of the following categories:

Necessary updates based on changes in laws, regulations, and guidance.
Inaccurate references to policies and procedures.
Updates based on university changes.
Formatting changes and moving language for ease of use and clarity.
Consistency with the Board of Regent’s Policy Manual – University of Oklahoma where appropriate in the interests of the universities.
Incorporate more policies by reference such as gender-based misconduct, student code, and the equal opportunity policy allowing more flexibility to revise policies to ensure compliance with changing law. This is similar to how these policies are treated in Board of Regent’s Policy Manual – University of Oklahoma.

The selection of the President and other administrators is the responsibility of the Board of Regents, and any process leading to that selection is the prerogative of the particular Board of Regents in office at the time the selection process is to be initiated. 1.4.1 —PRESIDENT OF THE UNIVERSITY

(RM, 6-22/23-2004, pp. 29140, 29237)

SECTION 2—ACADEMIC POLICIES

The Board of Regents is vested with the governance of the University. Within its authority is the supervision, management and control of the University, including the power to do all things necessary and convenient to carry out the powers expressly granted to it by the Constitutions and the laws of the state, or to make the University effective for the purposes for which it is operated—governance of all faculty personnel matters, including without limitation, appointments, evaluations, academic misconduct, grievances, and academic appeals. Specific provisions pertaining to faculty personnel policies and related matters may be set forth in the Faculty and Staff Handbooks, student handbooks, and/or other official policy documents of the University.

Any modification to a Board of Regents’ policy in the policy documents referred to above or elsewhere must be made through action of the Board of Regents.

OK. Const. Art. XIII, § 8; 70 O.S. § 3305.

2.1—FACULTY PERSONNEL POLICIES
It is the policy of the University to recognize and implement the functions assigned to it by the Oklahoma State Regents for Higher Education. These functions include teaching; research and creative/scholarly activity; and professional and University service, and public outreach/community engagement. The responsibility for carrying out this policy is shared by the Board of Regents, administrative officers, and the regular faculty.

70 O.S. § 3206.

2.1.1 —THE REGULAR FACULTY

The Regular Faculty of the University is composed of all faculty members with regular appointments including non-tenure track, tenure track, and tenured appointments at the ranks of instructor, assistant professor, associate professor, and professor.

Additional policies related to the Regular Faculty and the Faculty Senate are contained in the Faculty Handbook of the University.

2.1.2 —ACADEMIC FREEDOM AND RESPONSIBILITY

2.1.2.1 —INSTITUTIONAL ACADEMIC FREEDOM

The accumulation and exchange of knowledge is among the preeminent purposes of the University, and the acknowledgement of individual academic freedom is one of the cornerstones to ensure such purposes are achieved. Equally important in meeting these goals is the recognition of the right inherent in the responsibility of the Board of Regents to govern the University. “[I]t is the business of a university to provide that atmosphere which is most conducive to speculation, experiment[ation] and creation. It is an atmosphere in which there prevail ‘the four essential freedoms’ of a university—to determine for itself on academic grounds who may teach, what may be taught, how it shall be taught, and who may be admitted to study.” Sweezy v. New Hampshire, 354 U.S. 234, 263,; 77 S.Ct. 1203; 1 L.Ed.2d 1311 (1957).

2.1.2.2 —ACADEMIC FREEDOM

The 1940 Statement of Principles on Academic Freedom and Tenure, with 1970 Interpretive Comments by the American Association of University Professors (hereinafter “AAUP”), with 1970 Interpretive Comments, of the American Association of University Professors has long been recognized as providing valuable and authoritative guidelines for policy and practice in American colleges and universities. The section on academic freedom below is essentially a restatement of these principles, with some modification. In the formulation that follows, these principles have been adopted as policy by the Board of Regents.
a) Faculty members are entitled to full freedom in research and publication, subject to any restrictions set by law or by applicable codes of professional ethics, and subject to adequate performance of their other academic duties and to stated University policy on outside employment; but, except under conditions of national emergency, a faculty member should not undertake to do research on University time or using University facilities or funds under any agreement which would (except for a definitely and reasonably limited time) prohibit open communication of the results.

b) Faculty members are entitled to freedom in the classroom in discussing their subject, but it is inappropriate for a teacher persistently to intrude material, which has no relation to the subject of instruction.

c) As members of the community, university teachers have the rights and obligations of any citizen. They measure the urgency of these obligations in the light of their responsibilities to their subject, to their students, to their profession, and to their institution. In speaking or acting as private persons, faculty members avoid creating the impression of speaking or acting for their college or university. As a citizen engaged in a profession that depends upon freedom for its health and integrity, the university teacher has a particular obligation to promote conditions of free inquiry and to further public understanding of academic freedom.

d) As citizens, university teachers should be free to engage in political activities consistent with their obligations as teachers and scholars and with University policy.

e) Freedom of access to recorded knowledge being essential to learning and research in a democracy, the right and the obligation of the university to provide a full range of materials on any subject, even though some views might be currently unpopular or controversial, or appear incorrect, shall not be infringed. The principles of academic freedom shall apply to the presence of materials and also to those who provide and those who use them.

f) The University endorses—adopts, as stated herein, the 1957 declaration of the American Association of University Professors (AAUP) which “…asserts the right of college and university students to listen to anyone whom they wish to hear…affirms its own belief that it is educationally desirable that students be confronted with diverse opinions of all kinds, (and) therefore, holds that any person who is presented by a recognized student or faculty organization should be allowed to speak on a college or university campus.” Duly constituted organizations at Cameron University and Rogers State University may invite speakers without fear of sanctions. However, in the exercise of these rights, it is clearly recognized that:

Membership in the academic community imposes on students, faculty members, administrators, and trustees an obligation to respect the dignity of others, to acknowledge their right to express differing opinions, and to foster and defend intellectual honesty, freedom of inquiry and instruction, and free expression on and off the campus. The expression of dissent and the attempt to produce change, therefore, may not be carried out in ways which injure individuals or damage institutional facilities or
disrupt the classes of one’s teachers or colleagues. Speakers on campus must not only be protected from violence but must be given an opportunity to be heard. Those who seek to call attention to grievances must not do so in ways that significantly impede the functions of the institution. (1970 declaration of the AAUP Council).

2.1.2.3 —ACADEMIC RESPONSIBILITY

The concept of academic freedom shall be accompanied by an equally demanding concept of academic responsibility. The Board of Regents endorse (adopt) the AAUP’s 1987 Statement on Professional Ethics.

2.1.2.3.1—INTRODUCTION

From its inception, the American Association of University Professors AAUP has recognized that membership in the academic profession carries with it special responsibilities. The Association AAUP has consistently affirmed these responsibilities in major policy statements, providing guidance to professors in such matters as their utterances as citizens, the exercise of their responsibilities to students and colleagues, and their conduct when resigning from an institution or when undertaking sponsored research. The 1987 Statement on Professional Ethics that follows sets forth those general standards that serve as a reminder of the variety of responsibilities assumed by all members of the profession.

In the enforcement of ethical standards, the academic profession differs from those of law and medicine, whose associations act to ensure the integrity of members engaged in private practice. In the academic profession the individual institution of higher learning provides this assurance and so should normally handle questions concerning propriety of conduct within its own framework by reference to a faculty group. The Association supports such local action and stands ready, through the general secretary and the Committee on Professional Ethics, to counsel with members of the academic community concerning questions of professional ethics and to inquire into complaints when local consideration is impossible or inappropriate. If the alleged offense is deemed sufficiently serious to raise the possibility of adverse action, the procedures should be in accordance with the 1940 Statement of Principles on Academic Freedom and Tenure, the 1958 Statement on Procedural Standards in Faculty Dismissal Proceedings, or the applicable provisions of the Association’s Recommended Institutional Regulations on Academic Freedom and Tenure.

2.1.2.3.2—THE STATEMENT

1. Professors, guided by a deep conviction of the worth and dignity of the advancement of knowledge, recognize the special responsibilities placed upon them. Their primary responsibility to their subject is to seek and to state the truth as they see it. To this end professors devote their energies to developing and improving their scholarly competence. They accept the obligation to exercise critical self-discipline and judgment in using, extending, and transmitting
knowledge. They practice intellectual honesty. Although professors may follow subsidiary interests, these interests must never seriously hamper or compromise their freedom of inquiry.
2. As teachers, professors encourage the free pursuit of learning in their students. They hold before them the best scholarly and ethical standards of their discipline. Professors demonstrate respect for students as individuals and adhere to their proper roles as intellectual guides and counselors. Professors make every reasonable effort to foster honest academic conduct and to ensure that their evaluations of students reflect each student’s true merit. They respect the confidential nature of the relationship between professor and student. They avoid any exploitation, harassment, or discriminatory treatment of students. They acknowledge significant academic or scholarly assistance from them. They protect their academic freedom.

3. As colleagues, professors have obligations that derive from common membership in the community of scholars. Professors do not discriminate against or harass colleagues. They respect and defend the free inquiry of associates. In the exchange of criticism and ideas professors show due respect for the opinions of others. Professors acknowledge academic debt and strive to be objective in their professional judgment of colleagues. Professors accept their share of faculty responsibilities for the governance of their institution.

4. As members of an academic institution, professors seek above all to be effective teachers and scholars. Although professors observe the stated regulations of the institution, provided the regulations do not contravene academic freedom, they maintain their right to criticize and seek revision. Professors give due regard to their paramount responsibilities within their institution in determining the amount and character of work done outside it. When considering the interruption or termination of their service, professors recognize the effect of their decision upon the program of the institution and give due notice of their intentions.

5. As members of their community, professors have the rights and obligations of other citizens. Professors measure the urgency of these obligations in the light of their responsibilities to their subject, to their students, to their profession, and to their institution. When they speak or act as private persons, they avoid creating the impression of speaking or acting for their college or university. As citizens engaged in a profession that depends upon freedom for its health and integrity, professors have a particular obligation to promote conditions of free inquiry and to further public understanding of academic freedom.

2.1.3 —FACULTY ACCOUNTABILITY

A faculty member is held accountable for his or her performance in fulfilling faculty duties and in meeting the requirements of academic responsibility and University policies. Persons who accept full-time employment at the University owe their first duty and first loyalty to the University. Any other employment or enterprise in which they engage for income must be secondary to their University duties. The most immediate agents of faculty accountability are the department heads/chairs, who should maintain close and regular communication with the faculty member.

Among the various mechanisms for ensuring faculty accountability, the most important include annual performance evaluations, and such periodic evaluations as those for advancement in rank.
These processes have the primary function of identifying meritorious performance to be rewarded, but they also provide a means by which the University may strengthen itself, by identifying needs for improved performance.

Meritorious and responsible faculty performance is first and foremost an individual professional obligation. But it is also the product of a cooperative effort by faculty members and administrative officers assisting one another, informing one another, and jointly seeking to assure that each faculty member’s capabilities are developed fully and creatively. Performance that is lacking in merit or responsibility, when identified, is a challenge both to the individual and to the academic unit and its leaders, in their exercise of the unit’s career development responsibilities. Just as faculty members are held accountable for their performance, administrators of academic units are held accountable for their leadership in the career development of the faculty in their units.

For those cases where they are needed, the University has at its disposal the more drastic measures of severe sanctions.

2.1.4 —PROFESSIONAL ACTIVITIES OF THE FACULTY

Above all else, the University exists for learning and scholarship of a breadth and depth that result in excellence in teaching; research and creative/scholarly activity; and professional and University service, and public outreach/community engagement. Each academic unit has an obligation to contribute to each of these. Faculty members play a central role in the realization of the obligations of the academic unit by contributing their unique expertise and competence. Decisions regarding tenure, promotions, and salary increases are based upon an assessment of the faculty member’s performance and contributions to the total mission of the University.

(RM, 6-22/23-2004, pp. 29140, 29237)

2.2—FACULTY APPOINTMENTS

2.2.1 —RESERVE OFFICERS’ TRAINING CORPS PERSONNEL

The senior line officer of each department (Army, Naval/Navy, and Air Force) shall be given the rank of Professor; the executive officer (next senior officer) shall be given the rank of Associate Professor; the other officers shall be given the rank of Assistant Professor or Instructor. Officers who arrive for duty and who are interested in undertaking graduate work may be designated as Special Instructors instead of Assistant Professors so they will not be precluded from receiving a graduate degree which, under regulations of the Graduate College and the University, cannot be conferred on faculty members with an academic rank higher than Instructor; non-commissioned officers and petty officers shall be given the title of Instructor.
An academic rank, once assigned to an officer, shall be retained by him or her during the entire tenure with the University unless he or she is promoted to a higher faculty position, even though a more senior line officer becomes either the commanding officer or executive officer, except when regulations of a branch of the Department of Defense Department provide that only one officer may be designated as Professor and Associate Professor on a campus.

2.2.2 —REAPPOINTMENT AND NON-REAPPOINTMENT

Action on the reappointment of non-tenure track and tenure-track regular faculty may be initiated by the academic department chair/head through the respective dean to the Vice President for Academic Affairs, President, and Board of Regents. Any final decision not to reappoint a faculty member shall be determined by the Board of Regents.

2.2.2.1 —NOTIFICATIONS OF NON-REAPPOINTMENT OF NON-TENURE TRACK OR TENURE-TRACK REGULAR FACULTY

a) A non-tenured faculty member with a regular appointment who is not to be reappointed must be so notified no later than March 1.

b) All notifications of non-reappointment shall be given in writing by the Vice President for Academic Affairs.

c) Failure to reappoint may be without specific or stated cause.

(RM, 6-22/23-2004, pp. 29140, 29237)

2.3—FACULTY EVALUATION

2.3.1 —FACULTY EVALUATION, ADVANCEMENT IN SALARY, AND PROMOTION IN RANK

Faculty evaluation is a continuous process, both prior to and following the granting of tenure. An annual review of each faculty member’s performance is the responsibility of the academic deans and the specific academic department chair/head. A systematic procedure for accomplishing such evaluations shall be developed in each academic unit, with the participation and approval of the dean and the Vice President for Academic Affairs. The criteria for evaluation shall be carefully and clearly stated. Specific faculty assignments within an academic unit and the specific mission of a particular academic unit may have different percentages of effort distributed across the areas of professional activity (teaching; research and creative/scholarly activity; and professional and University service and public outreach/community engagement) if, in consultation with the dean and Vice President for Academic Affairs, this is determined to assist the entire University in best meeting its mission.
Specific provisions prescribing faculty evaluation, advancement in salary, tenure, and promotion in rank are set forth in the Faculty Handbook of the respective University.

### 2.3.2 —FACULTY TENURE

Tenure implies a mutual responsibility on the part of the University and the tenured faculty member. In granting tenure to a faculty member, the University makes a commitment to the faculty member’s continued employment, subject to certain qualifications. The University expects that tenured faculty members will maintain the level of performance by which they initially earned tenure. In those exceptional cases when it is recommended that a faculty member be permitted to reduce his or her employment to less than full-time and maintain a tenured status, specific Regent approval must be granted by the Regents.

Faculty members accorded tenure will normally commence their tenure appointments in the academic year immediately following the Board of Regents’ action.

In each case where tenure is awarded, there must be assurance that continuing financial support can reasonably be anticipated. The President shall determine whether funds are sufficiently secure to support the awarding of tenure.

Specific tenure policies and procedures are set forth in the Faculty Handbook of the University.

### 2.3.3 —POST-TENURE REVIEW

Post-tenure review at the University is a periodic peer-based evaluation of tenured faculty for the purpose of guiding career development and, when judged necessary, improving faculty performance. The post-tenure review process is based on and extends the annual evaluation of faculty through two processes:

1) A retrospective review of faculty performance in teaching; research and creative/scholarly activity; and professional and University service and public outreach/Community engagement over a period of time, not to exceed five years but no less than three, the three years preceding the review, and

2) A formative evaluation for future professional growth.

For all faculty, post-tenure review provides a formal opportunity for self-assessment and discussion with peers about professional development. For those faculty whose performance is judged to be below expectations, the evaluation leads to the formulation of a professional development plan, the purpose of which is to assist the faculty member to raise his or her level of performance to meet or exceed the expectations for tenured faculty.

Post-tenure review is mandatory for all tenured faculty.
Bearing in mind the value and importance of academic freedom and procedural due process to the well-being and success of the academic community, the University acknowledges and supports in principle the policies and procedures set forth in the AAUP's Standards for Good Practice in Post-Tenure Review. Post-tenure review is not a re-evaluation of a faculty member's tenure status, nor is it intended as means to effect programmatic change. The post-tenure review process will be carried out in a manner that is consistent with the University's policies on academic freedom and responsibility and on faculty evaluation. Post-tenure review will be based on the criteria for annual review established by the faculty of the unit and approved by the administration.

Specific provisions prescribing post tenure reviews are set forth in the Faculty Handbook of the University and include, but are not limited to, sections detailing procedures for normal and early review and the development of a professional development plan for faculty needing assistance.

2.3.4 —SEVERE SANCTIONS

The University strives to exercise great care in selecting faculty appointees and to confer tenure upon only those faculty members who have demonstrated their merit for tenured appointment. For that reason, severe sanctions such as dismissal of a tenured faculty member (abrogation of tenure) or of a regular faculty member during a non-tenure track or tenure-track appointment should be an exceptional event. It is also recognized, however, that a few faculty members may, from time to time, engage in improper conduct which requires severe sanctions short of dismissal. Such sanctions may include but are not limited to loss of prospective privileges for a stated period; restitution; a fine; a reduction in salary; or suspension from service for a stated period, without other prejudice. As in the case of dismissal, the imposition of severe sanctions short of dismissal should be viewed as a serious and infrequent step usually undertaken only after administrative remedies and minor sanctions have failed.

While extreme action will be required infrequently, the University must be prepared for such an eventuality, so that both the integrity of the University and the rights of the faculty member may be preserved. Toward this end, the faculty must be willing to recommend severe sanctions upon or dismissal of a colleague when necessary. By the same token, the President and the Board of Regents shall give all reasonable consideration to faculty recommendations.

Only the Board of Regents has the power to impose severe sanctions. The Board of Regents shall exercise this power only in cases where it determines that there exists sufficient cause for such action.

2.3.4.1 —GROUNDS FOR ABROGATION OF TENURE, DISMISSAL, AND OTHER SEVERE SANCTIONS

A faculty member against whom the imposition of a severe sanction is to be brought or whose dismissal is to be requested must have given such cause for the action as relates directly and substantially to his or her professional capabilities or performance. It is not possible to specify all proper grounds for these drastic measures. Proper reasons for dismissal of a regular faculty member
who has tenure or whose tenure-track appointment has not expired include, but are not necessarily limited to, the following:

a) Professional incompetence or dishonesty, including but not limited to, academic dishonesty, or misuse of University property or resources;

b) Substantial, manifest, or repeated failure to fulfill professional duties or responsibilities;

c) Personal behavior preventing the faculty member from satisfactory fulfillment of professional duties or responsibilities, including but not limited to, deliberate and grave violations of the rights and freedoms of fellow faculty members, administrators, or students.

d) Serious violations of law which are admitted or proved before a court of competent jurisdiction or the administrative body established to hear such matters, preventing the faculty member from satisfactory fulfillment of professional duties or responsibilities, or violations of a court order, when such order relates to the faculty member’s proper performance of professional responsibilities;

e) Changes in the University’s educational function through action of the Board of Regents and/or the Oklahoma State Regents for Higher Education, which result in the elimination of an academic unit. In such instances the University will make every reasonable effort to reassign affected faculty members to positions for which they are properly qualified before dismissal results from such elimination;*

f) Financial Emergency;*

g) Action(s) involving moral turpitude.

*Although not considered severe sanctions, (e) and (f) are proper reasons for dismissal of a faculty member who has tenure or whose tenure-track or non-tenure track term has not expired.

