

DODGE FAMILY COLLEGE OF ARTS AND SCIENCES  
**ANTHROPOLOGY**  
*The UNIVERSITY of OKLAHOMA*

The faculty of the Department of Anthropology acknowledge the working and learning conditions that prompted the OU Days of Action. Current campus policies and actions have forced many community members to make difficult choices between safety and their education and/or job security. The faculty supports students, faculty, and staff participating in the Days of Action as they are able (and recognize that not everyone will be able to participate equally), with the goal of raising awareness and creating change. We urge flexibility in allowing students to respond to the call to action.

Examples of different levels of participation are available here:
