TO LOCATE INFORMATION REGARDING STUDY ABROAD 101 SESSIONS

1. Via the OU Homepage - go to the Education Abroad Website
   http://www.ou.edu/cis/education_abroad/study-abroad-phases/study-abroad-101

2. Fill out the registration form at choose your time.

3. Sessions are held Monday at 7:30pm in the Student Learning Center in Adams Tower, Room 105 and Tuesday through Friday at 4:30pm in Farzaneh Hall, Room 146.

TO OPEN APPLICATION

FOLLOW THIS LINK: https://tinyurl.com/yygypv4n

1. Choose the program you are interested in or browse all of our available programs for the Gallogly College of Engineering.

2. You can go through the various tabs to view information such as the Program Overview, Money Matters, How to Apply and Student Experience.

3. A meeting with a Study Abroad Liaison is required for all of our programs. If you need to meet with me, please use this link https://iadvise.ou.edu/engineering-study-abroad to schedule with iAdvise or call 405.325.4096.

4. Once you are ready to apply, simply click the "Apply Now" link in the how to apply tab, then enter your 4x4 and password.

   *Note: There are 3 Phases to each application.
   A. Phase 1 is Study Abroad 101 and meeting with a Study Abroad Liaison.
   B. Phase 2 is Completing all of the Signature Documents.
   C. Phase 3 is Preparing and Completing Submission Materials and Committing to go. Please note that when you are ready to Commit to go, you are agreeing that you will be responsible to pay the Program related fees. So please make sure you have your funding in order before you take this step. You are the only one that can change your Status to Committed in the final Phase.

5. Any time you wish to access your application, you will access your application by going to the Education Abroad website and then scroll down to the first black tab called "Login / Registration".

   ==DO NOT RE-APPLY==
   You can complete the application in steps; however, it is important to remember to access your application by logging in. If you re-apply you will be creating a new application and your previous work may not be saved.