2.3.4.2 —GROUNDS FOR SUMMARY SUSPENSION

Suspension of a faculty member or assignment to other duties in lieu of suspension is justified only if immediate harm to the faculty member or to others is threatened by that person’s continued performance of regular duties. The faculty member may, on request and at the convenience of the department, be relieved of some professional duties if this is necessary to provide time for the preparation of a defense. Summary suspension does not remove from the University the obligation to provide due process within a reasonable period of time following action.

(RM, 6-22/23-2004, pp. 29140, 29237)

2.4 —FACULTY APPEALS & GRIEVANCES
Grievance procedures shall be available to any aggrieved party who is a member of the Regular Faculty of the University. Violations covered by this procedure include but are not limited to academic freedom and academic due process violations. Such violations may occur in the course of performing professional duties or in the process of being considered or evaluated for salary increase, promotion, tenure, or other personnel decisions in which the faculty member believes there has been unjust discrimination, harassment, violation of due process or academic freedom, or other grievance.

Specific provisions prescribing faculty appeals and grievances are set forth in the Faculty Handbook of the University.

(RM, 6-22/23-2004, pp. 29140, 29237)

2.5—FACULTY HONORS

2.5.1—ENDOWED CHAIRS AND PROFESSORSHIPS

Faculty may be appointed to endowed chairs and professorships.

2.5.1.1—CRITERIA FOR SELECTION

Specific criteria for the selection of occupants may be established for particular chairs as appropriate. To qualify for an endowed chair or professorship, a faculty member must be distinguished within a particular academic field or an interdisciplinary program.

2.5.1.2—SEARCH COMMITTEE

The President, with advice and counsel of the Vice President for Academic Affairs, the dean, and the department head, will appoint the Search Committee. Search Committees for occupants of endowed chairs and professorships shall be composed of:

1) Two faculty members from the academic unit concerned,

2) Two outside individuals distinguished within the relevant area and appointed by the President, and

3) The dean of the relevant school.

At least one member will be from outside the University and at least one member from another school. The President and the Vice President for Academic Affairs will meet with the Search Committee (and the dean and department head if appropriate) to hear their recommendations. The Vice President for Academic Affairs, after consultation, may make a recommendation to the
2.5.2 —SABBATICAL LEAVE POLICY

Sabbatical leaves of absence are among the most important means by which an institution’s academic program is strengthened, a faculty member’s teaching effectiveness enhanced, and scholarly usefulness enlarged. The major purpose is to provide opportunity for continued professional growth and new or renewed intellectual achievement through study, research, writing, and training.

However, a faculty member does not automatically earn a sabbatical leave. Instead, it is an investment by the University in the expectation that the sabbatical leave will significantly enhance the faculty member’s ability to contribute to the objectives of the University. There should be a clear indication that the improvements sought during a sabbatical will benefit the work of the faculty member, department, school, and the University. Only sabbatical leave proposals that meet this criterion will be accepted and approved by the University. Sabbatical leaves are supported as an investment in the future of the faculty member and the future of the faculty member’s students at the University.

The purposes for which a sabbatical leave may be granted may include:

1) Research on significant problems and issues.

2) Important creative or descriptive work in any means of expression; for example, writing or painting.

3) Postdoctoral study at another institution to update teaching skills.

4) Other projects satisfactory to the University.

It should be demonstrated that such work cannot occur as effectively during the regular work schedule of the faculty member.

Normally, the University will not grant a sabbatical for the purpose of pursuing work on the terminal degree in the faculty member’s academic field.

Adherence to the plan submitted by the faculty member is expected. Within two months of returning from leave, the faculty member shall submit to the Vice President for Academic Affairs, through the department head/chair and school dean, a report of activities undertaken, which will be used in evaluating future applications for sabbatical leaves.

A faculty member who is on sabbatical leave shall not be penalized on matters of salary consideration. The report on the sabbatical will be used in consideration for merit raises in subsequent
Specific provisions, if any, prescribing the policy and procedures related to sabbatical leaves are set forth in the Faculty Handbook of the University.

2.6 —GENERAL ACADEMIC ISSUES

2.6.1 —DENIAL OF ADMISSION

Any person who is otherwise academically qualified, meets all University admission requirements, and is denied admission for any reason may appeal that denial by requesting a hearing before the University committee charged with hearing appeals of admission denial within 15 days of receipt of denial. The committee shall proceed as quickly as possible to hear the matter so that one who has been wrongfully denied admission will not be prejudiced in his or her ability to perform the academic work required of him or her in that semester.

2.6.2 —ACADEMIC APPEALS PROCESS

In each University, there shall be established an Academic Appeals committee consisting of both students and faculty. Faculty members of the committee will be chosen by the faculty for a term determined by the faculty. Student members of the committee will be appointed for a term of one year by the chief student affairs officer upon recommendations from the Student Government Association president.

The responsibility for academic evaluations of students rests with the faculty. If a student feels wrongfully and unfairly treated by an instructor and if he or she is unable to resolve the matter in conference with the instructor or the departmental chair/head of the academic unit, an appeal may be made.

Specific provisions prescribing academic appeals are set forth in the University’s Student Handbook.

2.6.3 —ACADEMIC MISCONDUCT

2.6.3.1 —BASIC PRINCIPLE OF HONESTY

Honesty is a fundamental precept in all academic activities, and those privileged to be members of a university community have a special obligation to observe the highest standards of honesty and a right to expect the same standards of all others. Academic misconduct in any form is inimical to the purposes and functions of the University and therefore is unacceptable and rigorously proscribed.
2.6.3.2—DEFINITION OF ACADEMIC MISCONDUCT

Academic misconduct includes:

a) Cheating (using unauthorized materials, information, or study aids in any academic exercise or on national board examination), plagiarism, falsification of records, unauthorized possession of examinations, intimidation, and any and all other actions that may improperly affect the evaluation of a student’s academic performance or achievement;

b) Assisting others in any such act; or

c) Attempting to engage in such acts.

Specific provisions of the Academic Misconduct Code are set forth in University publications, such as the University’s Student Handbook and Faculty Handbook.

2.6.4—DEGREES GRANTED BY OKLAHOMA STATE REGENTS FOR HIGHER EDUCATION

Pursuant to the Oklahoma State Constitution, the Oklahoma State Regents for Higher Education shall grant degrees and other forms of academic recognition for completion of the prescribed courses in all state educational institutions.

2.6.4.1—DIPLOMAS

All diplomas awarded on the achievement of a degree shall bear the seal of the University and of the Oklahoma State Regents for Higher Education. In issuing diplomas for whatever purpose, the University and all of its divisions shall conform to the specifications stipulated by the Oklahoma State Regents for Higher Education and endorsed by the Board of Regents.

The diplomas of the University, for any and all degrees, may be changed only on recommendation of the President and with the approval of the Board of Regents and the Oklahoma State Regents for Higher Education.

Specific provisions prescribing the issuing of diplomas are set forth in a general catalogue or bulletin published by the University.

2.6.4.2—CERTIFICATES

Certificates bearing the name and the Seal or Coat of Arms of the University may be issued only by the University, pursuant to the applicable legislation in each instance as created by the President and Board of Regents and/or the State as represented by the Oklahoma State Regents for Higher Education or the Governor or legislature of the State of Oklahoma. Academic colleges, schools, departments, and other subdivisions of the University do not have such authority.
2.6.4.2.1 —CREDIT CERTIFICATES

The appropriate University Office of Admissions and Records is charged with the responsibility of administering the regulations governing the issuance of certificates. No certificates intended as an extension or elaboration of the curricular requirements for a degree shall be issued by the University or any subdivision thereof, nor shall certificates be issued for courses, programs of study, or stages required by the University in the fulfillment of the prescriptions for a degree.

Curricular programs based upon University policy and/or State legislation for which University credit is allowed but for which no degrees are granted (as, for example, the program in Office Administration), may be recognized by certificates. Certificates for other forms of professional proficiency than those herein before described may be issued only if programs for the achievement of such proficiency have been approved by the Board of Regents and/or the Oklahoma State Regents for Higher Education and are incorporated in the official publications of the University describing its curricular requirements. Nothing in this section shall be construed to contravene the requirements of the Oklahoma State Regents for Higher Education.

2.6.4.2.2 —NONCREDIT CERTIFICATES

Noncredit certificates (e.g., certificates of participation, certificates of completion, certificates of achievement) may be issued recognizing achievement of proficiency in some designated area through successful completion of either single or multiple courses, credit-free, University-sponsored continuing education activities (e.g., short courses, conferences, workshops, professional development, and training). Such activities may be conducted in association with recognized professional associations, business groups, government agencies, and/or other academic units of the University, and the certificate may so state.

2.6.4.3—AWARDING HONORARY DEGREES

The University is authorized to confer honorary degrees. (OSRHE Policy II 2-39(I-4)

The University will award honorary degrees only in recognition of extraordinary achievement or in recognition of outstanding contributions to the welfare and/or enrichment of the University, State, nation, or world. A recipient may be any individual who has made outstanding contributions to a field or profession represented at the University.

(RM, 6/22/23 2004, pp. 29140, 29237)
and convenient to carry out the powers expressly granted to it by the Constitutions and the laws of the state, or to make the University effective for the purposes for which it is operated. Governance of all general policy matters, including without limitation, personnel appointments, internal auditing, retirement, leaves of absence, outside employment, intellectual property, equal opportunity, and grievance procedures for discrimination and harassment.

Specific provisions pertaining to general policies for the University may be set forth in the Faculty and Staff employee handbooks, Personnel Manuals, student handbooks, and/or other official policy documents of the University. Any modification to a Board of Regents’ policy in the policy documents referred to above or elsewhere must be made through action of the Board of Regents.

3.1 — GENERAL PERSONNEL POLICIES

3.1.1 — PERSONNEL ACTIONS

The President or the President’s authorized designees are authorized to approve the appointment of and fix the salary and terms of office of the following categories of personnel within funds available in the budgets approved by the Board of Regents (including reserve for contingencies) or within grant funds received by the University.

• Appointments, salaries, and other changes for members of the faculty who are non-tenure track, not tenured, or not eligible for tenure, whether part-time or full-time, unless full-time equivalent salary for the academic year will be $60,000 or more.

• Part-time graduate assistants, teaching assistants, research assistants, and consultants.

• Appointments, salaries, and other changes, including leaves of absence, for all members of the faculty and staff for terms of three months or less.

• Changes in title for tenured or tenure-eligible members of the faculty not involving a change in rank or salary.

• Appointments of part-time instructors for terms of no more than one semester during the regular academic year.

• Personnel in the administrative staff, managerial staff, professional staff, administrative officer, and executive officer classifications unless the full-time equivalent annual salary will be
$60,000 or more. Mid-year salary increases, other than for a promotion or completion of a probationary period, for monthly salaried staff at any level are excluded from this authorization.

- Service and operations staff and supervisory staff.

### 3.1.2 CONTRIBUTIONS TO FRINGE BENEFITS PROGRAMS

Specific provisions pertaining to insurance and retirement benefits are set forth in the University’s faculty and/or staff/handbook(s).

The University’s contribution to the Oklahoma Teachers’ Retirement System and/or other charges for any other fringe benefit program for those individuals paid from other than Educational and General sources shall be charged to the source or sources of pay on a pro rata basis except where expressly forbidden by the source.

### 3.1.3 PAYROLL DEDUCTIONS

The Board of Regents authorizes (1) current withholding from the compensation for an employee’s services, with the consent of the employee, amounts necessary for participation in various programs and (2) the President to approve future deductions which appear to be in the best interests of the University and its employees.

### 3.1.4 EMPLOYMENT BENEFITS FOR PART-TIME EMPLOYEES

See the University’s Personnel Policy Manual/staff/employee handbook or other policies for a description of “Employee’s benefits for Part-Time Employees.”

### 3.1.5 RESIGNATIONS

Resignations shall be effective on the last day of service of the employee, and an employee shall not be paid for a holiday if the last day of service was prior to the holiday period.

### 3.1.6 LEAVES OF ABSENCE

#### 3.1.6.1 ADMINISTRATIVE

An administrative leave with pay may be given when it is determined to be in the University’s best interest that an employee not return to work for a specified period of time or for designated emergency closings of the University. Recommendations for administrative leave must be submitted to the President or the President’s designee for approval.

#### 3.1.6.2 MILITARY LEAVE

The University’s policy on military leave of absence is administered in accordance with federal and
3.1.6.3 — LEAVE OF ABSENCE WITHOUT PAY

For specific policies relating to “Leave of Absence without Pay,” see the University’s Faculty and/or Staff/employee Handbook(s) or other applicable policies.

3.1.7 — PAID LEAVE AND EXTENDED SICK LEAVE

See the University’s Faculty and/or Staff/employee Handbook(s) for specific policies on Paid Leave and Extended Sick Leave.

3.1.8 — CONFLICTS OF INTEREST

3.1.8.1 — PURPOSE OF POLICY

This policy addresses situations where there might be a potential financial conflict between a particular outside interest of a faculty or staff employee and the obligation that the employee owes to the University, such that an employee’s profit or advantage may come, or reasonably appear to come, at the expense of the well-being of the University.

The purpose of this policy is to aid in identifying apparent, actual, and potential conflicts of interest and assuring that such conflicts do not improperly affect the activities or professional conduct of the University or its employees. It is not the intent of this policy to restrict legitimate work appropriate related to the employee’s profession or discipline, but only to provide the University with authority to take action that is appropriate, proportionate, and focused on substantial conflicts of interest that compromise an employee’s professional judgment.

3.1.8.2 — STATEMENT OF GENERAL POLICY

The University is a public institution committed to the mission of teaching; research and creative/scholarly activity, and professional and University service and public outreach/community engagement. To these ends, the University balances an assortment of principles: maintaining an atmosphere that promotes free and open scholarly inquiry; facilitating the transfer of information and technology for the benefit of the public; and serving as a prudent steward of public and private resources entrusted to it. Faculty and staff have a primary commitment to their basic University duties of teaching; research and creative/scholarly activity, and professional and University service and public outreach/community engagement. These basic duties often limit outside activities. As a result, professional and personal activities may present conflict of interest situations, which should be evaluated under the auspices of this and other applicable policies.

Employee participation in outside professional, commercial, and pro bono publico activities can...
make important direct and indirect contributions to the strength and vitality of the University. Through participation in such activities, employees may add to knowledge and understanding that is relevant and useful to teaching and research within the University, develop sources of funding and support for activities carried out by the University, and establish relationships valuable to the University.

Because of its value to the University, its rewards for an individual employee, and its contributions to the larger society of which the University is a part, the University recognizes that employee participation in outside professional, commercial, or pro bono publico activities is often appropriate.

Sound professional discretion is an integral part of the University’s conflict of interest system. Any review of a potential conflict of interest will be undertaken in light of four general propositions.

First, conflicts of interest per se are inevitable and do not necessarily represent any impropriety by employees if disclosed in advance. Second, the failure to disclose a conflict of interest for administrative review and response would be a serious mistake for any employee and may be a breach of this policy. Third, there is a presumption in favor of allowing employees to act in dual roles once the conflict of interest has been disclosed (prior written approval is required in cases of potential conflicts involving federal grants or contracts). Fourth, conflicts of interest may be so profound or substantial that it would be best for all concerned if the employee did not participate in a particular transaction.

It is not possible to completely eliminate the potential for conflicts of interest because there are certain rewards and incentives that are inherent or appropriate in the structure of a University enterprise. Such conflicts become detrimental when the potential temptations, financial or otherwise, undermine reasonable objectivity in the design, interpretation, and publication of research; in setting University policies; in managing contracts; in selecting equipment and supplies; in involving students in sponsored projects; or in performing other roles in University governance in which objectivity and integrity are paramount. Furthermore, since allegations of conflicts of interest based on appearances can undermine public trust in ways that may not be adequately restored even when mitigating facts are brought to light, apparent conflicts should be avoided, when feasible and appropriate.

Other sections of this policy notwithstanding, it is the ongoing responsibility of the employee to abide by the provisions of all other applicable federal and state laws, and the University’s policies relating to conflicts of interest; to identify potential conflicts of interest; and to disclose and seek guidance on such matters from the appropriate vice president.

3.1.9 —INTELLECTUAL PROPERTY POLICY

The people of the State of Oklahoma may reasonably expect that their investments in the University will create new industry and enhance existing industry within the State and Nation. Such new industry creates greater employment opportunities for citizens of the State and the Nation and an improvement in their standard-quality of living.

The creation and development of intellectual property at the University encourages new business
and is key to creating strong University and industry partnerships. It is the responsibility of University employees to disclose intellectual property and to foster an entrepreneurial attitude within the workforce by involving students in the creation of intellectual property. Intellectual property development shall be pursued in concert with, but subject to, the University’s principal responsibilities of education and knowledge creation.

Therefore, it is in the best interest of the University to adopt a policy that encourages disclosure of discoveries and inventions and rewards such creative activity. To do so, the University’s policy must ensure that creators of copyrightable works or trademarks and inventors share in any financial success enjoyed by the University through the creation and commercialization of intellectual property. The basic objectives of the University’s policy concerning creative works, trademarks, discoveries, and inventions (i.e., intellectual property) include the following:

1) To maintain the University’s academic policy of encouraging research, publication, and scholarship independent of potential gain from royalties or other income.

2) To make patented materials created pursuant to University objectives available in the public interest under conditions that will promote their effective utilization and commercialization.

3) To provide adequate incentive and recognition to faculty and staff through proceeds derived from their creative works, trademarks, discoveries, and inventions.

Specific provisions prescribing matters related to the intellectual properties policy are set forth in the University’s Faculty and/or Staff Handbooks.

3.1.10 —OUTSIDE EMPLOYMENT AND EXTRA COMPENSATION POLICY

3.1.10.1—FACULTY

The missions of the University are teaching; research and creative/scholarly activity; and professional and University service and public outreach/community engagement. As professionals, University faculty are individually and primarily responsible for arranging their time among such academic functions as teaching assignments, research, service, continuing education, and consultation. Such arrangements will be subject to evaluation and approval by appropriate authorities as part of a faculty member’s total professional activity during the year with reference to department, school, and University criteria for merit salary increases, tenure, and promotion.

The professional expertise of the faculty is normally available to the state and its citizens for incidental and minor services without remuneration. When, however, the services desired from outside the University exceed a reasonable and mutually agreed limit, direct extra remuneration may be accepted, provided the extent of the involvement does not infringe on the faculty member’s regular University duties.
A person who accepts full-time faculty employment at the University assumes a primary professional obligation to the University. Any other employment or enterprise in which he or she engages for income shall be secondary to his or her University work. In addition, the academic department head should be informed and approve of arrangements which are made to dismiss classes or to provide substitute teachers for them, when the faculty members are absent from these duties. All professional activities, whether within the University or without, whether for extra remuneration or for no remuneration of any kind, should contribute to the faculty member’s professional growth or efficiency and to his or her teaching or scholarly competence.

After prior written arrangement, faculty members may engage in professional activities for extra remuneration (from within the University, or from outside sources, or in any combination of the two) to for a maximum of 25% of their full-time professional effort. Faculty on twelve-month appointments may not receive extra compensation for teaching in the summer term or for performing sponsored research, except for teaching approved overload courses.

During any portion of the summer in which faculty members are not under appointment with the University, they may engage in outside employment without restriction.

Within the University, the time required for all extra compensation assignments during the entire year, and for all professional assignments during the summer, will be determined by those responsible for the various programs as an appropriate fraction of the faculty member’s full-time professional effort and the University will pay the faculty member the corresponding fraction of his or her base salary rate or at an adjunct rate, which shall be determined in the University’s sole discretion. The time required for all professional activities for extra remuneration outside the University will be determined by the faculty member as an appropriate fraction of his or her full-time professional effort when approval for such activity is requested.

Approval of outside employment shall be requested on a form entitled “Application for Permission to Engage in Outside Employment,” which is available in the office of human resources. Such applications and arrangements must be submitted at the beginning of each contract year and are the responsibility of the faculty member. All activities performed outside the University for extra-compensation must be arranged, as all in-load assignments are, with the agreement of the department head, dean, and Vice President for Academic Affairs.

Faculty should avoid possible conflicts of interest with the University in all outside employment. Questions regarding potential conflicts of interest should be addressed to the Vice President for Academic Affairs who may wish to consult the University Office of Legal Counsel.

No faculty member may hold a split (joint) appointment, which reflects more than a total of 1.0 full-time equivalent.

3.1.10.2—STAFF

The policy for faculty shall apply to administrative and professional staff who are on the monthly
payroll. Each Vice President may stipulate a more restrictive policy pertaining to administrative and professional staff within his or her administrative area.

With prior written approval, such individuals may engage in professional activities for extra remuneration (within the University or from outside sources, or in any combination of the two) for a maximum of 25% of their twelve-month, full-time professional effort, but they may not receive extra compensation for teaching in the summer term or for performing sponsored research.

Administrative and professional staff who are on the monthly payroll shall request approval for outside employment on a form entitled “Request for Permission to Engage in Outside Employment,” which is available from the office of human resources. All activities performed inside the University for extra compensation must be arranged, as regular assignments are, with the agreement of the Vice President, immediate supervisor, and, if applicable, the appropriate department chair/head, dean (where applicable), and Vice President.

(RM, 10-24-2005, p. 29901)

3.1.10.3—HARDSHIP PROVISION

If this policy creates a demonstrable hardship for a University program, exceptions may be granted by the President in response to a written request.

3.1.11—NEPOTISM

Except as prohibited by the laws of the State of Oklahoma, relationship by consanguinity (blood) or by affinity (marriage) shall not, in itself, be a bar to appointment, employment, or advancement by the University or, (in the case of faculty members,) to eligibility for tenure. The University recognizes, however, that there is an inherent conflict of interest when an employee makes hiring, promotion, or salary decisions about a family member, although there may be extremely rare circumstances when the potential benefit to the University in having an employee supervise a family member outweighs the potential harm.

Therefore, no two persons who are related by affinity or consanguinity within the third degree shall be given positions in which either one is directly responsible for making recommendations regarding employment, promotions, salary, or tenure for the other; nor shall either of two persons so related who hold positions in the same budgetary unit be appointed to an executive or administrative position in that unit, or to a position involving administrative responsibility over it, as long as the other person remains in the unit, without first receiving a waiver that has been recommended by the Vice President for Academic Affairs, or the appropriate Vice President, and approved by the President and Board of Regents. In recommending the waiver, the Vice President for Academic Affairs or the appropriate Vice President must make a written statement of the facts that have led him or her to conclude that the benefit to the University in granting the waiver outweighs the potential harm. In addition, the Vice President for Academic Affairs or the appropriate Vice President must propose in writing a means by which a qualified, objective person, unrelated to the employee at issue, shall make performance evaluations and recommendations for compensation, promotion,
and awards for that employee and state in writing how that means will avoid the conflict of interest. The statement and proposal for supervision shall be made part of the Board of Regents’ agenda item. Further, a salary increase above the average increase granted to all University employees in similar positions will not be granted to an employee who has been granted a waiver under this policy unless it has been approved by the applicable Vice President for Academic Affairs or appropriate Vice President and the President.

It is the responsibility of the head of the budget unit to seek a waiver before offering employment to any person whose employment would violate this policy, and the willful failure to follow this policy may result in disciplinary action against the head of the budget unit.

Notwithstanding any other provision of this policy, a conditional hire, prior to the approval of the Board of Regents, may be made pursuant to this policy if deemed necessary for legitimate academic or business reasons if justified in writing by the appropriate Vice President and approved by the President. At the next regular meeting of the Board of Regents, the written justification and the conditional hire will be considered by the Board of Regents.

Relatives that are within the third degree of relationship to an employee by consanguinity or affinity include the following: spouse, parent, parent of spouse, grandparent, grandparent of spouse, great-grandparent, great-grandparent of spouse, uncle or aunt, uncle or aunt of spouse, brother or sister, brother or sister of spouse, son or daughter, son-in-law or daughter-in-law, grandson or granddaughter, grandson’s or granddaughter’s spouse, great grandson or great granddaughter, and great grandson’s or great granddaughter’s spouse. For the purposes of this policy, step- and half relatives are considered to be related by affinity.

3.1.12 —PREVENTION OF ALCOHOL ABUSE AND DRUG USE ON CAMPUS AND IN THE WORKPLACE

The federal Drug-Free Workplace Act enacted into law in 1988 requires that any entity seeking to be considered to receive a grant from any federal agency, and any entity seeking to be awarded a contract for the procurement of any property or services of a value of $25,000 or more from any federal agency, certify to the Federal granting or contracting agency that it will provide a drug-free workplace.

The University recognizes its responsibility as an educational and public service institution to promote a healthy and productive work environment. This responsibility demands implementation of programs and services which facilitate that effort. The University is committed to a program to prevent the abuse of alcohol and the illegal use of drugs and alcohol by its students and employees. The University’s program includes this policy, which prohibits illegal use of drugs and alcohol in the workplace or as part of any University-sponsored activities. It shall be Board of Regents’ policy that:

1. All students and employees shall abide by the terms of this policy as a condition of initial and continued enrollment and employment.
2. The illegal use of drugs and alcohol is in direct violation of local, state, and federal law, as well as University policies governing faculty, staff, and student conduct. This policy strictly prohibits the illegal use, possession, manufacture, dispensing, or distribution of alcohol, drugs, or controlled substances in the workplace, on its University premises, or as a part of any University-sponsored activities.

4.3. Violating this policy shall be a major offense, which can result in a requirement for satisfactory participation in a drug or alcohol rehabilitation program, at the employee’s or student’s expense, referral for criminal prosecution, and/or immediate disciplinary action up to and including termination from employment and suspension or expulsion from the University. A criminal conviction is not required for sanctions to be imposed upon an employee or student for violations of this policy.

2.4. Violations of applicable local, state, and federal laws may subject a student or employee to a variety of legal sanctions including, but not limited to, fines, incarceration, imprisonment, and/or community service requirements. Convictions become a part of an individual’s criminal record and may prohibit— a certain career and professional opportunities. A current listing of applicable local, state, and federal sanctions can be obtained through -the- Office of Student Affairs and human resources.

3.5. An employee shall notify his or her supervisor in writing of a criminal conviction for drug or alcohol-related offenses occurring in the workplace no later than five calendar days following the conviction.

4.6. The University provides access to information about the dangers of drug and alcohol abuse. Voluntary participation in or referral to these services is strictly confidential.

5.7. An employee shall not perform safety sensitive functions while a prohibited drug is in his or her system.

6.8. The University may require drug testing of safety sensitive employees (as defined by federal law) prior to employment, when there is reasonable cause, after an accident, on a random basis, and before allowing the employee or student to return to duty after refusing to take a drug test or after not passing a drug test.

7.9. The University shall distribute this policy to all staff, faculty, and students.

Health risks generally associated with alcohol and drug abuse can result in, but are not limited to include, but are not limited to the following: a lowered immune system, damage to critical nerve cells, physical dependency, lung damage, heart problems, liver disease, physical and mental depression, increased infection, irreversible memory loss, personality changes, and thought disorders.

The chief fiscal officer is responsible for notifying Federal funding agencies within ten calendar days whenever an employee is convicted of a drug-related crime which occurred in the workplace.
Decisions under this policy are subject to the grievance procedures stated elsewhere in the Board of Regents’ policy.

3.2 — EQUAL OPPORTUNITY POLICIES

3.2.1 — EQUAL OPPORTUNITY POLICY

The University, in compliance with all applicable federal and state laws and regulations, does not discriminate on the basis of race, color, national origin, sex, sexual orientation, gender identity, gender expression, age, religion, political beliefs, disability, or status as a veteran in any of its policies, practices, or procedures. This includes, but is not limited to, admissions, employment, financial aid, and education services.

Each University, recognizing its obligation to guarantee equal opportunity to all persons in all segments of University life, reaffirms its commitment to the continuation and expansion of positive programs which reinforce and strengthen their affirmative action policies. This commitment stems not only from compliance with federal and state equal opportunity laws but from a desire to ensure social justice and promote campus diversity. Each University will continue its policy of fair and equal employment practices for all employees and job applicants without insidious discrimination on the basis of race, color, national origin, sex, sexual orientation, gender identity, gender expression, genetic information, age, religion, political beliefs, disability or status as a veteran. Each University will maintain a critical and continuing evaluation of its employment policies, programs and practices. Each budget unit bears a responsibility for constructive implementation of this Plan, and whenever possible, to the overall progress toward employment opportunity and participation in all University programs and activities. Our commitment to the concept of affirmative action requires sincere and cooperative efforts throughout all levels of our employment structure. We will continue to strive to reach the goals of fair and equal employment opportunities for all.

3.2.2 — AFFIRMATIVE ACTION PLAN
The Affirmative Action Plan serves to supplement the Board of Regents’ policy on equal opportunity, as it pertains to employment and is an integral part of the employment policies of the University. The Plan is revised once each year to address the current requirements for affirmative action in employment. The principal objectives are:

1) To assure all persons equal opportunity for employment and advancement in employment regardless of race, color, national origin, sex, sexual orientation, gender identity, gender expression, religion, age, disability, political beliefs, or status as a veteran.

2) To meet institutional responsibilities under the Civil Rights Act of 1964 and commitments as a federal contractor under Executive Order 11246 and Executive Order 11375.

3) To take positive actions in the recruitment, placement, development and advancement of diversity women and racial minority members in University employment.

Each person having administrative or supervisory responsibilities is expected to provide leadership in applying the Affirmative Action Plan.

Coordination of the application of the Affirmative Action Plan is the responsibility of the office of human resources.

3.2.3—RACIAL AND ETHNIC HARASSMENT POLICY NONDISCRIMINATION POLICY

3.2.3.1—INTRODUCTION

Diversity is one of the strengths of our society as well as one of the hallmarks of a great university. The University supports diversity and therefore is committed to maintaining employment and educational settings which are multicultural, multiethnic, and multiracial. Respecting cultural differences and promoting dignity among all members of the University community are responsibilities each of us must share.

Racial and ethnic harassment is a growing concern across American college campuses. It has taken various forms, from criminal acts (assault and battery, vandalism, destruction of property) to anonymous, malicious intimidation, most often directed toward persons whose race and ethnicity is readily identifiable. The University does not discriminate or permit discrimination by any member of its community against any individual based on race, color, sex, sexual orientation, gender identity, gender expression, religion, political beliefs, national origin, age (40 or older), genetic information, disability, or veteran status in matters of admissions, employment, financial aid, housing or services in educational programs or activities the University operates. In employment, racial and ethnic harassment is a form of race discrimination which interferes with an employee’s ability to perform his or her duties or creates a hostile or intimidating work environment, that is prohibited by
law under Title VII of the Civil Rights Act of 1964. In the educational context, racial and ethnic harassment is a form of race discrimination which interferes with the students’ opportunities to enjoy the educational programs offered by the University, prohibited by law under Title VI of the Civil Rights Act of 1964.

The University policy also prohibits retaliation against a person for filing a complaint of discrimination or harassment under this policy or other applicable federal, state or local laws. This policy also prohibits retaliation against any person who assists someone with a complaint of discrimination or harassment or who participates in any manner in an investigation or resolution of a complaint of discrimination or harassment.

3.2.3.2 —POLICY STATEMENT

Principles of academic freedom and freedom of expression require tolerance of the expression of ideas and opinions, which may be offensive to some, and the University respects and upholds these principles. The University also adheres to the laws prohibiting discrimination in employment and education. The University recognizes that conduct which constitutes racial and ethnic harassment in employment or educational programs and activities shall be prohibited and is subject to remedial or corrective action as set forth in this policy. This policy is premised on the University’s obligation to provide an environment free from unlawful discrimination. The University will vigorously exercise its authority to protect employees and students from harassment by agents or employees of the University, students, visitors, or guests.

Agents or employees of the University, acting within the scope of their official duties, shall not treat an individual differently on the basis of race, color, sex, sexual orientation, gender identity, gender expression, religion, political beliefs, national origin, age (40 or older), genetic information, disability, or veteran status or national origin in the context of an employment or educational program or activity without a legitimate, nondiscriminatory reason.

The University shall not subject an individual to different treatment on the basis of race, color, sex, sexual orientation, gender identity, gender expression, religion, political beliefs, national origin, age (40 or older), genetic information, disability, or veteran status or national origin, by effectively causing, encouraging, accepting, tolerating, or failing to correct a racially or ethnically hostile environment of which it has notice.

The full text of the University Nondiscrimination Policy shall be made publicly available on the websites of each University. Hard copies may be request through the University’s equal opportunity and student affairs office.

3.2.3.3 —CORRECTIVE ACTIONS

Violations of this policy shall result in corrective action(s) designed to reestablish an employment or educational environment which is conducive to work or learning. Corrective actions will include disciplinary action directed by the executive officer having responsibility for the offender, where
appropriate. Corrective actions will be tailored to redress the specific problem and may range from apologies, mandatory attendance at specific training programs, reprimands, suspension, or demotion, to expulsion or termination. Corrective actions shall be based upon the facts and circumstances of each case and shall be in accordance with the terms and guidelines of the applicable campus grievance procedures.

Violations of this policy by students will be considered as violations of the Student Code and will subject student offenders to the corrective action(s) provided by the Code.

3.2.3.4 ADMINISTRATIVE ACTION

The University recognizes its obligation to address incidents of racial and ethnic harassment on campus when it becomes aware of their existence, even if no complaints are filed. Therefore, in such circumstances, the University reserves the right to take appropriate action unilaterally under this policy.

With respect to students, the University President, chief student affairs officer, or other appropriate persons may take immediate administrative or disciplinary action which is deemed necessary for the welfare or safety of the University community. Any student so affected must be granted due process including a proper hearing. Any hearing involving disciplinary suspension or expulsion shall be conducted in accordance with the University’s Student Code.

Lesser administrative or disciplinary action may be appealed to the University chief student affairs officer. Such requests must be in writing and filed within seven calendar days following summary action. The University chief student affairs officer will issue a written determination to the student within three working days following the date the request is received.

With respect to employees, upon a determination at any stage in the investigation or grievance procedure that the continued performance of either party’s regular duties or University responsibilities would be inappropriate, the proper executive officer may suspend or reassign said duties or responsibilities or place the individual on leave of absence, with or without pay, as may be approved by the President, pending the completion of the investigation or grievance procedure.

3.2.3.5 RETALIATION

Threats or other forms of intimidation or retaliation against complaining witnesses, other witnesses, any reviewing officer, or any review panel shall constitute a separate violation of this policy which may be subject to direct administrative action.

—COMPLAINT PROCESS

The complaint procedures delineated herein apply to all students, faculty, staff, guests, or visitors. Complaints alleging violation of the racial and ethnic harassment policy will be reviewed and investigated by the appropriate University office. Complaints may be resolved informally or may

3.2.4—SEXUAL HARASSMENT/ AND SEXUAL ASSAULT GENDER-BASED MISCONDUCT POLICY

3.2.4.1—STATEMENT

The Board of Regents explicitly condemns gender-based misconduct, including, but not limited to, discrimination based on sex, sexual assault, sexual or sexual harassment, sexual harassment of students against students, staff, and faculty. Sexual harassment and sexual assault are unlawful and will subject those who engage in it to University sanctions as well as civil and criminal penalties.

When criminal action is pursued in addition to an administrative grievance under this policy, the
Office of Equal Opportunity will coordinate its investigative actions with the University or local law enforcement authorities to ensure that criminal prosecution is not jeopardized. The University Equal Opportunity Officer may defer administrative action at the request of University or local law enforcement authorities pending completion of the criminal investigation. Where review by the University Equal Opportunity Officer or other University executive officer determines that immediate administrative action is necessary for the safety, health, and or well-being of the University community, such action may be taken in advance of resolution of any criminal charges.

Since some members of the University community hold positions of authority that may involve the legitimate exercise of power over others, it is their responsibility to be sensitive to that power. Faculty, and supervisors in particular, in their relationships with students and subordinates, need to be aware of potential conflicts of interest and the possible compromise of their evaluative capacity. Because there is an inherent power difference in these relationships, the potential exists for the less powerful person to perceive a coercive element in suggestions regarding activities outside those appropriate to the professional relationship. It is the responsibility of faculty and staff to behave in such a manner that their words or actions cannot reasonably be perceived as sexually coercive, abusive, or exploitive. Sexual harassment and sexual assault can also involve relationships among equals, as when repeated advances, demeaning verbal behavior, or offensive physical contact interfere with an individual’s ability to work or study productively.

Accordingly, the University is committed to providing an environment of study and work free from all forms of gender-based sexual harassment, exploitation, or intimidation and to ensuring the accessibility of appropriate grievance procedures for addressing sexual harassment and sexual assault discrimination. Any such activity committed by a member of the University community may subject the individual to University sanctions as well as civil and criminal penalties. This policy covers unwelcome conduct of a sexual nature. Consensual romantic relationships between members of the University community are subject to other University policies.

The full text of the University Gender-Based Misconduct Policy shall be made publicly available on the websites of each University. Hard copies may be requested through the University’s equal opportunity and/or student affairs office.

The University reserves the right, however, to deal administratively with sexual harassment issues whenever becoming aware of their existence.

Records of all complaints, except for hearings before the Faculty Appeals Committee, shall be transmitted to and maintained by the University Equal Opportunity Officer as confidential records.

The University encourages victims to report instances of sexual harassment, sexual assault, or other sex offenses, either forcible or nonforcible. In addition to internal grievance procedures, victims are encouraged to file complaints or reports with Campus Police or local law enforcement agencies by telephoning 911 as soon as possible after the offense occurs in order to preserve evidence necessary to the proof of possible criminal offenses. The Campus Police Department is available to assist victims in filing reports with other area law enforcement agencies.
Gender-based misconduct comprises a broad range of behaviors focused on sex and/or gender that may or may not be sexual in nature. Any intercourse or other intentional sexual touching or activity without the other person’s consent is sexual assault, which is a form of gender-based misconduct under this Policy. Sexual harassment, sexual exploitation, gender-based harassment, stalking, domestic violence, and dating violence are also forms of gender-based misconduct. Intimidation for one of these purposes is gender-based misconduct, as is retaliation following an incident of alleged gender-based misconduct or attempted gender-based misconduct. Misconduct can occur between strangers or acquaintances, or people who know each other well, including between people involved in an intimate or sexual relationship, can be committed by anyone regardless of gender identity, and can occur between people of the same or different sex or gender. This Policy prohibits all forms of gender-based misconduct.

Sexual harassment shall be defined as unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature in the following context:

1) When submission to such conduct is made, either explicitly or implicitly, a term or condition of an individual’s employment or academic standing, or

2) When submission to, or rejection of, such conduct by an individual is used as the basis for employment or academic decisions affecting such individual, or

3) When such conduct has the purpose or effect of unreasonably interfering with an individual’s work or academic performance or creating an intimidating, hostile, or offensive working or academic environment.

