

Executive Summary

Request 24 – Access to Student_Curric_History_Detail in ODS for iAdvise

Updated 4/20/2017

Requestor

Aaron Biggs (abiggs@ou.edu)

Executive Summary

This view contains student curriculum history details which are needed to enable the Change of Major feature within iAdvise. When an iAdvise user searches for a student they would like to make a program change request for, they are presented with all the student's current program information. We have all the needed information, except for the catalog year, which is only stored in STUDENT_CURRIC_HISTORY_DETAIL.

User Stories

- As an iAdvise user, when I create a change of major request, I would like to see the catalog years of the student current programs so that I make the correct decision regarding the change request.

Delivery and Timeline

- **Delivery Method:** ODS
- **Timeline:** Would like to provide access to ODS by April 1, 2017.
- **Project Execution:** This project will be executed as an under 20 project request.
