# REQUIREMENTS FOR THE BACHELOR OF SCIENCE GALLOGLY COLLEGE OF ENGINEERING THE UNIVERSITY OF OKLAHOMA

| Academic Year  | General Requirements  | Program                                      |  |
|--|---|--|--|
| For Students Entering the Oklahoma                                   | Minimum Total Credit Hours  | Chemical Engineering<br>- Pre-Medical Option |  |
| State System for Higher Education<br>Summer 2023 through Spring 2024 | Overall - Combined and OU         2.00           Major - Combined and OU         2.00           Curriculum - Combined and OU         2.00 | B163<br>Bachelor of Science                  |  |
|  |   | Bachelor of Science                          |  |

OU encourages students to complete at least hours of applicable coursework each year to have the opportunity to graduate in years.

. .

## GENERAL EDUCATION AND COLLEGE REQUIREMENTS

Courses designated as Core I, II, III, IV, or V are part of the General Education curriculum. Students must complete a minimum of 40 hours of General Education courses, chosen from the approved list, including at least one upper-division Gen. Ed. course outside of the student's major. **Courses graded P/NP will not apply.** 

A grade of C or better is required in each course in the curriculum, including all prerequisite courses.

## UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

| Total Credit Hours              |   | 40-50               | Technical Electives    |
|                                 |   |                     | rectificar Electives   |

1MATH 1914, MATH 2924, and MATH 2934 can be substituted with MATH 1823, MATH 2423, MATH 2433, and MATH 2443.

2Major support requirements that also satisfy University General Education requirements.

3CHEM 1315 can be substituted with CHEM 1335 or CHEM 1425.

4To be chosen from the University-Wide General Education Approved Course List. Three of these hours must be upper-division (3000-4000). One of these courses should be an English course 2000-level or above. See list in the Class Schedule.

#### FREE ELECTIVES

Electives to bring total applicable hours to the minimum total required for the degree including a minimum of 40 upper-division hours.

Bachelor of Science in Chemical Engineering accredited by the Engineering Accreditation Commission of ABET, https://www.abet.org, under the General Criteria and the Chemical, Biochemical, Biomolecular and Similarly Named Program Criteria.

In order to progress in your curriculum in the Gallogly College of Engineering, and as a specific graduation requirement, a **grade of C** or better is required in each course in the curriculum, including all prerequisite courses.

## SUGGESTED SEMESTER PLAN OF STUDY

Bachelor of Science in Chemical Engineering accredited by the Engineering Accreditation Commission of ABET, https://www.abet.org, under the General Criteria and the Chemical, Biomolecular and Similarly Named Program Criteria.

In order to progress in your curriculum in the Gallogly College of Engineering, and as a specific graduation requirement, a grade of C or better is required in each course in the curriculum, including all prerequisite courses. Chemical engineering courses are sequential and usually offered only in the semester shown; note prerequisites.

Two college-level courses in a single world language are required; this may be satisfied by successful completion of 2 years in a single world language in high school. Students who must take a language at the University will have an additional 6-10 hours of coursework.

Courses designated as Core I, II, III, IV, or V are part of the General Education curriculum. Students must complete a minimum of 40 hours of General Education courses, chosen from the approved list.

| Year      |           | FIRST SEMESTER  | Hours |                           | SECOND SEMESTER   | Hours |

|           | CH E 4253 | Process Design & Safety                                 | 3     | CH E 3313                 | Structure and Properties of Materials                                   | 3     |
| SENIOR    | CH E 4262 | Chemical Engineering Design Laboratory                  | 2     | CH E 4273                 | Advanced Process Design   | 3     |
|           | BIOL 3103 | Principles of Physiology                                | 3     | BIOL 3101                 | Principles of Physiology Lab  | 1     |
|           | ENGR 2431 | Electrical Circuits <sup>6</sup>                        | 1     | HIST 1483 or<br>HIST 1493 | United States to 1865 ( Core IV ) or United States, 1865 to the Present | 3     |
|           | ENGR 3431 | Electromechanical Systems <sup>6</sup>                  | 1     |                           | Approved Elective, World Culture (Core IV) <sup>4</sup>                 | 3     |
|           |           | Approved Elective, Western Culture (Core IV) $^{\rm 4}$ | 3     |                           | Approved Elective, Artistic Forms (Core IV) $^4$                        | 3     |
|           |           | CREDIT HOURS  | 16    |                           | CREDIT HOURS  | 17    |

1 CHEM 1315 can be substituted with CHEM 1335 or CHEM 1425 (H) (Fall only). CHEM 1435 can be substituted with CHEM 1415.

2 MATH 1823, MATH 2423, MATH 2433, and MATH 2443 sequence can be substituted for MATH 1914, MATH 2924, and MATH 2934.

<sup>3</sup> Engineering transfer students may take ENGR 3511 in place of ENGR 1411.

4 To be chosen from the University-Wide General Education Approved Course List. Three of these hours must be upper-division (3000-4000). One of these courses should be an English course 2000-level or above. See list in the Class Schedule.

<sup>5</sup> Choose one of the following: BIOL 3113, BIOL 3333, or BIOL 4843. Pre-med students are required to consult the Pre-Med advisor as well as their Chemical Engineering advisor for necessary medical school information. **Note:** Additional Electives for Pre-Medical are required.

6 It is recommended that ENGR 2431 and ENGR 3431 be taken in the same semester. The courses are offered in sequential five-week blocks during the semester.