Conduct prohibited by this policy may include, but is not limited to:

- Coercion for a date or a romantic or intimate relationship
- Unwelcome touching, kissing, hugging, or massaging
- Use of unwanted force in connection with sexual activity or attempted sexual activity
- Sexual contact with a person who has not clearly consented
- Unwelcome remarks about the private parts of a person’s body
- Belittling remarks about a person’s gender or sexual orientation based on gender-stereotyping
- Videotaping or photographing of activity of a sexual or private nature without the consent of the person(s) being videotaped or photographed
- Obscene gestures of a sexual or gender-based nature
- Derogatory posters, graffiti, cartoons, calendars, drawings, pictures, or text, whether
disseminated through hard copy or electronically through e-mail, the Internet, or other digital mediums to facilitate any of the behaviors listed above.

- Unwelcome sexual flirtation, advances, or propositions for sexual activity.
- Continued or repeated verbal abuse of a sexual nature, such as suggestive comments and sexually explicit jokes.
- Sexually degrading language to describe an individual.
- Remarks of a sexual nature to describe a person's body or clothing.

3.2.4.4—RETAIIATION

University policy also prohibits retaliation against a person for filing a complaint of discrimination or harassment under the Nondiscrimination Policy and/or the Gender-Based Misconduct Policy or other applicable federal, state or local laws. This Retaliation Policy also prohibits retaliation against any person who assists someone with a complaint under these laws or policies or who participates in any manner in an investigation or resolution of such a complaint. Any attempt to penalize or retaliate against a person for filing a complaint or participating in the investigation of a complaint of sexual harassment will be treated as a separate and distinct violation of this policy.

3.2.4.5—SANCTIONS

Appropriate disciplinary action may include a range of actions up to and including dismissal and/or expulsion.
3.2.4.6—DUTY TO REPORT GENDER-BASED MISCONDUCT

Any member of the University community may report conduct that could constitute gender-based misconduct, including sexual assault, discrimination and harassment. Additionally, supervisors, managers, and other designated employees are responsible for taking all appropriate action to prevent gender-based misconduct sexual assault, discrimination and harassment, to correct it when it occurs, and to promptly report it to the Equal Opportunity Officer, Title IX Officer, or other appropriate University official. Failure to do so may result in disciplinary action up to and including termination.

3.2.4.7—COMPLAINT PROCEDURE

Any individual who at the time of the actions complained of was employed by the University or was an applicant for University employment or was enrolled as a student or an applicant for admission at the University may file a complaint concerning violations of the Nondiscrimination Policy with the Equal Opportunity Officer, and with respect to violations of the Gender-Based Misconduct Policy with the Title IX Officer and/or the Equal Opportunity Officer for review and investigation regarding complaints against University students, faculty, staff or those third parties utilizing University services or third parties on University premises. The full text of the these policies are publicly available on the websites of each University. Hard copies may be requester through the University’s equal opportunity and/or student affairs office.

Complaints alleging a violation of the Sexual Harassment/and Sexual Assault Policy shall be handled in accordance with the Equal Opportunity Grievance Procedure.

3.2.5—DISCRIMINATION POLICY

(For Other than types of discrimination that are not otherwise provided for in this Policy Manual
Sexual or Racial/Ethnic Harassment)

The University has a policy of internal adjudication in matters relating to alleged discrimination. Any faculty member, staff member, or student, including without restriction, those on temporary or part-time status, who believes that he or she has been discriminated or retaliated against should file a complaint under the Equal Opportunity Grievance Procedure.

Any attempt to penalize or retaliate against a person for filing a complaint or participating in the investigation of a complaint of discrimination and/or harassment will be treated as a separate—and distinct violation of this policy.

3.2.6—CONSENSUAL SEXUAL RELATIONSHIPS POLICY

3.2.6.1—RATIONALE

The University’s educational mission is promoted by professionalism in faculty, staff, and student relationships. Professionalism is fostered by an atmosphere of mutual trust and respect. Actions of faculty, staff, and students that harm this atmosphere undermine professionalism and hinder
University employees exercise power over subordinate employees and students, whether in giving them praise or criticism; evaluating them; making recommendations for promotion, further studies, or their future employment; or conferring any other benefits on them.

Amorous relationships between employees and subordinate employees or subordinate students are wrong when the employee has professional responsibility for the subordinate employee or student.

Consensual amorous, dating, or sexual relationships have inherent risks when they occur between a faculty member, supervisor, or other member of the University community and any person over whom he or she has a professional responsibility. The risks include a student or subordinate’s feeling coerced into an unwanted relationship to ensure they receive a proper educational or employment experience; potential conflicts of interest in which the person is in a position to evaluate the work or make personnel or academic decisions with respect to the individual with whom he or she is romantically involved; a perception by students or employees that a fellow student or coworker who is involved in a romantic relationship with his or her supervisor or professor will receive an unfair advantage; either or both of the parties engaging in behavior destructive to the other or their academic or working environments if the relationship ends; and the potential that University/state resources are used inappropriately to further the romantic relationship. Such situations greatly increase the opportunities that for a University employee may to abuse his or her power and sexually exploit the subordinate employee or subordinate student. Voluntary consent in such a relationship is suspect, given the fundamentally asymmetric nature of the relationship. Moreover, other employees and students will likely be adversely affected by such unprofessional behavior because it places the employee in a position to favor or advance one individual’s interests at the expense of others and implicitly makes obtaining benefits contingent on amorous or sexual favors. Therefore, the University will view it as unethical if staff or faculty members engage in amorous relations with subordinate employees or students enrolled in their classes or subject to their supervision, even when both parties appear to have consented to the relationship.

Those with professional responsibility over others and with whom they have a romantic relationship should be aware that their involvement may subject them and the University to legal liability; consequently, such relationships are strongly discouraged. “Professional responsibility” is defined as performing functions including but not limited to teaching, counseling, grading, advising, evaluating, hiring, supervising, and making decisions or recommendations that confer benefits such as promotions, financial aid awards, or other remuneration, or that may impact upon other academic or employment opportunities.

3.2.6.2—DEFINITIONS

As used in this policy, the term “employee” includes all employees, including but not limited to, academic and non-academic administrators, supervisory personnel, staff, faculty, graduate students, etc.
with or without teaching responsibilities, student employees, and other instructional personnel. The term “consensual sexual relationship” may include amorous or romantic relationships and is intended to indicate conduct that goes beyond what a person of ordinary sensibilities would believe to be a collegial or professional relationship.

The term “subordinate” as used here means an employee or student in a position of lesser power or authority than the other party to the amorous relationship, e.g., any employee or student who is beneath another in the employment chain of command or who relies upon the other for day-to-day directions would be “subordinate,” as would a project team member or housing resident with respect to the project director or resident advisor, respectively.

3.2.6.3—POLICY

Consensual sexual relationships between employees and subordinate employees or subordinate students are prohibited. Violations of this policy may lead to disciplinary action up to and including termination and/or expulsion.

3.2.6.3.1—FACULTY-STUDENT RELATIONSHIPS
A. Employee Relationships with Subordinate Students or Subordinate Employees

Within the Instructional Context – It is considered a serious breach of professional ethics for an employee to initiate or acquiesce in a sexual relationship with a student who is enrolled in a course being taught by the employee or whose academic work (including work as a teaching assistant) is being supervised by the employee.

Outside the Instructional Context -- Sexual relationships between faculty members and students occurring outside the instructional context may lead to difficulties. Particularly when the faculty member and student are in the same academic unit or in units that are academically allied, relationships that the parties view as consensual may appear to others to be exploitative. Further, in such situations, the faculty member may face serious conflicts of interest and should be careful to distance himself or herself from any decisions that may reward or penalize the student involved. A faculty member who fails to withdraw from participation in activities or decisions that may reward or penalize a student with whom the faculty member has or has had an amorous relationship will be deemed to have violated his or her ethical obligation to the student, to other students, to colleagues, and to the University.

3.2.6.3.2—STAFF-SUBORDINATE RELATIONSHIPS

Other Contexts—Sexual relationships between employees and subordinate employees or subordinate students occurring outside the instructional context may also lead to difficulties, particularly when the employee and subordinate employee or subordinate student are in the same academic unit or in units that are closely allied. Relationships that the parties view as consensual may appear to others to be exploitative. Further, in such situations the employee may face serious conflicts of interest and must be careful to distance himself or herself from any decisions that may
reward or penalize the subordinate employee or subordinate student involved. An employee who fails to withdraw from participation in activities or decisions that may reward or penalize such subordinates with whom the employee has or has had an amorous relationship will be deemed to have violated his or her ethical and professional obligations to the University.

Supervisors, or those with professional responsibility, over someone with whom they have or have had an amorous, consensual, romantic, or sexual relationship must notify their direct supervisor that a management-control plan needs to be implemented, or that the supervisor wishes a transfer so that he or she is no longer in a position of professional responsibility over the affected individual. To avoid the severe risks noted, supervisors in such relationships may not manage, supervise, evaluate, or make other employment decisions concerning the individual with whom they are engaged in a romantic relationship. If the relationship ends, the management-control plan must remain in effect. Failure to notify a supervisor to ensure a plan is in place may result in disciplinary action, including termination, for that supervisor. An employee who fails to enter a management control plan or withdraw from participation in activities or decisions that may reward or penalize such subordinates with whom the employee has or has had an amorous relationship will be deemed to have violated his or her ethical and professional obligations to the University.

Prohibitions

Consensual sexual relationships between employees and subordinate employees or subordinate students are prohibited. Violations of this policy may lead to disciplinary action up to and including termination and/or expulsion.

Such persons may file their complaints in writing with the University Equal Opportunity Officer.

Complainants who exercise their right to use this procedure agree to accept its conditions as outlined. A grievance filed under this procedure may normally not be filed under any other University grievance procedure. Depending on the nature

B. With respect to students, the University chief student affairs officer or other appropriate persons in authority may take immediate administrative or disciplinary action, which is deemed necessary for the welfare or safety of the University community. Any student so affected must be granted appropriate due process.

C. With respect to employees, upon a determination at any stage in the investigation or grievance procedure that the continued performance of either party’s regular duties or University responsibilities would be inappropriate, the proper executive officer may suspend or reassign said duties or responsibilities or place the individual on leave of absence pending the completion of the investigation or grievance procedure.

3.2.7.5 — WITHDRAWAL OF COMPLAINT

The complainant may withdraw the complaint at any point prior to the adjournment of a formal hearing.

3.2.7.6 — CONFIDENTIALITY OF PROCEEDINGS AND RECORDS

Investigators and members of the Hearing Panel reviewing the grievance are individually charged to preserve confidentiality with respect to any matter investigated or heard. A breach of the duty to preserve confidentiality is considered a serious offense and will subject the offender to appropriate disciplinary action. Parties and witnesses also are admonished to maintain confidentiality with regard to these proceedings.

All records, involving discrimination, harassment, or retaliation upon disposition of a complaint, shall be transmitted to and maintained by the University Equal Opportunity Officer as confidential records except to the extent disclosure is required by law.
3.2.7.7—PROCEEDINGS AND INVESTIGATION

Upon receipt of a complaint, the University Equal Opportunity Officer is empowered to investigate the charge, to interview the parties and others, and to gather pertinent evidence. The investigation should be completed within 60 calendar days of receipt of the complaint, or as soon as practical. If a time period is extended for more than 10 calendar days, the University Equal Opportunity Officer will provide written or oral notice of reason for extension to all parties involved. The investigator shall prepare a record of the investigation.

In arriving at a determination of a policy violation at any stage of the proceedings, the evidence as a whole and the totality of the circumstances and the context in which the alleged incident(s) occurred shall be considered. The determination will be made from the facts on a case-by-case basis.

Upon completion of the investigation, the University Equal Opportunity Officer is authorized to take the following actions:

1. Satisfactory Resolution—Resolve the matter to the satisfaction of the University and both the complainant and the respondent. If a resolution satisfactory to the University and both parties is reached through the efforts of the University Equal Opportunity Officer, he or she shall prepare a written statement indicating the resolution. At that time, the investigation and the record thereof shall be closed.

2. Dismissal—Find that no policy violation occurred and dismiss the complaint, giving written notice of said dismissal to each party involved. Within 15 calendar days of the date of the notice of dismissal, the complainant may appeal said dismissal in writing to the University Equal Opportunity Officer by requesting a hearing. If no appeal is filed within the 15 calendar day period, the case shall be considered closed.

3. Determination of Impropriety

1) Make a finding of impropriety and notify the parties of the action to be taken. Either party has the right to appeal said determination in writing within 15 calendar days of the date of determination to the University Equal Opportunity Officer by requesting a hearing. If no appeal is filed within the 15 calendar day period, the case shall be considered closed.

2) In the case of a complaint against a faculty member, the administrative investigator may determine that the evidence is sufficiently clear and serious so as to warrant the immediate commencement of formal proceedings as provided in the Severe Sanctions sections of the Faculty Handbook. If the President concurs with the administrator’s finding, the case may be removed at the option of the accused from the grievance proceedings contained herein, and further action in the case shall be

4.3 — PUBLIC CONSTRUCTION AND IMPROVEMENT PROJECTS

(RM, 6-22/23-2004, pp. 29140, 29237)

4.4 — OBLIGATION AND COLLECTION OF STUDENT FEES

Tuition and fees and, including other fees for special educational services, are due prior to the first day of class. The University’s administration shall establish and publish a deadline when tuition and fees are payable, after which the payment may be subject to a service or late payment charge.

4.4.1 — ADD/DROP PERIOD

Changes of schedule may be made. A student may change his or her schedule during the first two weeks of a regular semester, or during the first week of a summer term, without incurring a penalty, and the appropriate charges will be added and/or removed for the respective classes added or dropped by the student. Classes may be dropped during the first ten regular instructional days of a regular semester and the first five regular instructional days of a summer session, or, in general, the first one-eighth of the academic term. The University may also allow students to add courses during this period or a designated shorter period. In either case, appropriate add/drop charges apply.

4.4.2 — LATE PAYMENT

Late payment will require payment in full and will be subject to a service/late payment charge in an amount determined and published by the University.

4.4.3 — FINANCIAL OBLIGATIONS INCURRED BY STUDENTS

The following procedures modify and clarify existing practices of the University governing financial obligations incurred by students, including both initial payments and delinquent debts. These procedures may be categorized as:

- Obligation and collection of tuition and fees
- Obligation and payment of other charges and fees
- Insufficient funds checks
- Delinquent housing payments
4.4.3.1—OBLIGATION AND COLLECTION OF TUITION AND FEES

1) A financial obligation is incurred at the time a student elects to register. Registration may be canceled without financial obligation at any time before the scheduled first day of classes, or during the first two weeks of a regular semester, or during the first week of a summer term or during the drop period defined in 4.4.1.

2) Students may pay tuition and fees prior to the first day of classes. Monthly statements will be prepared and mailed prior communicated before to the fee payment deadline. Failure to receive a statement will not exempt a student from late penalties. It is the student’s responsibility to determine his or her financial obligation and how it is to be met.

3) To avoid penalties and/or service charges, students are required to pay all tuition and fees in total prior to the date designated by the Business Office or Bursar as the last day to pay tuition and fees without penalty. At the time of enrollment, students will receive detailed information regarding tuition and fee payment.

4) Students may pay their tuition and fees in four payments during each fall and spring semester. These payments are subject to the service charge as defined in paragraph 6.

5) Students who do not pay their tuition and fees during the period noted above will be considered to have delinquent accounts. The Business Office or Bursar will send “Overdue Notices” directly to the students when their tuition and fees are not paid on time.

6) Students will be charged a payment plan fee and/or a monthly service charge on any unpaid balance on their student accounts receivable that is one billing cycle past due. The payment plan fee and/or a monthly service charge rate is published by the Business Office/Bursar each semester.

Service/Late Payment Charges may be waived if the University, through its action or inaction, has caused the payment for tuition and fees to be made beyond published deadlines, or if there are extraordinary circumstances (e.g., death in family, serious illness, accident, etc.) which result in the student’s tuition and fees not being paid by the published deadlines. The extraordinary circumstances must be an event which the student could not reasonably control or foresee. Extraordinary circumstances do not include reasons such as failure to receive a bill, not having the funds to pay, having a car payment or other payments due, or having other reasons which could be reasonably controlled or foreseen by the student. Students requesting a waiver of the Service/Late Payment Charges due to an extraordinary circumstance should submit a written request to the Business Office/Bursar fully describing the circumstances and include copies of supporting information. Requests for waivers should be submitted prior to the published deadline for tuition and fee payment whenever possible. The Business Office/Bursar shall review the request and
supporting documentation and determine whether a Service/Late Payment Charges waiver is to be made. In addition, students requesting Service/Late Payment Charges waivers should contact the Office of Financial Aid to determine if their extraordinary circumstance makes them eligible for aid from any of the University’s financial aid programs. Students paying tuition and fees with financial aid must obtain a Service/Late Payment Charges waiver from the Office of Financial Aid, in addition to the waiver from the Business Office/Bursar. Eligibility for this additional waiver will be determined by the Office of Financial Aid.

7) Students with outstanding tuition and fees at the beginning of any enrollment period who are not in conformance with items paragraphs 3 or 4, above, at the beginning of any enrollment period will not be permitted to enroll. The Business Office/Bursar will notify the Registrar of the names of those students with outstanding tuition and fees. Except for HOLDS on students’ accounts that have been referred to Collections, the Business Office/Bursar or their designee may remove enrollment HOLDS as an exception to this policy when, in the judgment of the Business Office/Bursar or his/her designee, there are extraordinary circumstances which prevented the student from paying outstanding tuition and fees.

8) Until and including the last day of final examinations, students may pay their delinquent accounts by paying their account balance in full, including all tuition and fees for all of their original enrollment plus the service charge noted in paragraph 6, above. Students settling their delinquent accounts after the last day of final examinations will be charged an additional penalty over and above the charges for delinquent accounts noted above. The amount of the additional late payment charge is published by the Business Office/Bursar each semester.

9) The Business Office/Bursar will notify the Registrar of the names of those students whose tuition and fees are not paid by the last day of classes. The Registrar may withhold the reporting of their final grades for such a student and will not release their transcript until his or her account balance is paid in full.

10) Withdrawal from classes after the first two weeks of a fall or spring semester, and after the first week of a summer term, does not relieve students of their financial obligation to the University, and these students will be charged 100% of the tuition and fees due the University.

11) Those students who wish to pay tuition and fees to be reinstated for a semester or summer term after the last day of finals for that session must be referred to the Vice President for Academic Affairs. The basic posture is that retroactive reinstatement would be allowed only in cases where it can be established that the University somehow contributed to the student’s late payment by some error on its part. Students requesting to be retroactively enrolled or added for prior semesters will be charged the tuition and fee rates in effect for the current semester plus applicable late fees and service charges. Regardless of when a student pays tuition and fees, payment for the entire enrollment is required. Selective course payment is not permitted.

12) All payments for delinquent accounts must be paid in a manner acceptable to
**4.4.3.2—OTHER CHARGES AND FEES**

1) Fines, charges, or other miscellaneous fees become a financial obligation of the student at the time they are assessed.

2) These charges will be periodically added to the central student’s bursar accounts, receivable which is maintained by the Business Office/Bursar.

3) Payment or satisfactory adjudication of all existing charges may be made at any time. If not paid prior to payment of tuition and fees, all other charges and fees are immediately due, and payment must be made when tuition and fees are paid.

4) Miscellaneous charges incurred during the remainder of the semester will be billed to the student on a monthly basis.

5) Delinquent payment of charges will not constitute grounds for withdrawal. The charges will be carried forward to the next semester, at which time all fees and charges must be cleared prior to any new enrollment. Except for HOLDS on students’ accounts that have been referred to the Collection Division Office, the Business Office/Bursar, or their designee may remove enrollment HOLDS as an exception to this policy when, in the judgment of the Business Office/Bursar, or their designee, there are extraordinary circumstances which prevented the a students from paying outstanding fees and charges. Students leaving the University will find their official records and transcripts tagged, and these records will not be released to other persons, institutions, or agencies until all debts are paid.

**4.4.3.3—DELINQUENT HOUSING PAYMENTS**

A financial and legal obligation is incurred when a student or the student’s parent signs a housing contract. The contract specifies the payment procedures.

The University shall establish, publish, and maintain policies and procedures to ensure the collection of University Housing and Food Services obligations in accordance with housing and food service contracts. Said policies and procedures shall include the use of both internal and external collection offices and the University’s Legal Counsel when appropriate.

The chief business officer/appropriate Vice President or his or her designee will be responsible for the supervision and enforcement of the procedures set out herein.

All questions about financial obligations should be directed to the Business Office/Bursar. If the question concerns the student’s enrollment, verification of registration records will be performed and, if appropriate, financial obligations adjusted. If the question concerns miscellaneous charges, and
fines, or fees, satisfactory adjudication must be obtained from the charging department. If it is evident that a problem developed as a result of an error in the University’s administrative processes, payment and reinstatement will be permitted without additional late charges or penalties.

4.4.34.4—LEGAL ACTION TO COLLECT ACCOUNTS

The Board of Regents authorizes the Office of Legal Counsel to institute suit in the name of the Board of Regents to collect accounts due and owing to the University, and to compromise or settle said suits upon such terms and conditions as the General Counsel believes to be in the best interest of the University.

The University Collection Division, under the authority of the Office of Legal Counsel, is responsible for the recovery of delinquent student accounts receivable and student loans that require litigation.

(RM, 6-22/23-2004, pp. 29140, 29237)

4.5—TUITION AND FEE REFUND POLICY

The refund policy for tuition and fees (except for Title IV recipients) collected from students at the University shall be included in the published class schedule, program brochures, and relevant web sites.

(RM, 6-22/23-2004, pp. 29140, 29237)

4.6—SCHOLARSHIP AND FINANCIAL AID INFORMATION

To facilitate the responsibilities charged to the University Financial Aid Services office, all scholarship and financial aid information and resources awarded from any school, department, office, or other University-related entity are to be reported to the Office of University financial Aid Services office in a complete and timely fashion.

(RM, 6-22/23-2004, pp. 29140, 29237)

4.7—AUXILIARY ENTERPRISES/ SERVICE UNITS

Auxiliary enterprises and service units primarily exist to furnish goods and services to students, faculty, or staff, and charge a fee for the cost of the goods or services. To ensure that data
regarding individual Auxiliary Enterprises are complete and adequate for management decisions, cost data should be prepared. Excess funds generated by Auxiliary Enterprises after applying full costing may be utilized for any lawful purpose to enhance the quality of University life for the students, faculty, or staff, including, but not limited to, student scholarships or other student awards, improvements or additions to the University—plant, other capital needs, University development, and University promotion.

Each Auxiliary Enterprise and/or Service Unit is to develop, maintain, and implement prudent business practices including, but not limited to:

1) A comprehensive procedure manual documenting applicable policies, procedures, standards, and other administrative and operating criteria;

2) Formal procedures for outlining operating standards and pricing criteria. The underlying procedures must include the processes for evaluating costs and determining prices, fees, charges, etc.;

3) The development of budgets and operating plans;

4) Transfers of excess funds from unrestricted auxiliary accounts to other auxiliary or general University accounts within the University to accomplish general management goals and meeting needs and priorities; and

5) Periodic reporting of financial activities to the Vice President for Business Affairs, the President, and the Board of Regents.

Creation of Auxiliary Enterprises and Service Units shall be approved by the President or his or her designee. Deletion—Termination of any Auxiliary Enterprises and Service Units may be approved by the President or his or her designee. In those circumstances where creation or closure will result in significant financial or other institutional impact, the Board of Regents' notification is also required.

The primary responsibility for managing each unit shall be with the operating manager of each Auxiliary Enterprise and Service Unit, and their respective Dean or Director, and their respective Executive Officer.

4.7.1—UNIVERSITY POLICE OFFICERS

In 1963, the Oklahoma Legislature passed a law that allows universities and colleges to commission their campus police officers. Under this law, the campus police officers have all the power vested by law in peace officers, except the service of civil process, in protecting and guarding of the grounds, buildings, persons, and equipment of the University, and as well as the power to prevent improper conduct and trespassing upon the grounds of the institution. The law also allows the commissioned campus police officers to make arrests and take
into custody persons guilty of illegal conduct or trespassing.

All campus police officers of the University shall be commissioned by the Board of Regents.

The statute provides that the Board of Regents shall prescribe the duties, designate the uniform, fix the compensation, and provide a written commission for the campus police officers.

The following duties shall be given to the commissioned campus police officers:

- To enforce all University rules and regulations referred to for enforcement.
- To enforce all state and federal criminal laws upon the property of the University.
- To protect and safeguard all students, employees, and visitors of the University.
- To protect and guard all of the grounds, buildings, and equipment of the University.
- To strive to prevent any improper conduct at the University.
- To prevent trespassing upon any property belonging to the University.
- When called upon, to aid any other law enforcement agency.
- To enforce traffic regulations.
- To make investigations and inquiries believed to be necessary to carry out all of their other prescribed duties.
- To make arrests and take into custody any person when such action is necessary to carry out the duties of the office.

The President or his or her designee shall approve the uniforms for campus police officers and other enforcement personnel to wear while on duty, or shall prescribe dress appropriate to the individual’s assignment. Police uniforms shall clearly identify the wearer as a campus law enforcement officer, shall be distinguished from uniforms worn by other law enforcement agencies operating in the same geographic area, and shall represent the University in a positive and professional manner.

4.8 — PARKING AND TRAFFIC REGULATIONS

The Board of Regents has determined that it is in the best interests of the University that rules and regulations be promulgated and adopted governing the keeping and use of automobiles by University
employees and students, providing parking areas for the employees and students of the University, and providing a method of effecting and enforcing such rules and regulations into effect and the enforcement thereof. The applicable portion of these regulations shall apply to every employee of the University, and the portions applicable to students shall be deemed a part of the established regulations of the University that govern every student.

The President may revise, alter, or amend these regulations when conditions warrant. Such amendments, revisions, or alterations shall, unless otherwise ruled by the Board of Regents, be effective and of the same dignity as if enacted or ordered by said Board of Regents.

Specific provisions of the University’s parking and traffic regulations are prescribed in the University’s parking and traffic regulations handbook.

(RM, 6-22/23-2004, pp. 29140, 29237)

4.9 — AUTHORITY TO SIGN CONTRACTUAL DOCUMENTS

The authority for any individual to sign contracts on behalf of the University originates with the Board of Regents. The Board of Regents grants to the President the power to delegate such signature authority to appropriate University executives, officers, and directors. Unless the President specifically delegates this authority to an individual by formal written communication, that individual may not sign any document whatsoever that binds, or has the appearance of binding, the Board of Regents and/or any element thereof.

Such documents include, but are not limited to, purchase orders, grants, contracts, sub-contracts, licenses, leases, funding applications, extensions and renewals, letters and/or memoranda of understanding, sales orders, and work orders, and the like. The common feature of such documents is the obligation it imposes on the University, the breach of which may impose legal liability on the University. Such documents may involve products and services that the University provides to other parties for compensation (revenue) and products and services that the University acquires from other parties in exchange for payment. They may also involve mere agreements by which duties and responsibilities of the parties involved are formally delineated, even though monetary or other valuable consideration may not be involved.

The delegated authority to sign contractual documents does not carry with it any exemption from other policies and procedures that otherwise govern. The President shall designate the positions and names of the individuals who should be authorized to sign contractual documents. Each recommendation-delegation shall include the nature of the authority delegated, the areas of activity to which it is limited, and the upper limit of the authority in terms of dollars.

- The original letter of authorization shall be forwarded to the individual to whom the authority is delegated; and
• One copy shall be retained in each of the offices of the Executive Secretary of the Board of Regents, the chief business officer, and Legal Counsel.

All such authorizations, regardless of commencement date, shall expire upon termination from the position or revocation of authorization.

Except as otherwise may be authorized in writing by the University’s Office of Legal Counsel, all contractual documents shall be processed through the University’s Office of Legal Counsel to ensure that certain legal limitations rights are not waived, ignored, or otherwise abridged. The President may revoke the signature authority of any individual at any time and shall timely notify the appropriate University officers of such revocation.

(RM, 6-22/23-2004, pp. 29140, 29237)

4.10 — BUYING AND SELLING GOODS AND SERVICES

4.10.1—POLICY

The University’s legal capacity to acquire goods and services from others in exchange for payment, and to provide goods and services to others in exchange for revenue, originates with the Board of Regents. University funds are budgeted on an annual basis, and these budgets are approved by the Board of Regents. The Board of Regents recognizes that substantial authority must be delegated.

4.10.2 — BUYING GOODS AND SERVICES

The University purchases a substantial volume of goods and services. Except in certain situations, University employees shall acquire these goods and services through an open and competitive process aimed at fairness to interested suppliers and the best value for the University. Competition allows for the use of new technology in communications, telephone quotes, and prior competitive history. Existing contracts established by cooperative associations, educational purchasing consortium contracts, existing contracts awarded by a state college or university, and contracts with state and federal entities, which meet the criteria for the formal competitive process, may be considered competitively bid. University departments may request and receive assistance from the Purchasing Department for purchases, regardless of dollar amount.

4.10.3 — PURCHASES THAT REQUIRE FORMAL COMPETITION OR BIDS
Generally, the dollar amount of a purchase determines whether it must be competitively bid.

The dollar limits are on a per-transaction basis and are not cumulative. Unless otherwise exempt, purchases exceeding $50,000 must be formally bid. Splitting orders to avoid this dollar limit is prohibited.

Unless otherwise exempted, purchases above $5,000 and not exceeding $50,000 must be competitively bid. Splitting orders to avoid this dollar limitation is prohibited. The competition may be conducted by the ordering department and the results submitted to the Purchasing Department, which may rely on such results, or the Purchasing Department may conduct further competition.

4.10.4 — PURCHASES THAT DO NOT REQUIRE FORMAL COMPETITION OR BIDS

Because of their unique or peculiar nature, the following types of purchases do not require formal competition or bids. The dollar limits are on a per-transaction basis and are not cumulative.

- Purchases up to $50,000 by University departments from University auxiliary enterprises, service units, or other University units engaged in the resale of products or services in accordance with their mission.

- Purchases of products, services, or utilities for resale, including minor operating supplies consumed in the resale process, by University auxiliary enterprises, service units, or other University units engaged in the resale of products or services in accordance with their mission.

- Purchases up to $50,000 of legal, medical, accounting, consulting, architectural, engineering, interior design, appraisal, landscape design, real estate agency, or similar professional services, only when such services are ordered by the President or his or her designee pursuant to University-wide matters of importance, and only when such services represent discrete short-term engagements with specific terminal objectives. Purchases of legal services shall be coordinated through the Office of Legal Counsel.

- Purchases up to $50,000 against University-wide contracts with suppliers that have been arrived at competitively and for which exclusive usage by University departments has been mandated by the Board of Regents or the President.

- Purchases of professional dues, memberships, and similar products or services that are otherwise authorized, but which cannot reasonably be competitively bid.

- Purchases of property designated as surplus by federal agencies, state agencies, county governments, municipalities, school districts, other institutions of higher education, and similar bodies; provided, however, that evidence of reasonableness of price must be
• Payments to federal agencies, state agencies, county governments, municipalities, school districts, other institutions of higher education, and similar bodies for products and services in situations that cannot reasonably be subjected to the competitive process.

Because they are covered by separate University policies and procedures, the following types of purchases do not typically require processing by the Purchasing Department. The dollar limitations are on a per-transaction basis and are not cumulative. However, the requirement for competition may still apply, and the requirement for processing by another University department may apply.

• Individual travel costs (air fare, hotel, ground transportation, conference registrations, etc.) incurred by employees attending conferences, seminars, and the like pursuant to official University business (governed by policies on travel reimbursement).

• Architectural, engineering, construction, and construction management services related to major real property construction and renovation of University capital assets.

• Such other purchases as may be identified by the chief fiscal officer and approved by the President

4.10.5 —PURCHASES THAT DO NOT REQUIRE COMPETITION OR BIDS

Unless they are otherwise governed, restricted, or addressed by University policy, purchases of $5,000 or less do not require competition or bidding by the Purchasing Department, although competition is recommended. Splitting orders to take advantage of this dollar limit is prohibited. The ordering department shall ensure that such purchases meet all other requirements including, but not limited to, legality, availability of funding, and whether the purchase is allowable, as in the case of a sponsored grant or contract.

4.10.6 —PURCHASES THAT REQUIRE THE ASSISTANCE AND REVIEW OF THE PURCHASING DEPARTMENT

To ensure effective and efficient mission accomplishment, the Purchasing Department, in meeting the requirement for a professional buyer to place an order, may establish for University departments orders that specify time frames, dollar limits, and product/service categories. Such orders may be established in response only to mission-critical needs that cannot be met timely or that cannot possibly otherwise benefit from the direct involvement of the Purchasing Department. Such orders permit University departments to place orders with vendors, up to the specified dollar limits. Departmental requests for such orders shall be communicated in writing and approved by an administrative officer of the department/school/administrative office before being forwarded to the Purchasing Department. The Purchasing Department shall maintain a list of such orders and provide
such list to the appropriate Vice Presidents for business affairs no less frequently than quarterly. The Purchasing Department shall continually review such orders for need to determine their necessity and shall audit their usage for compliance with the principles of competition, fairness, and best value. The Purchasing Department may recommend to the appropriate Vice Presidents for business affairs termination of any such order when the need for it no longer exists, if there is evidence of noncompliance, or for similar reasons.

4.10.7 —PURCHASES FROM AUXILIARY ENTERPRISES AND SERVICE UNITS

University auxiliary enterprises and service units offer various products and services for sale, primarily to University departments, faculty, staff, and students. Examples are food services, printing services, and maintenance and repair of working spaces. Any excess of revenues over expenses generated by these entities is used to ensure future operations, renew and replace plant buildings and equipment, and contribute back to the University’s education and research missions through Presidential priorities. When a University department purchases such products or services, the University department must allow the related auxiliary enterprise or service unit first opportunity at the transaction. Such purchases may be awarded to outside vendors only upon sufficient justification or upon refusal by the auxiliary enterprise or service unit.

4.10.8 —SUBMITTING PURCHASES TO THE BOARD OF REGENTS FOR APPROVAL AND REPORTING OTHER PURCHASES

Separate and apart from the policies and procedures governing competition and processing by the Purchasing Department, the following conditions govern those purchases that must be submitted to the Board of Regents for prior approval, those purchases that must be reported to the Board of Regents at least quarterly, and those purchases that are exempt from either the approval or reporting requirements. The dollar limitations are on a per-transaction basis and are not cumulative.

- Purchases over $125,000 must be submitted to the Board of Regents for prior approval; sole source purchases in this category must be identified as such; changes that would increase the financial obligation of the University by more than 15% must be submitted to the Board for prior approval.

- Purchases above $50,000 but not exceeding $125,000 must be reported to the Board of Regents at least quarterly; sole source purchases in this category must be reported separately and identified as such.

- Purchases of air charter services must be reported to the Board of Regents at the earliest opportunity at the following meeting of the Board of next earliest opportunity.

- Purchases by University departments from University auxiliary enterprises or service units are exempt from the approval and reporting requirements.
Purchases of products, services, and utilities for resale, including minor operating supplies consumed in the resale process, by University auxiliary enterprises, service units, or other University units engaged in the resale of products or services in accordance with their mission, are exempt from the approval and reporting requirements.

• Acquisition contracts, such as for office supplies University-wide or for materials for physical plant maintenance, arrived at through the competitive process, but which are indefinite as to quantity and delivery, are exempt from the approval and reporting requirements.

• Purchases of property designated as surplus by federal agencies, state agencies, county governments, municipalities, school districts, other institutions of higher education, and similar bodies are exempt from the approval and reporting requirements.

• Payments to federal agencies, state agencies, county governments, municipalities, school districts, other institutions of higher education, and similar bodies for products and services in situations that cannot reasonably be subjected to the competitive process are exempt from the approval and reporting requirements.

4.10.9 —SOLE SOURCE PURCHASES

The following policy regarding sole source purchases explains why a particular action may not be subject to competition. However, it does not affect the criteria governing when a purchase must be processed through the Purchasing Department. Other than the requirement for competition, sole source purchases are subject to the same policies and procedures set forth above.

A sole source purchase is any which, by the specifications needed by the requestor or by the specific restrictions imposed by a funds provider, restricts the action to one supplier or to one brand name. The sole source determination and justification shall not be based upon personal or professional preference of the requestor. Justification shall be objective rather than subjective.

A major component of a sole source purchase is the determination of fairness of price. Even though a material, service or supplier may truly fit the conditions of sole source, the requestor shall demonstrate that the related price is fair and reasonable.

A sole source purchase is preferable to a formal competitive process in which specifications are written so narrowly that the outcome has no chance but to be the same as if a sole source was executed.

Any University employee involved in a potential sole source purchase shall weigh two risks. The first risk is conducting a sole source purchase when in fact a competitive situation exists. The second risk is conducting a competitive purchase when in fact a sole source situation exists. The first is the greater risk, but both shall be addressed.

Where a sole source purchase satisfies the criteria that it must be approved by or reported to the...
Board of Regents, the requestor shall defend the action, if necessary, before the Board of Regents. For every sole source purchase that has been executed, the requestor shall, if necessary, justify the action in cases of audit, protest, public inquiry, litigation, or similar circumstance.

Any requestor or buyer who knowingly executes a sole source purchase when, in fact, it is not one, may be subject to administrative action as otherwise provided for by Board of Regents policy.

The Purchasing Department is responsible for developing and maintaining the specific guidelines and forms necessary for requestors to document and justify proposed sole source purchases. The appropriate Vice Presidents for business affairs have the authority to challenge and deny requested actions that lack sufficient justification. The completed and executed forms shall be an integral part of the procurement file, which shall be available for inspection and audit by appropriate authorities.

4.10.10 —INVENTORY CONTROL AND CAPITALIZATION OF CERTAIN PURCHASES, GIFTS, OR OTHER ACQUISITIONS

In addition to the policies and procedures governing the acquisition of products and services, the following requirements apply to certain purchases, gifts, or other acquisitions.

Capital assets coming under the control of a University department, whether through purchase, gift, or otherwise, shall be recorded in the University’s inventory system. Additionally, capital assets that are movable shall be tagged. If a movable capital asset is transferred from one location to another, the transferring department shall report such movement to the appropriate inventory control office, and the new location shall be recorded in the system.

For purposes of this policy, a capital asset is one that meets the federal useful life and cost criteria specified in the Office of Management and Budget Circular A-21, as may be amended or superseded.

The President or President’s designee may impose inventory controls above and beyond those required in OMB Circular A-21, as may be amended or superseded.

4.10.11 ACQUISITION OF SURPLUS PROPERTY

The following University officers are authorized to sign instruments and enter into negotiations as necessary in the acquisition of surplus property from federal agencies, state agencies, county governments, municipalities, school districts, other institutions of higher education, and similar bodies:

- President
- Chief Fiscal Officer

4.10.12 —DEMONSTRABLE EMERGENCY/SIGNIFICANT EMERGENCIES
The President shall have authority to direct University Administration to enter into such transactions as may be necessary for the University to timely respond to significant emergencies. For purposes of this policy, a significant emergency is an event of substantially harmful or catastrophic impact, whether resulting from natural or human causes. Examples of such events are addressed in the National Incident Management System (NIMS) literature and guidance. However, the President shall have the authority contemporaneously to declare any event as “significant” based upon his/her judgment and assessment of the developing situation. In such instances, the President shall keep the Chair of the Board of Regents timely informed of the attendant facts and circumstances. All material transactions shall be reported back to the Board at the earliest opportunity. The President shall have authority to approve a financial decision up to $325,000 in the case of a demonstrable emergency.

