**All programs are FREE!**

**All program materials are provided.**

- Will also bring a supply of biodiversity posters and stickers.
- Programs can be weekdays, weekends, and evenings.
- Can do a combination of multiple programs for up to 4 hours in a day.
- Book royalties go to the Oklahoma Biological Survey for rare species research.

To schedule email, [prill@ou.edu](mailto:prill@ou.edu), with your program requests and date options.

# BIODIVERSITY PRESENTATION

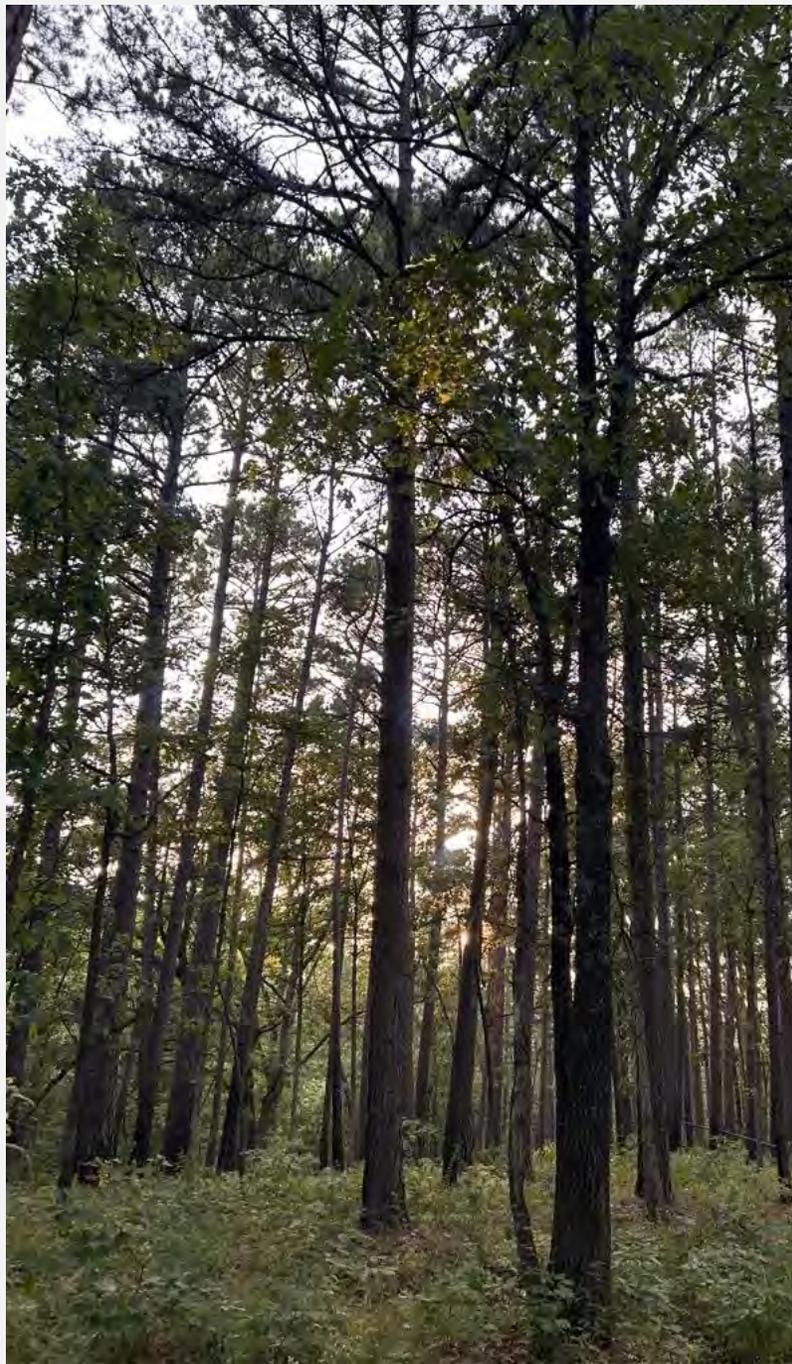

## FROM BALD CYPRESS TO PONDEROSA PINES: A BRIEF TOUR OF OKLAHOMA'S BIODIVERSITY

Priscilla Crawford, Ph.D.  
Ecologist & Biogeographer

OKLAHOMA BIOLOGICAL SURVEY  
*The UNIVERSITY of OKLAHOMA*

50-minute slide show highlighting the diversity of all Oklahoma ecoregions.

