Graduate Certificate program developed

- Graduate Certificate in Data Analytics for Information Professionals: Designed the certificate and developed relevant courses

Certificates earned

- Introduction to Healthcare
- Fundamentals of Machine Learning for Healthcare
- Data Science of Health Informatics
- Leading Change in Health Informatics
- Healthcare Data Literacy
- Convolutional Neural Networks in TensorFlow
- Introduction to TensorFlow for Artificial Intelligence, Machine Learning, and Deep Learning

Teaching

- Introduction to Health Informatics
- Introduction to Data Analytics
- Advanced Data Analytics
- Data Mining
- Website Design
- Design and Implementation of Networked Information Services
- Management of Information and Knowledge Organizations
- Information Systems and Networks
- Information Security
- Database Management
- Information Systems Management
- Statistics

- Research Methods
- Information and Knowledge Society
- Management Information Systems
- Information Systems Infrastructure
- Human Resources Management

Doctoral Dissertation

- Committee chair, Harun Karahan, School of Library and Information Studies, University of Oklahoma
- Committee member, Young A Lee, School of Library and Information Studies, University of Oklahoma.
- Committee member, Satish Thomas, School of Electrical and Computer Engineering Telecommunication, University of Oklahoma.