4.10.13 — PROVISION SELLING OF GOODS AND SERVICES

In accordance with its mission, the University may contract to provide services for compensation. Before signing, to protect and preserve the University’s interests and ensure compliance with all applicable laws and regulations, related contractual documents must be processed through the University’s Legal Counsel Office and any other appropriate office. The University officer responsible for signing such contractual documents shall ensure that all appropriate and required reviews and approvals of the arrangement and the contractual document have been completed. Only an individual to whom the President has delegated the appropriate authority (to sign contractual documents in the nature of the document in question) may sign the contractual document. Each such contractual document involving annual revenues of $125,000 or more shall be reported to the Board of Regents. Additionally, if the agreement would establish or make policy for the University, or would otherwise involve a substantial service to be performed by the University, it must be submitted to the Board of Regents for approval.

Separately, the selling or disposing of excess or obsolete University property shall be carried out in all respects in compliance with governing laws and regulations. Examples of such property are, without limitation, desks, chairs, equipment, furniture, and vehicles. Only appropriate departmental authority (such as vice president, dean, or department head) may declare property as excess or obsolete. The appropriate Vice Presidents of Administration & Finance of each campus shall establish the detailed procedures necessary to ensure that University property is sold or disposed of properly. The detailed procedures shall specifically address and require the complete and irreversible destruction of data on any device (e.g., computers, copiers, printers, PDAs, pads, etc.) that may contain such data.

4.11 — USE OF STUDENT ACTIVITIES FEES
Student Activity Fees and other funds generated by student activities may be utilized for any lawful purpose to enhance the quality of University life for the students, including, but not limited to, student scholarships or other student awards, operating costs for student activities, travel, entertainment, athletics, guest speakers, and student organizations.

The following guidelines, in addition to those adopted by the University with Board of Regents Approval, shall pertain to those funds budgeted by the SGA:

1) No student activity fee funds money shall be used to pay the legal fees of any student or students in a criminal or civil court action. No Student Activity Fee funds money may be used in any court action against the University.

2) The highest priority in disbursing the program portion of the student activity fee funds should be those student activities (educational, social, and recreational) which have substantial campus-wide effects. The funding of student organizations shall be discontinued except in those instances in which projects sponsored by a certain organization are deemed to have great significance for a substantial segment of the student community.

4.11.1—STUDENT GROUP TRAVEL

The University utilizes revenues generated by student activities in funding student-related trips. The University is authorized to advance these funds to a faculty sponsor or sponsoring coach. The funds must be used only for the students’ travel, transportation, and/or other trip-related expenses in the exact amount of the actual and reasonable expenditures that were incurred. Separately itemized receipts and/or supporting documentation must be submitted by the sponsor for each of the trip’s expenditures. The unused portion of the funds advanced for a trip must be returned to the University upon the trip’s completion. A report of expenses incurred during the trip must be prepared by the sponsor within a reasonable time after the completion of the trip. The University’s business office should develop the necessary forms and accountability and control procedures for processing the requests for advanced trip funds, as well as the reports of trip expenses, which are prepared upon completion of the trips.

(RM, 6-22/23 2004, pp. 29140, 29237)

4.12 — CRITERIA FOR TRANSFERRING EQUIPMENT AND/OR FUNDS

The criteria for determination of transferability of equipment and/or funds to another institution at the request of faculty members terminating their faculty appointment here at the University and transferring activities to another institution are as follows:

1) At no time will title to assets vested in the University be transferred directly to the terminating departing faculty member.

2) Transfer of equipment may be considered when:
• It is or was the specific intent of the donor or granting agency that the equipment is or
was to support the work of the terminating departing faculty member rather than a program
of the University, and that the equipment ownership should be transferred to the institution
to which the departing faculty member is moving.
• The equipment was purchased from funds supporting an ongoing program which the donor
or granting agency will continue at the new employing institution.
• The equipment was purchased from funds supporting an ongoing program which the donor
or granting agency will continue at the new employing institution.

3) Funds may be considered for transfer to the departing faculty member’s new institution only
when it was the specific intent of the donor or granting agency that the funds were/are for the purpose
of supporting the activity of the departing faculty member (rather than a program of the University).

4) Transfers of equipment and/or funds must be pre-authorized by the appropriate
contracting official and approved by the appropriate dean or department head/chair and the
appropriate Vice Presidents for business affairs.

5) Funds shall not be transferred to another institution when residual funds remain following
completion of the program or project for which the funds were provided.

(RM, 6-22/23-2004, pp. 29140, 29237)

4.13 — ACQUISITION AND DISPOSITION OF REAL PROPERTY

The Board of Regents will approve the acquisition or disposition of all real property as required
to satisfy the mission of the University. The University administration will use the following
guidelines in determining acquisition or disposition actions to be proposed to the Board of Regents.

4.13.1 — ACQUISITION OF PROPERTY

1) Acquire property when it is needed for the future expansion of the University.

2) Acquire property needed to protect or secure the perimeter of the campus or other University
facilities or land holdings.

3) Select property for acquisition that is located in primary expansion zones where the area
is contiguous to the campus or in outlying areas when needed for specific purposes.

4) Purchase property in primary areas as it becomes available from willing sellers or in
special cases when it is needed immediately to develop a new facility.

5) Have independent appraisals made before purchasing land and buildings.
6) Accept gifts of real estate away from campus when they are needed for University programs or if the property will be of financial benefit.

If acquired property is not required for immediate development, it will be maintained at a standard level of repair and appearance.

4.13.2 — DISPOSITION OF PROPERTY

The Board of Regents may dispose of property:

1) that is not required for University expansion or to protect other University lands and facilities;

2) that is not economical to operate and maintain and does not provide other benefits;

3) that is not in a primary expansion zone contiguous to the campus or other University land holdings and is not required for future development;

4) that is received from donors but not needed for University purposes; disposition will comply with all lawful terms and conditions of the gift; or

5) that can be converted to more liquid assets for other immediate needs or long—term requirements.

(RM, 6-22/23-2004, pp. 29140, 29237)

4.14 — SELECTION OF DESIGN CONSULTANTS AND CONSTRUCTION MANAGERS

An objective of the University is to develop the best possible campus environment, within the limits of available resources and to enhance teaching; research and creative/scholarly activity; and professional and University service and public outreach/ community engagement. To this end, the Board of Regents hereby establishes this procedure to be followed in the selection of professional consultants, which shall supersede all previous policies in this area. The policy covers three areas of concern:

1) Soliciting names and screening qualifications of interested design consultant or construction management firms or individuals.

2) Interviewing, screening, and selecting firms or individuals identified during the solicitation process.
3) Selecting design consultants and construction managers in an emergency.

4.14.1—SELECTION PROCESS

When the President decides that the University requires the services of a licensed architectural, registered engineering, registered land surveying firm, or construction manager, the provisions of this policy will be followed. The basic sequence of actions will be as follows:

1) The President shall request approval from the Board of Regents to initiate a selection process.

2) The President or his or her designee will forward a letter to the State Department of Central Services requesting the names of all firms who have established a consultant file with the State of Oklahoma. The letter will contain information which shall define the scope of the proposed project and identify or describe the various project components, phases, and timetables and sources of funds.

3) Upon receipt of the list of appropriate firms, the University will send letters of notification to all firms on the list. The letters will solicit a timely expression of interest in performing consultant services for the project and shall contain the following information: (a) description and scope of the project; (b) estimated construction cost; (c) time schedule for the project; (d) funds available, including, federal, state, or other sources; (e) specification of the last date for submitting a notice of interest in performing the proposed services to the University; and (f) other pertinent data.

4) The University will advise the State Department of Central Services of the firms which responded within 20 days (or longer if allowed by the University) of the postmark date of the letter of notification, and request the State Department of Central Services to forward copies of the information that each consultant has on file there.

5) An interview committee will be established by the President to interview the responding firms. This committee will normally consist of the following persons:

   a) Representative of the Vice President for Academic Affairs (if the project is for an academic use);

   b) Representative of Physical Plant;

   c) Other appointees as directed by the President.

Normally, the chair of the committee will be designated by the President, who may also augment the committee to permit comprehensive representation.

2) The interview committee shall review the consultant files forwarded by the State Department of Central Services.
Department of Central Services and select at minimum of least three, and but a maximum of no more than five, firms for more detailed consideration and an interview. Where possible, the maximum should be selected. In making these selections, the committee shall consider, among other things: (a) factors of the Consultant Interview Evaluation form; (b) specialized experience in type of work proposed; (c) capacity of the consultant to perform the services on time; (d) past performance by the consultant; and (e) the consultant’s principal place of business.

3) The interview committee will conduct interviews of the firms selected for more detailed consideration and develop a numerical rating of the qualifications of each firm. If out-of-state firms are under consideration, all in-state firms will be given a five percent preference by multiplying their final numerical rating by a factor of 1.05. For the purpose of determining whether a firm or a team consisting of both in-state and out-of-state firms can be qualified as an in-state firm, the following criteria are to be used: (a) the firm with which the contract will be executed must have a principal place of business and a substantial continuing presence in Oklahoma, and (b) a majority of the work effort on the project must be accomplished by the in—state firm(s). A report of the results will be forwarded to the President for action by the Board of Regents to rank and select consultants.

4) Normally, the President or his or her designee will negotiate a contract with the first choice consultant. However, if the University cannot reach agreement with the first choice consultant, negotiations shall be terminated, and the University shall negotiate in a similar pattern with the remaining consultants in descending rank order until an agreement is reached. The President or his or her authorized designee may execute the consultant contract.

4.14.23—EMERGENCIES

Where a sudden unexpected happening or unforeseen occurrence arises whereby it is impossible for the University to observe this policy because of the time factor and public health or safety is endangered, or where a condition or situation arises which, if allowed to continue, would lead to economic loss to the State or further damage to State property, the President may declare an emergency, giving reasons therefore, and, upon notifying the Board of Regents, enter into a consultant contract up to $5025,000.00.

(RM, 6-22/23-2004, pp. 29140, 29237)

4.15 — PROJECT-RELATED UTILITY EASEMENTS

The President or his or her designee is authorized to approve required utility easements for construction projects in those instances when the Board of Regents has authorized the entire project.
It is the understanding of the Board of Regents that in order to facilitate the approval of these routine project-related utility easements, the following procedure will be followed:

- Each easement will be reviewed by the Office of Legal Counsel and other appropriate members of the University staff.

- The President or his or her authorized designee may approve the easement on behalf of the Board of Regents.

4.16 — FINANCIAL EMERGENCY POLICY

While it is assumed that the administration of the University has a continuing responsibility for maintaining a sound budget and that through responsible financial management and appropriate retrenchment policies all approaches for averting a financial crisis will be utilized, it is possible that a financial emergency may become inevitable. The following statement outlines the administrative policies and the procedures for such an eventuality.

The President will decide and declare when the University is in a state of financial emergency. Based upon input received, the President will submit a plan of action to the Board of Regents for approval. (RM, 6-22/23-2004, pp. 29140, 29237)

4.17 — INITIATIVES TO IMPROVE EFFECTIVE USE OF FUNDS POLICY

When a proposal for a contract, policy, or action that might apply to multiple campuses is brought to the Board of Regents, the item proposal will include a report of an analysis of the applicability to all campuses. When the analysis report indicates benefits for including two or more campuses, the Board of Regents’ action item will include a plan for extending the action to multiple campuses in a thoughtful and timely manner.

SECTION 7 — UNIVERSITY DEVELOPMENT

The Board of Regents is vested with the governance of the University. Within its authority is the governance of fundraising and development, including without limitation, gifts, naming opportunities, endowments, and fundraising. Specific provisions pertaining to fundraising, development, and related matters may be set forth in the faculty and staff handbooks, student handbooks, and/or other official policy documents of the University. Any modification to a Board of Regents’ policy in the policy documents referred to above or elsewhere must be made through action of the Board of Regents.

7.1 — GIFTS RECOGNITION PROGRAM

Annual gifts by alumni and friends of the University provide important enrichment funds to all programs of the University and assist in strengthening ties and communication between donors and the University. To acknowledge and show appreciation for this important source of continuing support, the University will recognize donors through events, activities, and publications. Provided, however, that all requests for anonymity will be honored.

7.1.1 — GIFT RESTRICTIONS

Gifts may be unrestricted or restricted to the University, school, department, or program of the donor’s choice.
7.1.2 —ANNUAL FUND YEAR

Credit toward gift recognition levels is awarded for gifts made during the annual fund year. The annual fund year begins July 1 and ends June 30.

7.1.3 —DONOR GIFT CREDIT

If requested, donor and spouse may be jointly listed with one gift. If a joint or preferred listing has not been indicated on the gift remittance form, only the individual receipted for the gift (check signer) will receive gift credit. If special public recognition is planned through a publication, signage, or event, University Development will contact the donor to determine the donor’s intention for gift recognition.

Individual gifts paid with company or business checks will be credited to the individual(s) who received the original solicitation or the individual assigned to receive donor credit on the gift remittance form if requested.

7.1.4 —GIFT CREDIT

Donors will receive credit for cumulative gifts made during the annual fund year. Individuals also will receive credit for the total value of gifts matched through corporate matching gift programs. Spouses making separate gifts will receive separate recognition unless they request to be jointly listed.

Pledges are not credited toward a specific gift recognition level until the paid portion or entire paid balance exceeds the minimum gift level requirement. If the annual fund year concludes before a pledge is fulfilled, credit will be given for the amount of the paid portion.

(RM, 6-22/23 2004, pp. 29140, 29237)

7.2 — GIFTS TO THE UNIVERSITY

The University actively encourages and appreciates gifts to the University that benefit students and the mission of the University. The purpose and conditions for gifts are expected to conform to the Board of Regents’ policy, Oklahoma State Regents for Higher Education policy, and all applicable laws.

The President of the University will announce major gifts (over $100,000) at meetings of the Board of Regents. Special action by the Board of Regents is required when gifts involve the naming of buildings and major facilities and the naming of University schools and major programs.

The Cameron University Foundation, Inc., and Rogers State University Foundation, Inc., (the “Foundations”) are independent organizations with their own governing boards and their own policies.
on accepting gifts. In certain situations that require action by the University—for example, establishing and filling a chair—the Foundations asks the University to join with it in accepting a gift, and the acceptance of such gifts is covered by this policy.

Normally, the Board of Regents will accept gifts to the University unless there are clear and compelling reasons to decline, such as: (a) the funds were obtained from questionable sources; or (b) the purpose for, or conditions on, the gift are illegal or not in accord with the mission and goals of the University or the policies of the Board of Regents. The Board of Regents reserves the right to decline gifts if, in its sole judgment, not accepting the gift is in the best interests of the University.

(RM, 6-22/23-2004, pp. 29140, 29237)

7.3 — NAMES OF BUILDINGS AND OTHER GIFTS SELECTED BY DONORS

The following policies and guidelines for endowed funds facilitate the processing of major gifts, which are to be used primarily for endowment purposes.

1) Donors, the University, and, if applicable, the Foundations, must agree on terms before a gift is accepted, either as an endowment or an expendable account.

2) The Development Office should be notified immediately when a prospective donor inquires into establishing an endowment. The Development Office or the designated development officer will work with the academic dean, the department chair or head, and a representative of the respective Foundation, if applicable, in establishing the endowed fund and developing the terms of the agreement.

3) Each endowment will have specific guidelines that detail the purpose(s) of the endowment and provide a method for obtaining approval of changes in the endowment guidelines and procedures.

4) The University or the respective Foundation may seek changes through probate to any bequeathed endowment that has guidelines that are in violation of University policy and/or law.

5) Investment of endowment funds will be administered by the appropriate governing board. Investment of endowment funds in the Cameron University Foundation, Inc., and the Rogers State University Foundation, Inc., Foundations will be administered by the Trustees of the respective Foundation in compliance with the Foundation’s investment policy.

A donor may express his or her preference for investment of assets, but final determination will be made by the appropriate governing board.
6) The principal may be deposited as the initial gift or accumulated over a period of time, as determined at the time the gift is accepted.

7) Unless otherwise stipulated by the terms of the gift, earnings on the endowment fund shall be made available for expenditure in accordance with the spending policies of the appropriate board. Endowments in the Cameron University Foundation, Inc., and the Rogers State University Foundation, Inc., Foundations will be administered according to the guidelines adopted by the Trustees of the Foundations. It is the intent of the spending policies to maintain the purchasing power of endowment income and to protect the real value of the endowment for future generations.

7.3.1—ACADEMIC PROGRAMS

To name a school or department will require a significant endowment that will generate resources to strengthen and build excellence in academic and research programs. All naming requests require approval by the President and the Board of Regents.

7.3.2—BUILDINGS

Buildings included in the University’s list of priority needs may be named in recognition of a major gift for construction. Generally a building may be named for one-half of the private funds required for the project or for one-half of the estimated cost of construction, unless otherwise stipulated as part of a University-approved fund-raising campaign with naming guidelines. New buildings to be constructed with a combination of private, state, and federal monies may suggest different naming requirements that will be established with approval by the President and Board of Regents. Other new buildings may be named by a donor for the cost of construction.

Existing unnamed buildings on campus (i.e., buildings not named for an individual) may be named for a significant endowment that will generate sufficient resources to strengthen and enrich programs housed in the facility, or that will provide for continued maintenance and operations of the building.

Laboratories, auditoriums, classrooms, and other special rooms or facilities within existing or future buildings may be named for one-half of the estimated value of the facility or the full cost of renovation.

7.3.3—NAMED GARDEN OR LANDMARKS

Existing gardens or landscaped areas of campus may be named with the establishment of an endowment to support annual plantings and upkeep.

Creation of new gardens or campus landmarks may be named for the donor for the cost of construction and an arrangement for annual upkeep.
The establishment of endowed faculty positions is encouraged for the opportunities they provide to enrich and strengthen the teaching and research programs of the University in perpetuity.

An endowed chair or professorship enables the University to strengthen its academic programs by recruiting, recognizing, and retaining nationally renowned educators, scholars, and researchers, and to provide the University with enrichment funds that support and strengthen academic activities. It is proposed, therefore, that each endowed faculty position will be supported in part by a state-funded faculty line.

Earnings from the endowed positions also may be used to support travel, equipment, supplies and staffing needs of the position. When the position is not filled, all or a part of the annual earnings will be returned to the principal. Earnings not returned to the principal may be encumbered to provide monies for recruiting, start-up funding, equipment, or supplies for the appointee.

Endowed faculty positions will be effective when the full donor-funding component is received.

**Named Endowed Chair** — Requires a minimum endowment of $500,000, which can be provided entirely from private sources or through $250,000 in private funding, matched by $250,000 from the Oklahoma State Regents’ Endowment Program.

**Named Endowed Professorship** — Requires a minimum endowment of $250,000, which can be provided entirely from private sources or through $125,000 in private funding matched by $125,000 from the Oklahoma State Regents’ Endowment Program.

**Named Endowed Lectureship** — Recommended endowment of $50,000, which can be provided entirely from private sources or through $25,000 in private funding matched by $25,000 from the Oklahoma State Regents Endowment Program.

**7.3.5 ENDOWED UNDERGRADUATE SCHOLARSHIPS**

**Named Endowed Scholarship Funds** — May be established with a recommended endowment of $10,000 to $25,000. This generally will support one scholarship on an annual basis. The amount of the scholarship will be limited by the annual earnings.

A constant effort will be made to keep scholarship guidelines flexible to alleviate any possible difficulties that would make it impossible to administer the scholarship in any one year.

Scholarship guidelines cannot exclude students on the basis of race, color, national origin, sex, sexual orientation, gender identity, gender expression, age, religion, disability, political beliefs, or status as a veteran.
In compliance with the Internal Revenue Code, donors will not be permitted to select the recipients of the scholarships which they sponsor.

All criteria for endowed scholarships should be predetermined and outlined prior to approval and acceptance by the University and the University’s Foundation.

Scholarship recipients should communicate annually, during the term of the scholarship, with the donors of the endowed scholarships.

(RM, 6-22/23-2004, pp. 29140, 29237)

7.4 — NAMES OF CAMPUS FACILITIES

The naming of major campus buildings or additions requires the approval of the Board of Regents. The Board of Regents also reserves the right to deny the naming of any campus facility, other than that which designates the type of work done therein, as a way to ensure that no name is given to a campus facility that does not reflect the ideals of the University, as well as the right to rename campus buildings or additions. No facility shall ordinarily be named after individuals who are members of the active faculty or staff of the University.

(RM, 6-22/23-2004, pp. 29140, 29237)

7.5 — PRIVATE FUND-RAISING

Although alternative or parallel databases may be created in other
7.6.2 —REQUESTS FOR INFORMATION

All requests for alumni information from any University division should be directed to the appropriate Vice President for development and/or alumni relations.

(RM, 6-22/23-2004, pp. 29140, 29237)

7.7 — APPROVAL OF ALL FUNDRAISING ACTIVITY

Any fundraising activity, whether on behalf of students, faculty, staff, schools, or programs, must be approved by the appropriate Vice President for development and/or alumni relations. Any communication developed for potential donors, whether individuals, corporations, or foundations, must be approved by the said Vice President for Development. This includes proposals, letters, brochures, and pledge or gift cards. The use of the name of the University in any form in fundraising appeals shall be restricted to, or with the approval of, the University Development.

This policy is designed to protect the University’s friends and alumni from multiple solicitations by schools and programs. If multiple University divisions seek to solicit the same prospective donor, the President may be asked to make the ultimate decision on which entity will move forward with a solicitation.

(RM, 6-22/23-2004, pp. 29140, 29237)

7.8 — ORGANIZATION OF UNIVERSITY DEVELOPMENT

The appropriate Vice President responsible for development and/or alumni relations shall also oversee all aspects of development and alumni affairs. The said Vice President of Development will oversee management of the alumni association and assume responsibility for annual, major, corporate, and foundation giving. In addition, the Vice President of Development also will regulate fundraising efforts within all divisions of the University.

(RM, 6-22/23-2004, pp. 29140, 29237)

7.9 — SCOPE OF DEVELOPMENT ACTIVITY

University Development, at the direction of the appropriate Vice President, will coordinate solicitation efforts. Constituencies will be solicited for support via any means deemed appropriate, including personal contact, telephone, or direct mail. Campaigns directed by University Development might include annual, capital, special needs, college, unrestricted, endowment, federal or state grants, or planned gifts. ISSUE: QUARTERLY FINANCIAL ANALYSIS – CU

ACTION PROPOSED:

This item is presented for information only. No action is required.

BACKGROUND AND/OR RATIONALE:

By request of the Board of Regents, the Cameron University Statements of Net Position as of December 31, 2015, Statements of Revenues, Expenses and Changes in Net Position for the six months then ended, and related Executive Summary are presented. The statements are unaudited and are presented for management use only.
EXECUTIVE SUMMARY

Highlights from the Statements of Net Position as of December 31, 2015 and Statements of Revenue, Expenses and Changes in Net Position for the six months then ended are presented below. The statements are unaudited and are presented for management use only.

STATEMENTS OF NET POSITION

Total assets and deferred outflows of resources of $100.7 million exceeded related liabilities and deferred inflows of resources of $82.5 million by $18.2 million.

Education & General assets and deferred outflows of $23.3 million trailed related liabilities and deferred inflows of $53.6 million by $30.2 million. The Education & General net position is influenced by the University’s proportionate share of the unfunded net pension obligation of the Oklahoma Teachers Retirement System. This amount is approximately $37.1 million.

Sponsored Program assets of $617 thousand exceeded related liabilities of $28 thousand by $589 thousand.

Auxiliary Enterprise assets of $5.8 million exceeded related liabilities of $2.8 million by $3.0 million.

Other Fund assets and deferred outflows of resources of $70.9 million exceeded related liabilities and deferred inflows of resources of $26.0 million by $44.9 million. Other Funds consist of fixed assets, net of accumulated depreciation and related bonds and master lease obligations, and other academic and administrative activities.

STATEMENTS OF REVENUES, EXPENSES AND CHANGES IN NET POSITION

Total revenues of $40.5 million trailed expenses of $41.0 million by $.5 million.

Education & General revenues of $24.4 million exceeded expenses of $22.3 million, resulting in a net increase of $2.1 million.

Sponsored Program revenues of $684 thousand trailed expenses of $702 thousand by $18 thousand.

Auxiliary Enterprise revenues of $4.0 million trailed expenses of $4.3 million by $.3 million.

Other Fund revenues of $11.5 million trailed expenses of $13.8 million, resulting in a net decrease of $2.3 million. This decrease is due primarily to unfunded depreciation of $2.3 million.

One such source is third-party vendors who pay the University in return for providing professional services. The following is a list of contracts with outside vendors for professional services performed by OUHSC Departments:

AGENDA ITEM 2

ISSUE: CANCER CENTER CLINIC AND PATIENT SUPPORT FACILITY – HSC

ACTION PROPOSED:

President Boren recommends the Board of Regents:

I. Rank in the order presented below architectural firms under consideration to provide professional services for construction of a new cancer center clinic and patient support facilities;

II. Authorize the University administration to negotiate the terms of an agreement and a fee, starting with the highest-ranked firm; and

III. Authorize the President or his designee to execute the consultant contract.

BACKGROUND AND/OR RATIONALE:

Initial steps have been undertaken to explore the feasibility of constructing a new freestanding building at the Health Sciences Center campus, for clinical and patient supportive care which will supplement the existing facilities and foster the Peggy and Charles Stephenson Cancer Center mission. At this time, an architectural consultant is needed to assist the University in programming and further definition of the project scope, and to estimate construction costs and assist in the development of a total project budget. When the project’s scope and cost have been sufficiently developed, the Board will be requested to approve the project and its budget and the addition of the project to the Campus Master Plan of Capital Improvement Projects for the Health Sciences Center Campus. After the project is approved by the Board, the selected architectural firm will be requested to provide full professional services for the project. The firm may also be requested to provide services associated with adjacent parking facilities.

A request for qualifications was sent to the architectural firms that are currently registered with the Construction and Properties Department/Division of Capital Assets Management of the State Office of Management and Enterprise Service, and a committee was formed to evaluate the responses received from 13 firms. The committee was composed of the following:

Voting:
Brian Holderread, Director, Architectural and Engineering Services, Chair
Gerald Brinlee, Staff Architect, Architectural and Engineering Services
Allen Heilaman, Director of Construction Projects and Fire Marshal
Chris Shilling, Director, Marketing and Operations for Stephenson Cancer Center

Non-voting:
Robert Mannel, Director, Peggy and Charles Stephenson Cancer Center
Jason Sanders, Senior Vice President and Provost, Health Sciences Center
Based on these proposals and client references, four firms were selected for further evaluation, and the firms were ranked as shown below.

1. Rees Associates, Inc. with Wilmot Sanz, Oklahoma City, OK
2. Bockus Payne Associates Architects, LLC, Oklahoma City, OK
3. Miles Associates Inc. with HOK, Oklahoma City, OK
4. ADG, PC, with Boulder Associates, Inc., Oklahoma City, OK

ISSUE: ENGAGEMENT OF OUTSIDE ON-CALL CONSULTANT – ALL

ACTION PROPOSED:

This report is presented for information only. No action is required.

BACKGROUND AND/OR RATIONALE:

At its March 28, 2012 meeting, the Board of Regents authorized the President or his designee with the review of University Legal Counsel, to negotiate and execute agreement(s) engaging outside real estate consultant(s) to assist the University in (1) the evaluation and valuation of current and potential future properties relevant to the Norman, Health Sciences Center, and Tulsa Schusterman Center campuses and (2) planning for the most efficient use of those properties for the University’s benefit.

University Administration will ensure that associated fees are in line with the prevailing market. While funding will vary depending on the particular project, University Administration will ensure that it is properly identified, sufficient, and available. Associated expenditures will be reported to the Board in accordance with governing policy.

AGENDA ITEM 7

ISSUE: NONSUBSTANTIVE PROGRAM CHANGES – NC

ACTION PROPOSED:

This is reported for information only. No action is required.

BACKGROUND AND/OR RATIONALE:

Administrative/Internal Program Change
Approved by Academic Programs Council, February 5, 2016

Addition of Area of Concentration/Track

COLLEGE OF ATMOSPHERIC AND GEOGRAPHIC SCIENCES

Geography, Bachelor of Arts in Geography, (RPC 328, MC B460)

Addition of areas of concentration in Physical and Social Sciences and Geohumanities. Students will be able to choose the Physical and Social Sciences concentration which replicates the current Geography B.A. degree, or a concentration in Geohumanities which joins some new courses with some current courses.

Reason for request:

The Department wants to offer an optional concentration in a rapidly emerging field as part of the undergraduate B.A. program in Geography, and to do so while retaining the current degree requirements as another optional concentration. This new field, geohumanities, has emerged within the discipline of geography in the last seven years. Its arrival is signaled in part by the development of new funding opportunities by both the National Endowment for the Humanities (NEH) and the National Science Foundation (NSF), and two new influential multi-authored books and a new scholarly journal, Geohumanities, all developed under the auspices of geography’s leading U.S.-based scholarly organization, the Association of American Geographers. The new concentration will give students interested in the humanities aspects of environmental issues an avenue to explore those interests, and also to develop the necessary skills to be well-positioned to succeed in this growing and dynamic workplace arena. There are no changes to the existing Geography requirements in the physical and social sciences concentration. This effort also compliments and enhances the new OU effort to develop a focus on the environmental enterprise.

Deletion of Area of Concentration/Track

PRICE COLLEGE OF BUSINESS

Business Administration, Master of Business Administration (RPC 025, MC M140 Q447)

Deletion of part-time area of concentration.
Reason for request:

The Part-Time area of concentration is no longer used due to the creation of a separate major code for students completing the Professional MBA program a few years ago.

Addition of Minor

COLLEGE OF ARTS & SCIENCES
Intelligence and National Security, Minor (TBD)

Addition of Minor in Intelligence and National Security. Students pursuing baccalaureate degrees have the option of completing a Minor in Intelligence and National Security (18 credit hours) to complement their major program of study. Students formally apply for admission to the minor. The INS minor consists of 3 core mandatory courses (9 credit hours) and 3 elective courses (9 credit hours) selected from the technical and/or substantive knowledge tracks. Students have to maintain a GPA $> 3.2$ for Intelligence and National Security courses to satisfy the requirements for completing the minor.

Reason for request:

Violence in the Middle East, Ebola outbreaks in West Africa, armed fighting in Ukraine, Iran's nuclear program, cyber hacking of computer systems, and drug violence in Mexico are just a few of the many national security threats America faces today that are transforming traditional intelligence collection and analysis practices. A compelling case can be made that the national security challenges facing the United States are more diffuse geographically, more embedded in socioeconomic and cultural conditions, likely to be far less predictable, more dynamic, and more difficult to manage adroitly. Moreover, many have a strong scientific and technical component or require expertise in critical languages. As an Intelligence Community Center of Academic Excellence, the University of Oklahoma's Center for Intelligence and National Security involves collaboration between the Health Sciences Center (OUHSC) and Norman campus (OU-Norman) to build understanding of complex national security problems. Leveraging synergies between OUHSC and OU-Norman provides the academic foundation necessary to develop next-generation skills and competencies critical to the missions of the Intelligence Community and US national security interests. To fulfill this mission, the multi-campus center utilizes senior faculty from OU's Health Sciences Center and Norman campuses to mentor undergraduate, graduate and professional students; provides opportunities for study abroad for cultural enrichment; and supports rigorous research on key national security challenges such as international terrorism; insurgencies and ungoverned spaces; illicit trafficking; border security; countering economic espionage and protecting intellectual property; cyber security; energy security; critical infrastructure protection; and biosecurity.

Change in Area of Concentration/Track Requirements

COLLEGE OF ARTS & SCIENCES
Anthropology, PhD. (RPC 010, MC D025 R044, D025 R306, D025 R618)

Course requirement change in areas of concentration. ANTH 5223 will fulfill the Sociocultural Anthropology core requirement instead of requiring ANTH 5003 OR (ANTH 5223 and ANTH 5123). Total credit hours for the degree will not change.

Reason for request:

Previously the ANTH 5223 and 5123 sequence was used as a two semester introduction to Sociocultural Anthropology appropriate for students specializing in Sociocultural Anthropology and ANTH 5003 was a one semester sequence used for all of the other
Anthropology students. These tracks are being combined. ANTH 5003 is removed and all students will take ANTH 5223 which will be an overview of the history of thought in Sociocultural Anthropology.

COLLEGE OF CONTINUING EDUCATION

Aviation, Bachelor of Science, air Traffic Management Track (RPC 237, MC B090 P045)

Course requirement change in area of concentration. In the Aviation Requirements category, replace AVIA 4015 with AVIA 4013 and AVIA 4023. Reduce Free Electives category from 1-11 hours to 0-10 hours. Total credit hours for the area on concentration will not change.

Reason for request:

AVIA 4013 and AVIA 4023 will replace AVIA 4015, which teaches both En-Route and Terminal Radar in a lab environment; students will receive a richer level of exposure to both concepts. In previous course evaluations of AVIA 4015, students have suggested this curriculum change.

Change in Minor Requirements

COLLEGE OF ARCHITECTURE

Architectural Studies, Minor (N045)

Change in Minor requirements. We have condensed the Methods courses to better align with our design studios so students can apply what they learn in their design projects. In our post-accreditation review, we also determined that our design studios were not given the appropriate credit hour designation relative to the amount of work required for the courses. Increasing the design course credit to six hours better aligns with current peer institutions, and better represents to our students the level of commitment the course may require. In the process, some of the titles of the courses are renamed to better explain the content of the course. Total credit hours for the Minor will not change.

Reason for request:

Changes to Minor reflecting changes in degree program.

COLLEGE OF ARTS & SCIENCES

Nonprofit Organizational Studies, Minor (N738)

Change in Minor requirements. Move COMM 2613 from required course to guided elective; change CAS 2033 and 3033 to NPNG 2033 and 3033; in guided electives replace CAS 4033, CAS 4970, COMM 3243, MKT 3013 and P SC 3253 with H R 4170, P SC 2013, P SC 3263, P SC 4023, P SC 4153, and WGS 3123. Total credit hours for the Minor will not change.

Reason for request:

The Department has agreed to administer the Nonprofit Organizational Studies minor. Along with changing the designator name, the curriculum is being changed to incorporate new classes.
Geography, Minor (N466)

Changes in Minor requirements. Add a required techniques course of GIS 2023. Total credit hours for the Minor will change from 15 hours to 18 hours.

Reason for request:

The ability to understand the basics of spatial analysis is integral to the Geography degree and to the minor. With that in mind, we are requiring that at least one Geospatial analysis class (GIS 2023) be successfully completed by each student. The rest of the minor requirements have not been changed. GIS2023 is also the pre-requisite for GIS 4013 for those students wishing to pursue geospatial analysis further.

Air Traffic Control, Minor (N093)

Change in Minor requirements. Replace AVIA 4015 with AVIA 4013 and AVIA 4023. Total credit hours for the Minor will change from 24 hours to 25 hours.

Reason for request:

AVIA 4013 and AVIA 4023 will replace AVIA 4015, which teaches both En-Route and Terminal Radar in a lab environment; students will receive a richer level of exposure to both concepts. In previous course evaluations of AVIA 4015, students have suggested this curriculum change.

African Studies, Minor (N016)

Change in Minor requirements. Students will be still required to complete a third semester approved language course, but will have more flexibility with the remaining hours since the hours do not have to be specifically approved for Social Science or Arts & Humanities credit. Students will be required to take IAS 2003 Understanding the Global Community and 9 upper-division elective hours from the updated list of approved courses on the minor check sheet (3 hours must be IAS designated). Total credit hours for the Minor will not change.

Reason for request:

Consistent with changes to the IAS majors, IAS has decided to streamline the African Studies minor requirements and made the minor more reliant on IAS-designated courses, since the IAS offerings have expanded greatly since the minors were first introduced.

Addition of Accelerated Dual Degree Program

Economics, Bachelor of Arts/Master of Arts (RPC 047/048, MC B300/M300 Q431)

Addition of Accelerated Dual Degree Program. A total of 140 credit hours are required for the degree. Twelve (12) credit hours of graduate-level electives (4000-level courses approved for
graduate credit may be permitted) as approved by Graduate Director may be counted toward both degrees. The object of the dual degree is to provide students with the opportunity to earned advanced degree in timely fashion.

Reason for request:

Students will benefit from being able to complete advanced degree in a timely fashion. Students seek accelerated degree programs. Competing institutions/departments offer accelerated programs.

NORMAN CAMPUS
AGENDA ITEM 9

ISSUE: PROPOSALS, CONTRACTS AND GRANTS

ACTION PROPOSED:

President Boren recommends that the Board of Regents ratify the awards and/or modifications for December 2015 and January 2016 submitted with this Agenda Item.

BACKGROUND AND/OR RATIONALE:

In accord with Regents' policy, a list of awards and/or modifications in excess of $1,000,000 or that establish or make policy for the University, or that otherwise involve a substantial or significant service to be performed by the University are shown on the following pages. Comparative data for fiscal years 2012 through 2016 and current month and year-to-date, are shown on the graphs and tables. Throughout the reports, the data stated for both campuses include the OU-Tulsa Schusterman Campus as well.

The Provisions of Goods and Services policy provides that new contracts and grants in excess of $1,000,000 must be referred to the Board of Regents for ratification. In addition, in the event a contract, grant, document, or arrangement involved would establish or make policy for the University, or would otherwise involve substantial or significant service to be performed by the University, that contract, arrangement, or document shall be referred to the Board of Regents for approval.

ISSUE: SUBSTANTIVE PROGRAM CHANGES – NC

ACTION PROPOSED:

President Boren recommends the Board of Regents approve the proposed changes in the Norman Campus academic program:

BACKGROUND AND/OR RATIONALE:

The Oklahoma State Regents for Higher Education require that all substantive changes in degree programs be presented to the institution’s governing board for approval before being forwarded to the State Regents for consideration. The changes in academic programs itemized in the attached list have been approved by the appropriate faculty, academic units and deans, the Academic Programs Council, and the Senior Vice President and Provost. They are being submitted to the Board of Regents for approval prior to submission to the State Regents.

Substantive Program Change
Approved by Academic Programs Council, February 5, 2016

Program Addition

COLLEGE OF ARTS & SCIENCES

Nonprofit Management, Graduate Certificate, (RPC TBD, MC TBD)

Addition of embedded certificate in Nonprofit Management, from existing Master of Public Administration: Non-Profit Management M805-Q471. Total credit hours required for the certificate will be 15 hours.

Reason for request:

The majority of respondents to student and employer demand surveys said a graduate certificate in nonprofit management would make someone more competitive for a job in the nonprofit sector, more competitive for a promotion in a nonprofit organization, and would help individuals make more meaningful contributions to the nonprofit sector. The respondents were also confident that having this program in the area would likely benefit their organization and the nonprofit community as a whole. The accelerated format and a focus on skill development will make this opportunity attractive to nonprofit professionals.