Best for interested adults

Necessary Logistics

- Indoors
- Large screen
- Seating for audience

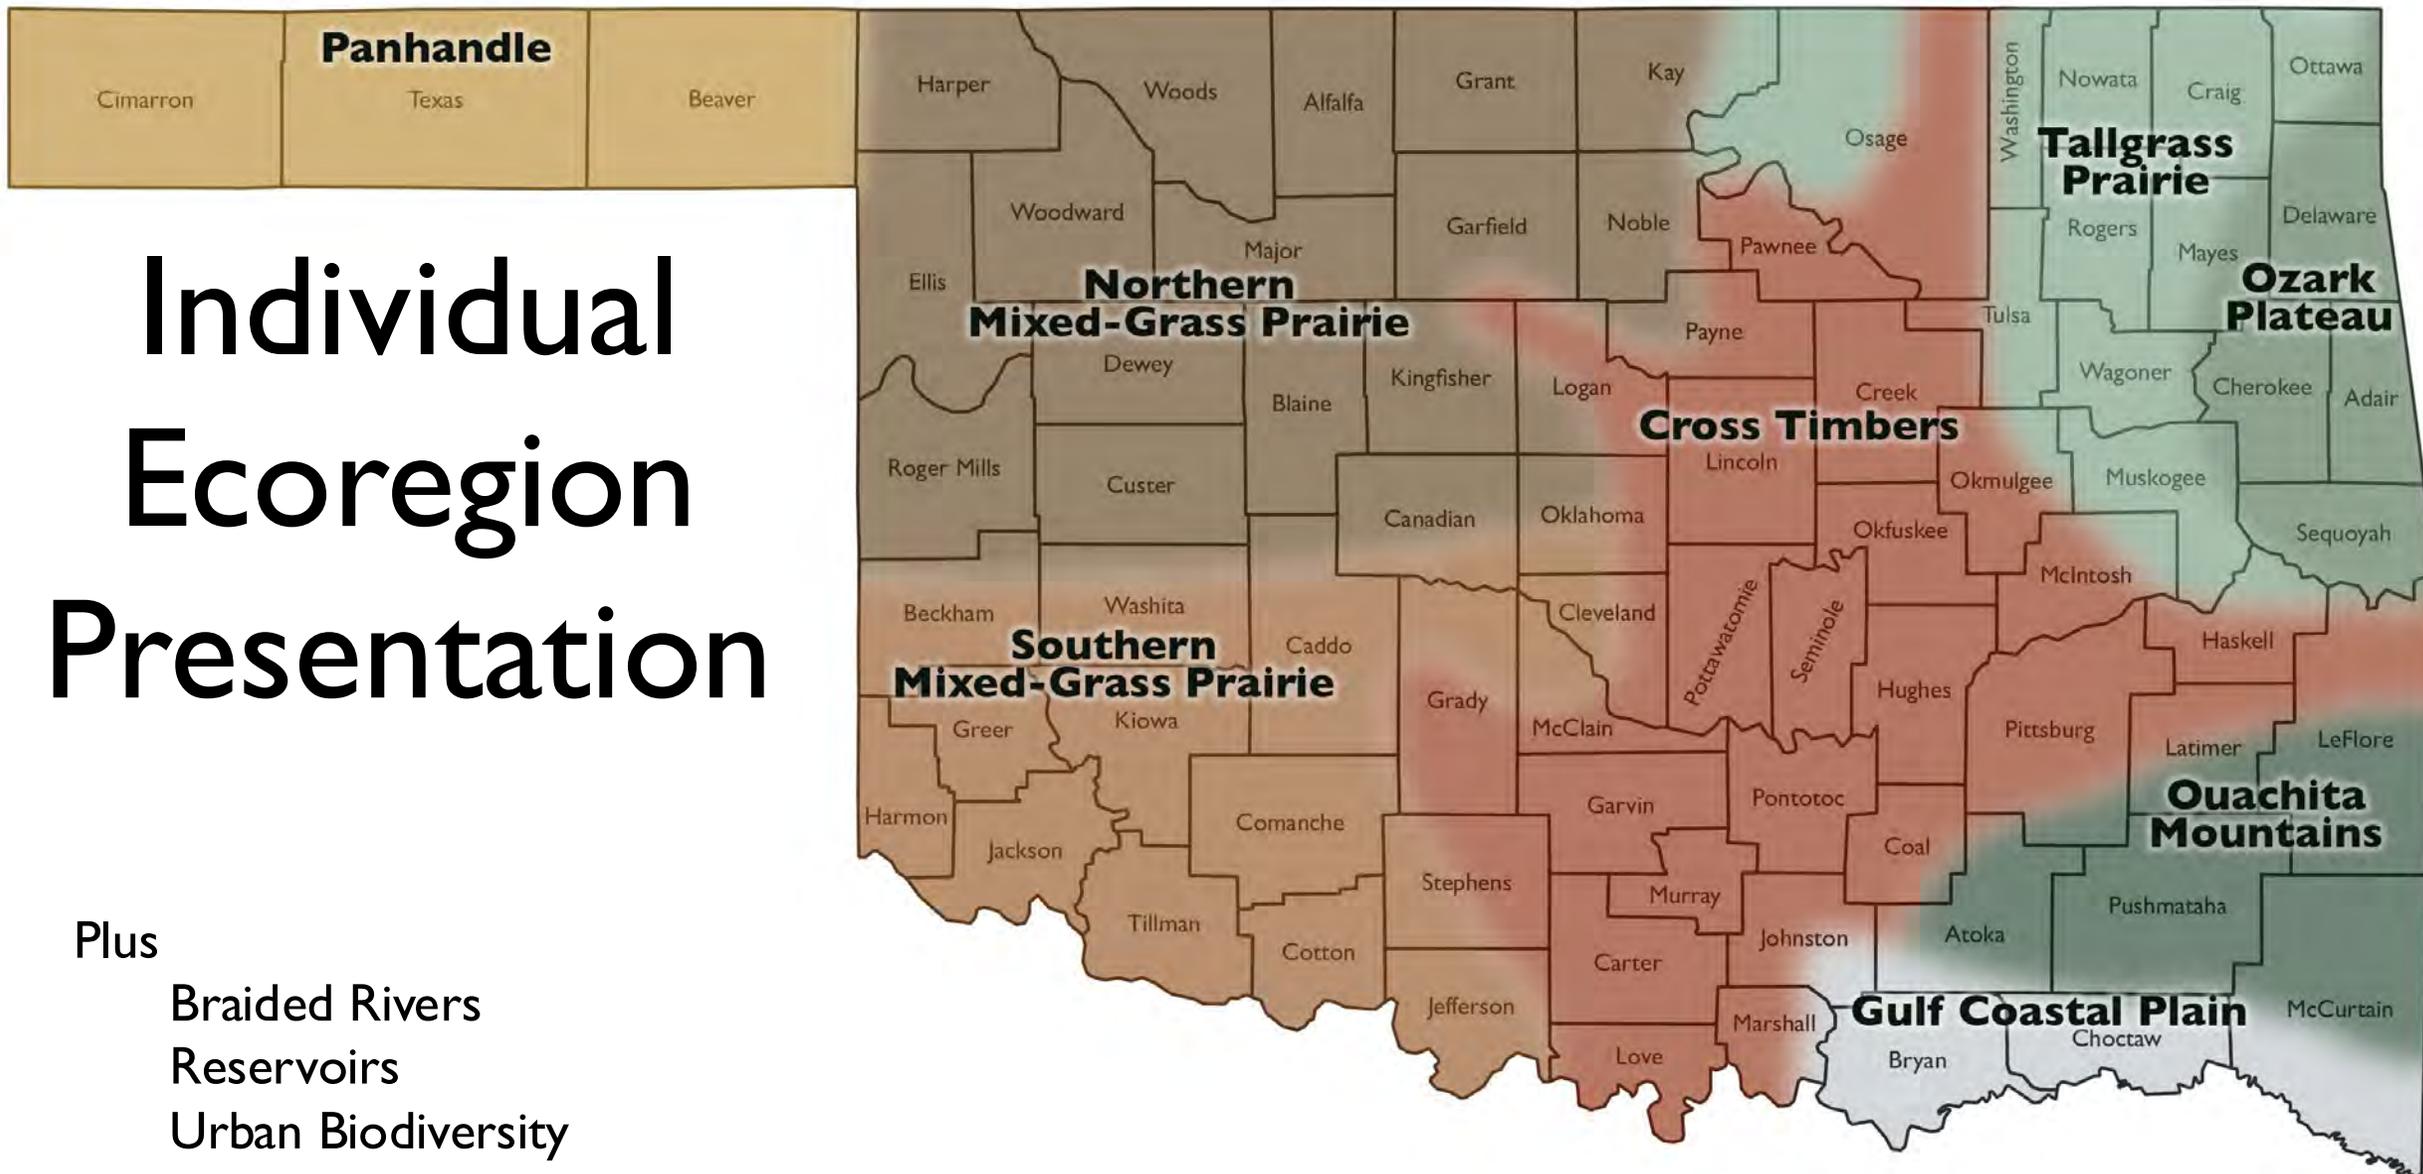

# Individual Ecoregion Presentation

Plus

Braided Rivers

Reservoirs

Urban Biodiversity

20-minute presentation  
on single ecoregion

Short enough for families

Necessary Logistics

- Indoors
- Large screen
- Seating for audience

**NATURE JOURNAL WORKSHOP**

# NATURE JOURNAL WORKSHOP

I provide all materials

- Paper, pens, pencils, erasers, watercolors
- Take home mini booklet

Could be planned as an adult or family program - 30 minutes to 2 hours

Logistics

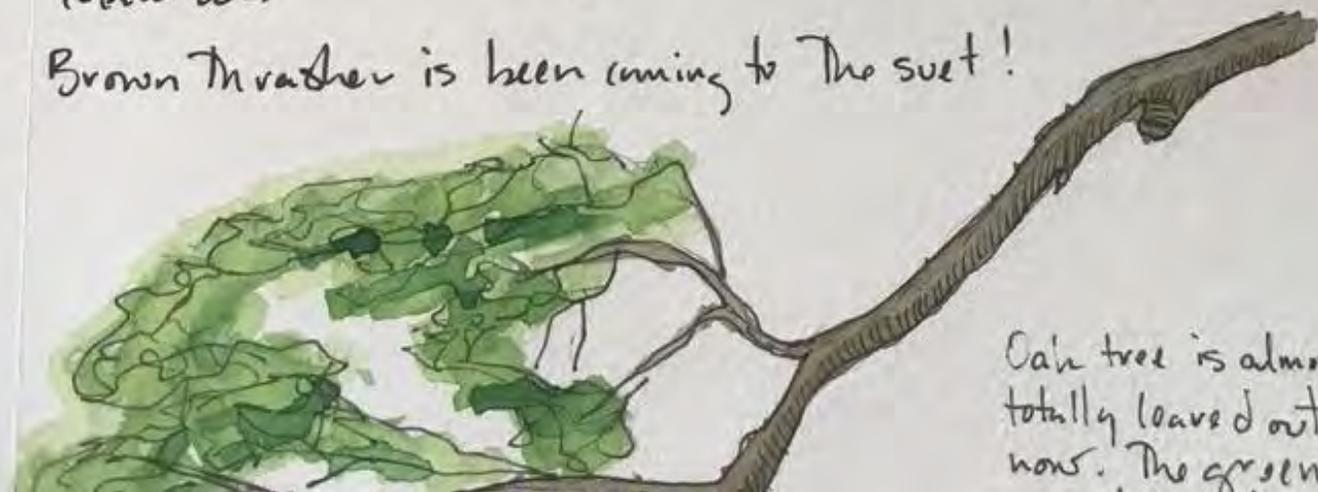

- Covered space with tables and seating (could be a picnic pavilion)
- Outdoor space for observations
- Access to water is helpful

Silver Maple  
Samara from tree  
two houses to the west.  
Yard ~~is~~ is full of them!  
Never noticed them come into  
our yard from that tree  
before.

