

The UNIVERSITY of OKLAHOMA®
College of Atmospheric and Geographic Sciences

Memorandum

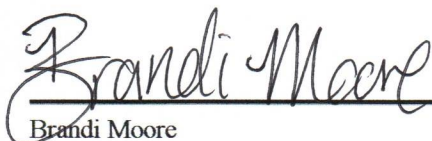

To: Office of the Registrar
From: SoA and AGS Advising Team
Date: December 1st, 2025
Subject: SoA Standard Petition 5 – Math Waiver

To Whom It May Concern:

This memorandum serves as a blanket petition to establish a process for waiving a specific Bachelor of Science in Aviation course requirement for students who have completed or have credit for MATH 1914, *Differential and Integral Calculus I*, MATH 1743, *Calculus I for Business, Life and Social Sciences*, or MATH 1823, *Calculus and Analytic Geometry I*, but have not completed MATH 1643, *Functions and Modeling for Business, Life and Social Sciences*.

Students who have completed one or more of these high-level math courses have gained sufficient knowledge to fulfill the math expectations and requirements of the program. It is recommended that these students receive a **waiver** for **MATH 1643, Functions and Modeling for Business, Life and Social Sciences**.

Upon approval and signature, this petition will be used as the standing guideline for applying this waiver to all applicable student records. The finalized document will be stored in Laserfiche to ensure secure access, proper documentation, and long-term institutional consistency.