COLLEGE OF ATMOSPHERIC AND GEOGRAPHIC SCIENCES

Geography, Master of Science in Geography, (RPC TBD, MC TBD)

Addition of program. Level I formal degree Master of Science, Level II degree designation Master of Science in Geography, Level III title Geography, Level IV Option Geography. Total number of hours is 30 hours for Thesis and 33 hours for Non-Thesis, consisting of 9 credit hours in the core, 15-18 hours of guided electives, and 3-9 hours of general electives. Program contains Physical Geography concentration and Geospatial Technologies concentration. Applicants from a wide range of backgrounds in the sciences will be eligible for admission into the new M.S. Geography degree. This degree will follow the current departmental requirements for graduate
admission of a GPA of 3.0 or better and completion of the GRE. Additionally, students must submit a letter of research interest that outlines the research they would like to conduct while in the program. Applicants also must identify a faculty member or faculty members with whom they would like to work. The academic standards for admission, retention, and graduation for this degree will be the same as those already in use by the Department of Geography and Environmental Sustainability, the Graduate College, the College of Atmospheric and Geographic Sciences, and the University of Oklahoma.

**Reason for request:**

The proposed M.S. program in Geography will build upon the University of Oklahoma's strong institutional commitment to Geography, Environmental Sustainability and environmental studies and will draw upon and enhance the University's well-established research expertise in sustainability, natural science, and geospatial science in order to educate science professionals in geography. The proposed degree will contribute to the University of Oklahoma's educational mission by training qualified graduates with advanced education in physical and environmental geography to meet the demands of the state in the public and private sectors. Graduates obtaining the Master of Science in Geography will be trained to become experts in spatial analysis and leaders in research, decision-making, and policies that guide the governance and management of our environmental resources.

**Program Suspension and Option Deletion**

GALLOGLY COLLEGE OF ENGINEERING

Engineering, Bachelor of Science in Engineering (RPC 065, MC I085, I082, I084, I083, B370).

**Program suspension and Option Deletion.** Suspend program B370, and delete options I085, I082, I084, and I083.

**Reason for request:** Program suspension: There have been no students enrolled in this degree program, or any of the options, in the past 10 years. Therefore, the Gallogly College of Engineering wishes to suspend the degree program, and delete all four options effective immediately. The College recognizes the value in suspension of the Individualized Plan for a period of three years at which time the decision will be made to delete or retain the degree program. Option deletions: We have an Architectural Engineering program, and an Environmental Engineering program. These degrees are no longer granted under General Engineering.

**Option Addition**

COLLEGE OF ARTS & SCIENCES

Human Relations, Mater of Human Relations (RPC 329, MC TBD)

**Addition of option in Clinical Mental Health Counseling.** A total of 60 credit hours is required, consisting of 9 hours of core courses, 18 hours of required counseling courses, 6 hours of internship, and 27 hours of elective counseling courses.

**Reason for request:**

Many of our graduate students pursue additional coursework beyond the MHR in order to obtain the minimum 60 hours that are required by the state of Oklahoma to obtain licensure as a Licensed Professional Counselor (LPC). Our Master of Human Relations degree, along with additional coursework beyond the degree, have produced licensed mental health professionals for decades. Now, however, we want to give our LPC-track students a specific, separate option of a 60-hour program. This will add legitimacy to our degree and our program. It will allow us to track our students in order to give the University better data. It will make our
department and this program more data driven and evidenced-based. This mental health counseling focus will allow us to track, monitor, and better assist our students in the licensing process. In addition, the addition of this concentration will streamline the process for our students, allowing us as a department to better advise our students and supervise them through their internship process. In sum, we want to help our students succeed in obtaining their licensure. This 60-hour option allows students a more structured, efficient, and helpful approach to the already difficult process of obtaining an LPC license. Our department works closely with the Oklahoma Board of Behavioral Health and have been in frequent contact with their executive director. We are all in agreement that this change is a needed one. An additional justification for the addition of the LPC 60-hour option is that it will also help our nontraditional students. Our department is able to cater to nontraditional students who take evening and/or weekend classes. We anticipate that adding a 60-hour option will attract more nontraditional students in the future. The 60-hour option removes roadblocks for these students who do not have a structured option beyond the 36-hour masters. This option will be an asset to our traditional and nontraditional students.

Program Requirement Change

COLLEGE OF ARCHITECTURE

Construction Science, Bachelor of Science in Construction Science, (RPC 255, MC B250).
Course requirement change. Adjust required courses and course hours to meet accreditation requirements. Total credit hours for the degree will change from 129 hours to 120 hours.

Reason for request:

Course changes in response to new American Council for Construction Education accreditation criterion. Total credit hours for degree changed as a result of revised accreditation criterion.

Regional and City Planning, Master of Regional and City Planning (RPC 199, MC M818)
Course requirement change. Remove 6 hours of electives from nonthesis track. Total credit hours for the degree will change from 50 hour to 44 hours for nonthesis students.

Reason for request:

Recommendation from site visit team to make program more competitive with other programs in the nation.

COLLEGE OF ARTS & SCIENCES

Anthropology, Master of Arts (RPC 009, MC M025)
Program and course requirement changes. For standard Anthropology, remove ANTH 5003 and increase electives from 12-15 to 18 hours; create new Socio-Cultural Anthropology concentration requirements. Total credit hours for the degree will not change.

Reason for request:

Previously the ANTH 5223 and 5123 sequence was used as a two semester introduction to Sociocultural Anthropology appropriate for students specializing in Sociocultural Anthropology and ANTH 5003 was a one semester sequence used for all of the other Anthropology students. ANTH 5003 is removed and all students will take ANTH 5223 which will be an overview of the history of thought in Sociocultural Anthropology. Increasing
specialization has meant that fewer anthropology programs require training in all four fields (sociocultural, linguistic, archaeology, and biological) at the graduate level. We have found that the general, four-field anthropology MA program was not serving the sociocultural students well. The new concentration in Socio-Cultural Anthropology will assure that students in the sociocultural track will be able to dedicate themselves to studying sociocultural anthropology, without having to take courses that do not meet their needs, while freeing up six credit hours for coursework in topical courses that better prepare them to conduct thesis research and complete the written thesis with the necessary theoretical sophistication.

Applied Linguistic Anthropology, Master of Arts in Applied Linguistic Anthropology (RPC 260, MC M026)

Course requirement change. Remove ANTH 5003 as option in core requirements. Total credit hours for the degree will not change.

Reason for request:

Previously the ANTH 5223 and 5123 sequence was used as a two semester introduction to Sociocultural Anthropology appropriate for students specializing in Sociocultural Anthropology and ANTH 5003 was a one semester sequence used for all of the other Anthropology students. These tracks are being combined. All students will take ANTH 5223 which will be an overview of the history of thought in Sociocultural Anthropology.

English, Master of Arts (RPC 069, MC M375)

Course requirement change. For the Composition/Rhetoric/Literacy concentration, decrease elective coursework from 15-18 hours to 12 hours for thesis MA and 18 hours for non-thesis MA. Total credit hours required for the degree will not change. For the Literary Studies concentration, reduce elective coursework from 21 hours to 18 hours for thesis MA. Total credit hours required for the degree will not change.

Reason for request:

Reducing the total number of hours for the degree will allow students to make satisfactory progress toward the degree and finish in a more timely fashion before they run out of funding.

Math, PhD (RPC 155, MC D670)

Program requirement change. Simplify and unify 12 hours of sequence requirement, increase flexibility of tools of research, and treat RUME and classical areas of mathematics on an equal footing. Total credit hours required for the degree will not change.

Reason for request:

The proposed changes will simplify and unify the requirements for PhD students in mathematics, and they will increase flexibility. Students have the option of conducting their thesis work in RUME (research in undergraduate mathematics education). The new requirements will treat RUME students on an equal footing with students in any area of classical mathematics. Other changes give greater flexibility in practice without changing the spirit of the original version. These concern the tools of research and the advanced coursework that PhD students complete.
COLLEGE OF ATMOSPHERIC AND GEOGRAPHIC SCIENCES

Environmental Sustainability, Bachelor of Arts in Environmental Sustainability (RPC 381, MC B408 P161, B408 P516, B408 P591)

Course requirement changes. Replace GIS 4013 with GIS 2023. Total credit hours for the degree will not change.

Reason for request:

The overall intent of the GIS course requirement was and is to allow students to develop the appropriate technical mapping skills for the degree. GIS 2023 is more appropriately designed for this objective than the existing upper division class. Thus, it is better positioned to provide to the students the necessary understanding of introductory GIS knowledge and thus will better satisfy the core requirement. This switch in required classes also allows the department to focus the advanced class (GIS 4013) at a more specialized technical level, which will allow for increased understanding for those students wishing to take both classes.

Environmental Sustainability, Bachelor of Science in Environmental Sustainability (RPC 382, MC B410 P161, B410 P516, B410 P591)

Course requirement changes. Replace GIS 4013 with GIS 2023. Total credit hours for the degree will not change.

Reason for request:

The overall intent of the GIS course requirement was and is to allow students to develop the appropriate technical mapping skills for the degree. GIS 2023 is more appropriately designed for this objective than the existing upper division class. Thus, it is better positioned to provide to the students the necessary understanding of introductory GIS knowledge and thus will better satisfy the core requirement. This switch in required classes also allows the department to focus the advanced class (GIS 4013) at a more specialized technical level, which will allow for increased understanding for those students wishing to take both classes.

PRICE COLLEGE OF BUSINESS

Business Administration, Master of Business Administration (RPC 025, MC M140 Q446)

Course change requirement. Replace B AD 5100 and B AD 5200 with B AD 5101 and B AD 5201. Total credit hours required for degree will change from 47 hours to 49 hours.

Reason for request:

The required Professional Development Courses have been changed from 0 credit hours to 1 credit hours. The change in credit hours reflects the restructuring of the course requirements.

JEANNINE RAINBOLT COLLEGE OF EDUCATION

Special Education, Master of Education (RPC 219, MC M855Q628, M855Q629, M855Q034, M855Q613)

Course and program requirement change. Change the degree program to a non-thesis masters by removing EDSP 5983 from the required curriculum. There will still be a thesis option for students who wish to pursue that option. Electives for all tracks were realigned to 18 hours and were made more flexible for students seeking teacher certification. Students in the Special
Education concentration who complete the program under the non-thesis option will replace EDSP 5983 with an additional elective of their choice for a total of 33 hours. Some students who opt to complete a special set of coursework (ex. teaching certificate) OR need a prerequisite may take additional courses for a total of up to 39 hours. In all concentrations, students who complete a thesis will be required to enroll in 2-4 hours of thesis research in addition to the regular curriculum for a total of 35-43 credit hours.

Reason for request:

As of Fall 2016, our Special Education M.Ed. program will begin transitioning to a fully online format, so the current Directed Project structure may not be feasible from a logistical standpoint with students attending the program from remote locations. Further, because most of our Special Education M.Ed. students are teachers who do not intend to pursue doctoral study, an additional elective that will be practically applicable to their classrooms will be of greater benefit to them than completing a project as a culminating experience.
AGENDA ITEM 11

ISSUE: NAMING RENOVATED AREA IN THE DONALD E. PRAY LAW LIBRARY OF COATS HALL – NC

ACTION PROPOSED:

President Boren recommends the Board of Regents approve the naming of the College of Law’s new 8,000 square-foot collaborative learning space in the Donald E. Pray Law Library the Inasmuch Foundation Collaborative Learning Center in recognition of the generosity of the Inasmuch Foundation, including their recent $1.5 million gift, in accordance with Board of Regents Policy 7.3.2.

BACKGROUND AND/OR RATIONALE:

The Inasmuch Foundation has pledged a major gift to create a new collaborative learning space within the College of Law’s Donald E. Pray Law Library. By enabling the transformation of the 8,000 square-foot entrance to the library, this gift will dramatically enhance the educational experience and interaction of the students enrolled in the OU College of Law. The new space will become the intellectual activity center with informal and creative learning areas designed to enhance interaction and increase active learning. It will feature four new multimedia study rooms; a “flipped” seminar room; 16 dual monitor workstations; whiteboard desks, stands and walls; a centralized reference desk; comfortable seating areas; and a self-service café.

With an earlier gift in 2008, the Inasmuch Foundation provided critical funding for four multimedia study rooms in the Donald E. Pray Law Library. Warmly received by law students and faculty, these rooms are utilized for a myriad of purposes, including small-group classes, moot court competitions, group study sessions, collaborative staff meetings, employer interviews and video-conferencing. The four rooms logged nearly 4,000 uses by the student body in one academic year.

The study rooms’ success and the well-received Digital Initiative launched in 2014, the first such initiative by a law school in the country, demonstrate the OU College of Law’s leadership in legal education in the digital age. The new collaborative learning center represents the next decisive step in ensuring students have the technology and facilities necessary to become technologically proficient in the 21st century legal profession.

Because of the Inasmuch Foundation’s unwavering support and commitment to The University of Oklahoma College of Law, it is more than appropriate to name the new collaborative learning space in its honor. Inasmuch Foundation leaders, William J. Ross (OU Law ’54), Chairman of the Foundation’s Board of Directors, and Robert J. Ross (OU Law ’99), President and CEO, are both faithful alumni of the College of Law. Their combined vision of and commitment to excellence in education extends fondly to their alma mater. The College of Law is a grateful beneficiary of their generosity and wishes to honor Inasmuch Foundation by naming the new space the Inasmuch Foundation Collaborative Learning Center.
AGENDA ITEM 12

ISSUE: GENERAL, LIMITED AND SPECIAL OBLIGATION DEBT – NC

ACTION PROPOSED:

President Boren recommends the Board of Regents authorize the University’s Administration to submit a request to the Governor, the Speaker of the House of Representatives, and the President Pro Tempore of the State Senate seeking approval to issue general, limited and special obligation bonds, commercial paper, line of credit, drawdown bond, or other forms of interim and/or permanent debt sufficient to fund the academic, research, and infrastructure projects identified below and, in addition to the amounts needed for the proposed projects, to provide sufficient funds to fund any related costs of issuance, underwriters’ discounts, capitalized interest, reserve funds, bond insurance, net premiums/original issue discounts, and any other necessary and related expenditures associated with the issuance.

BACKGROUND AND/OR RATIONALE:

This action is the first step in the process of issuing general, limited and special obligation debt and does not obligate the University to the issuance of such. Obtaining Legislative approval simply allows the University to proceed with planning for this issue.

Section 3980.4.E. of Title 70 of the Oklahoma Statutes requires the University to communicate projects anticipated to be funded in whole or in part from general, limited and special obligation debt proceeds and the related terms of financing to the Governor, the Speaker of the House of Representatives, and the President Pro Tempore of the State Senate by April 1st. Upon receipt of said communication the Legislature shall have a period of forty-five calendar days from the date the information is communicated to the presiding officers of both chambers in order to pass a Concurrent Resolution disapproving the proposed issuance. If the Concurrent Resolution has not received a majority of votes of those elected to and constituting both the Oklahoma House of Representatives and the Oklahoma State Senate by the end of the forty-fifth day following the date upon which the proposed issuance is communicated to the presiding officers of both chambers, the proposed issuance shall be deemed to have been approved by the Legislature.

At this time the University’s Administration is preparing for the issuance of general, limited and special obligation debt in the next nine to twelve months in support of the projects listed below.

The debt contemplated herein will be secured by a pledge of all lawfully available sources of revenue other than revenues appropriated by the Legislature from tax receipts. Underlying the issuance of the bonds, the University’s Administration will comply fully with the Board of Regents “Debt Policy”, meaning that the bonds will be supported by an achievable financial plan that includes servicing the debt, meeting any new or increased operating costs, and maintaining an acceptable debt service coverage ratio.
AGENDA ITEM 13

ISSUE: PHYSICS AND ASTRONOMY FACILITIES – NC

ACTION PROPOSED:

President Boren recommends the Board of Regents:

I. Approve the design development phase plans for the Physics and Astronomy Facilities project; and

II. Recognize and acknowledge that the University may incur certain costs relative to the above project prior to receipt of bond proceeds and, to the extent the University utilizes currently available funds for said costs, it is intended that bond proceeds will be utilized to reimburse those outlays.

BACKGROUND AND/OR RATIONALE:

At the May 2015 meeting, the Board of Regents approved the Physics and Astronomy Facilities project as a part of the comprehensive Campus Master Plan of Capital Improvements Projects for the Norman Campus. At the June 2015 meeting, the Board ranked Flintco, LLC first among construction management firms considered to provide construction services for the project. The project will provide approximately 54,000 square feet of space for new research facilities to replace obsolete laboratories and laboratory support spaces in Nielsen Hall. The building will be located on the current site of Gittinger Hall just south of Nielsen Hall.

Design development documents have been prepared by the project architects, Miles Associates, in conjunction with the lab planning firm of HDR. The project will include 12 state-of-the-art research labs, associated support spaces, offices space for principal investigators and their staff, and research support. Part of the building roof will be used for astronomical research and teaching and will include a 14-inch telescope and a number of smaller telescopes for student use. In support of current and future research efforts, the building is being designed to National Institute of Standards and Technology research lab standards. The project also may include spaces for science display and classrooms. Exterior materials and designs have been selected to harmoniously blend with Nielsen Hall as well as other structures on Van Vleet Oval.

The estimated total project cost is $33,000,000. Funding has been identified and is available from private and future general revenue bond proceeds.
AGENDA ITEM 14

ISSUE: MASTER DEVELOPER – NC

ACTION PROPOSED:

President Boren recommends the Board of Regents approve ranking in the order presented below the candidates for Master Developer, pursuant to the University’s plan to improve selected areas of the Norman Campus, and to enter into negotiations with the highest ranked candidate(s), leading to one or more agreements to be reviewed by Legal Counsel and submitted to the Board for authorization.

BACKGROUND AND/OR RATIONALE:

By previous briefings University Administration informed committees of the Board about site development opportunities on the Norman Campus, which offer meaningful mission-related, operational, and financial benefits to the University going forward. Accordingly, University Administration proceeded cautiously to identify potential candidates who could serve as master developer(s) to assist with optimum site development strategies and, ultimately, asset creation and operation.

The University issued a competitive solicitation (Request for Qualifications [RFQ]) and received the following responses:

- Acquest Development            Williamsville, NY
- A.J. Eliopulos                  Lancaster, CA
- American Campus Communities    Austin, TX
- Balfour Beatty Campus Solutions Malvern, PA
- Buckingham / Kite               Indianapolis, IN
- Carter Realty                   Atlanta, GA
- EdR Collegiate Housing          Memphis, TN
- Manhattan / Rooney              Tulsa
- Martin/Lincoln/Stephenson Group San Francisco, CA
- Matthews Southwest              Lewisville, TX
- Midway Companies                Houston, TX
- Servitas                        Irving, TX
- The University Financing Foundation Atlanta, GA
- Trammell Crow Companies         Dallas, TX
- University Housing Communities / Woodbury Salt Lake City, UT

The evaluation team comprised the following individuals:

- Stewart Berkinshaw, Associate Provost and Director of Academic Financial Operations
- Chad Cochell, Director, Real Estate Operations
- Adam Ducker, Consultant, RCLCO Managing Director
- Nick Hathaway, Executive Vice President, Administration & Finance
- Chris Kuwitzky, Associate Vice President and Chief Financial Officer
- Byron Burr Millsap, Associate Vice President and Director of Purchasing
- Daniel Pullin, Dean, Michael F. Price College of Business

The RFQ solicited evidence relative to the respondent’s experience in similar projects, financial ability, organization history and make-up, references, and claims history.
The objective of the first round of evaluation was to select those respondents who would be invited to give on-site presentations. Invitations were communicated to: Balfour Beatty Campus Solutions, Buckingham / Kite, Martin/Lincoln/Stephenson Group, The University Financing Foundation, and University Housing Communities / Woodbury.
