STEP 1: Articulate Student Learning Outcomes (SLOs)

What do you want students to know and do by the time they graduate from your certificate or degree program?

Comparability Strategy *Ensure that SLOs are **similar** for programs offered BOTH 100% and those traditionally offered using F2F or blended format.*

7

Articulating SLOs using Bloom's Taxonomy

	Creating	<ul style="list-style-type: none"> The student can put elements together to form a functional whole, create a new product or point of view : assemble, generate, construct, design, develop, formulate, rearrange, rewrite, organize, devise.
Higher order thinking skills	Evaluating	<ul style="list-style-type: none"> The student can make judgments and justify decisions: appraise, argue, defend, judge, select, support, evaluate, debate, measure, select, test, verify
	Analyzing	<ul style="list-style-type: none"> The student can distinguish between parts, how they relate to each other, and to the overall structure and purpose: compare, contract, criticize, differentiate, discriminate, question, classify, distinguish, experiment
	Applying	<ul style="list-style-type: none"> The student can use information in a new way: demonstrate, dramatize, interpret, solve, use, illustrate, convert, discover, discuss, prepare
Lower order thinking skills	Understanding	<ul style="list-style-type: none"> The Student can construct meaning from oral, written and graphic messages: interpret, exemplify, classify, summarize, infer, compare, explain, paraphrase, discuss
	Remembering	<ul style="list-style-type: none"> The student can recognize and recall relevant knowledge from long-term memory: define, duplicate, list, memorize, repeat, reproduce

8

STEP 2: Measure SLOs

WHERE?

SIMPLE CURRICULUM MAPPING

STUDENT LEARNING OUTCOMES	CORE COURSES			
	A	D	E	F
1	✓	✓	✓	✓
2		✓	✓	✓
3	✓			✓

HOW?

Hint:

- ❖ **Undergraduate:** Focus on core courses and other educational experiences required of all students.
- ❖ **Graduate:** Center on processes that prepare students for culminating experiences AND assessment of the culminating experiences.

9

Curriculum Map Template

PROGRAM LEVEL STUDENT LEARNING OUTCOMES	CORE COURSES							
	1	2	3	4	5	6	7	8
Knowledge of Theories								
Critical Thinking								
Communication Skills								
Quantitative Reasoning								
Application of Theories								
Problem Solving								

Build a Curriculum

10

Curriculum Map Template *(basic)*

PROGRAM LEVEL STUDENT LEARNING OUTCOMES ↓	CORE COURSES							
	1	2	3	4	5	6	7	8
Knowledge of Theories			✓				✓	✓
Critical Thinking	✓		✓	✓			✓	✓
Communication Skills				✓	✓	✓		
Quantitative Reasoning								
Application of Theories		✓			✓	✓		✓
Problem Solving								✓

11

Curriculum Map Template *(with levels)*

PROGRAM LEVEL STUDENT LEARNING OUTCOMES ↓	CORE COURSES							
	1	2	3	4	5	6	7	8
Knowledge of Theories							A	M
Critical Thinking	I		A	A			A	M
Communication Skills	I			A	A	A		
Quantitative Reasoning								
Application of Theories					A	A		
Problem Solving								M

MAPPING KEY:
 I=Introduced A=Advanced M=Mastery

12

Curriculum Map Template (with levels)

PROGRAM LEVEL STUDENT LEARNING OUTCOMES ↓	CORE COURSES							
	1	2	3	4	5	6	7	8
Knowledge of Theories		I			A		A	M
Critical Thinking	I	I	A	A			A	M
Communication Skills	I	I		A	A	A	M	M
Quantitative Reasoning			I		A		M	M
Application of Theories	I				A	A		M
Problem Solving		I		A	A		M	M

MAPPING KEY:

I=Introduced

A=Advanced

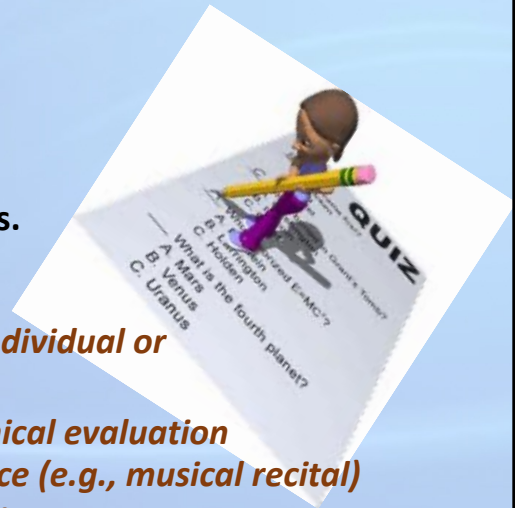

M=Mastery

13

Direct Assessments

...are “measurement” strategies that require students to **demonstrate** achievement levels related to program-specific learning outcomes.

- *Pre and posttests*
- *Multiple-choice tests*
- *Essays*
- *Portfolio evaluation*
- *Case studies*
- *Reflective journals*
- *Capstone projects*
- *Project Designs*
- *Class projects (individual or group)*
- *Internship or clinical evaluation*
- *Performance piece (e.g., musical recital)*
- *Poster presentation*

**All the above methods, except for multiple-choice tests, require the use of rubrics to assess the quality of student performance.*

14

Indirect Assessments

...are reports of student “perceptions/opinions” regarding their learning.

- *Course Evaluations*
- *Interviews*
- *Transcripts*
- *Focus Groups*
- *End of Course Grades*
- *Student Surveys*

SLOs should **primarily be assessed using **direct assessments**. Indirect assessments are simply used to augment results of the direct assessments but should not be used without direct methods.*

15

STEP 2: Measure SLOs

- *Are there common major assessments, exams or experiences between the programs?*
- *Are the assignments aligned directly with the program SLOs?*
- *Are there common, generic rubrics used to evaluate the quality of student work for various SLOs?*
- *Do the rubrics reflect a set of common criteria and scales to allow for comparability of student performance data?*
- *Do syllabi for all required courses reflect similar course level student learning outcomes?*

Comparability Strategy

*Focus on **common elements** regarding **WHERE** and **HOW** program SLOs are measured.*

16

STEP 3: Analyze & Interpret Student Performance

Key Questions

- ❖ What do the data show about your students' level of mastery of intended learning outcomes?
- ❖ Are there areas where students are outstanding? Are they consistently weak on certain skills?
- ❖ Are there areas where performance is good, but not outstanding, and you'd like to see better/higher performance?

Comparability Strategy

Find out if there are **major differences** regarding student performance in each SLO between programs.

17

STEP 4: Use Results for Continuous Improvement

Key Questions

- What will you do to **improve** student learning?
- Which program elements should be

➤ Reinforced?

➤ Maintained?

➤ Strengthened?

➤ Modified?

Comparability Strategy

If there are **major differences** in student performance between similar programs offered in distinct environments, then discussions should be held to determine actions for continuous improvement.