We have spent lots of time outside the past couple weeks.  
Spring is in full swing. Cardinals & Robins nesting. Lots of  
bird courtship rituals. Finally planted peas & greens.  
Rose & I added some pollinator plants to both the front &  
backyard. I still have a lot more that we were supposed  
to add to the BioStation garden. Might go to the  
plant nursery today to get some veg, herbs, & a butter  
bush today. Feel a bit guilty because it isn't quite  
"essential."

Brown Thrasher is been coming to the suet!

Oak tree is almost  
totally leaved out  
now. The green

# HIKE & CHAT

Informal chat as we walk outdoors

Could be planned as an adult or family program, 1-2 hours

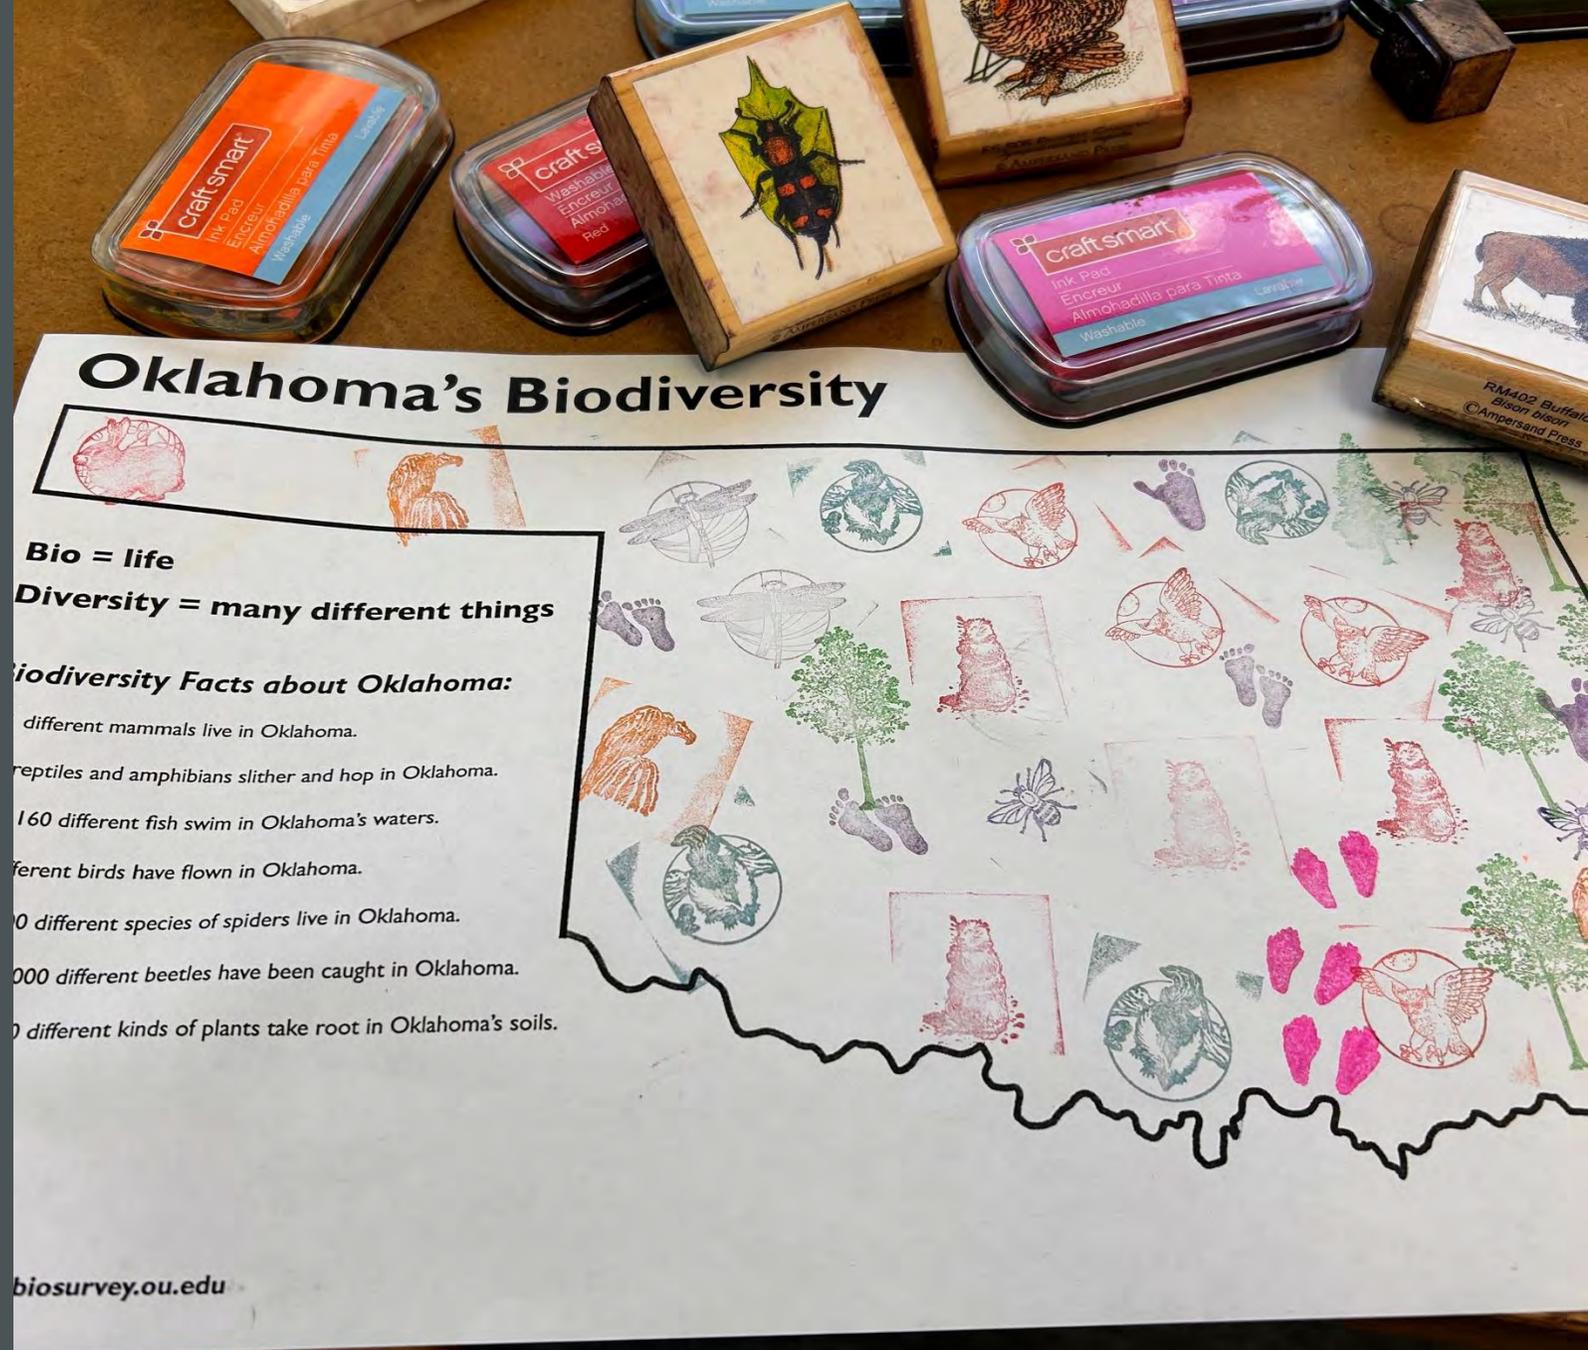

### Necessary Logistics

- 1-3 mile trail
- Better with fewer than 30 attendees

# BIODIVERSITY STAMPS

- Simple activity for people to do as they come and go
- Good for kids and families, although adults like it too

# Book Signings

Books made available through either

- Your shop
- Directly with me via OU Press

Attendees would get personalized autographs and handmade bookmarks
