..... Spring 2019

UCOL 1022-004 CRN Abnormal Psychology in Film MW 2:30 PM – 3:20 PM

From Psycho to Fight Club, the fascinating aspects of abnormal psychology have been a popular topic of exciting, funny and frightening Hollywood movies for decades. How are these movies beneficial for learning about abnormal psychology? How might they be harmful? Learn about abnormal psychology while exploring and analyzing how Hollywood movies have depicted the field and those who are affected by these disorders. Assignments will include viewing and critically analyzing films which feature characters affected by abnormal psychological disorders.

UCOL 1022-003 CRN Sex in the 21st Century TR 12:30 PM – 1:20 PM

The primary goal is to explore various sexual issues as they are developing today. This may include; Abortion, STDs, Gay Marriage, Sexual Dysfunctions, Rape, and also such positive issues as Sex Education, Contraception, Love, and Relationships. The precise issues will be determined by what will be occurring in the media at the time of the class. The purpose is to promote a forum where differing views can be discussed in an open and respectful manner. You are not told what to think, but rather to think, and to develop your individual “meaning of sex.” Some of the secondary goals are to enhance the students’ ability to think critically, to know and use the University’s resources, to work independently on some projects, together in teams on others, and to be aware of current events involving sex.
