

### Titer Availability & Cost at OU-Tulsa Student Health Services

Titers are available by appointment Monday through Friday during normal clinic hours. Titers must be paid for (cash or check only) at the time of the visit, unless covered by your health insurance plan.

- Hepatitis B Surface Antibody (titer), Quantitative \$15.00  
Please note: If the initial Hep B titer is negative, you will be asked to repeat a Hep B vaccine series. Another quantitative titer will be drawn >4-6 weeks after your last dose.
- Varicella IgG (Chicken pox) \$25.00
- Measles IgG (Rubeola) \$25.00
- Mumps IgG \$25.00
- Rubella (German Measles) IgG \$10.00

You will be asked to create a MyChart account within the OU Health Epic EMR system. Lab results will be sent to the OU-Tulsa Student Health Clinic and will be also available to you in your MyChart account.

**If you obtain titers elsewhere (outside of the OU-Tulsa Student Health Clinic), please be aware of the following:**

- Hepatitis B titers – The required titer is a **Hepatitis B Surface Antibody *quantitative* titer**, not a *qualitative* titer. Make sure you obtain the correct test. Qualitative titers are not accepted.
- Titer results that are obtained in the form of a lab report, or those obtained through an EMR (such as Epic/MyChart), must include your name, DOB, date of result, the titer result (numeric value) and the index value/range.

If you have any questions regarding titers, please reach out to OU-Tulsa Student Health Services at 918-660-3102.
