

The UNIVERSITY of OKLAHOMA
College of Atmospheric and Geographic Sciences

Memorandum

To: Office of the Registrar
From: School of Aviation and AGS Advising Team
Date: December 1st, 2025
Subject: SoA Standard Petition 2- Prior to 2023

To Whom It May Concern:

This memorandum serves as a blanket petition to document and approve specific course substitutions for Bachelor of Science in Aviation students following degree requirements under catalog terms prior to 2023. These substitutions reflect curricular updates and alignment with evolving program standards.

1. GEOG 1114 Physical Geography

It is recommended that GEOG 1114, Physical Geography, be **accepted in lieu of PHYS 1114**, General Physics for Non-Science Majors, for all students under a catalog term prior to 2023. GEOG 1114 offers foundational physical science concepts that adequately support degree progress for students under earlier catalog terms.

2. GIS 2023 Intro to Spatial Thinking

It is recommended that GIS 2023, Intro to Spatial Thinking, be **accepted in lieu of ACCT 2123**, Managerial Accounting, for students under a catalog term prior to 2023. While the two courses are not equivalent, GIS 2023 provides spatial reasoning and applied analytical skills that better support the academic and professional needs of these students

Upon approval and signature, this petition will serve as the standing guideline for applying these substitutions and waivers to all eligible student records. The finalized document will be archived in Laserfiche to ensure secure access, proper documentation, and long-term consistency in institutional practices.
