## Climate Change in History

A PRESIDENTIAL DREAM COURSE — SPRING 2020

## JANUARY 23, 7:00-8:30 PM

Decentering Climate History: The Global Little Ice Age, circa 1570 to 1720

Gregory T. Cushman, Ph.D. (Associate Professor of International Environmental History, University of Kansas)

Oklahoma Memorial Union, Frontier Room

Co-sponsored by the Department of History, University of Oklahoma

#### FEBRUARY 21, 3:30-5:00 PM

Indigenous Cultural Revitalization as a Response to Climate Change

Kari Norgaard, Ph.D. (Associate Professor of Sociology and Environmental Studies, University of Oregon)

Oklahoma Memorial Union, Frontier Room

Co-sponsored by the Department of Native American Studies, University of Oklahoma

## FEBRUARY 27, 7:00-8:30 PM

The Floral Archive: Climate Change, History, and the Problem of Scale

Deborah Coen, Ph.D. (Professor of History, Yale University) Oklahoma Memorial Union, Frontier Room

### MARCH 6, 3:30-5:00 PM

Time and Risk in Climate Knowledge: An Infrastructure Perspective

Paul Edwards, Ph.D. (William J. Perry Fellow in International Security and Senior Research Fellow, Stanford University)
Oklahoma Memorial Union, Scholars Room

#### APRIL 10, 3:30-5:00 PM

Imagining and Designing Low-Carbon Societies
Clark Miller, Ph.D. (Professor in the School for the Future of
Innovation in Society, Arizona State University)
Oklahoma Memorial Union, Regents Room
Co-sponsored by the Institute for Risk and Resilience, University of Oklahoma

#### APRIL 20, 4:30-6:00 PM

The 12 Year Window: Locating Crisis, Climate Change, and Colonialism

Candis Callison, Ph.D. (Associate Professor of Journalism, University of British Columbia)

Oklahoma Memorial Union, Frontier Room

Co-sponsored by the Department of Native American Studies, University of Oklahoma

Climate change is challenging humans to reevaluate and restructure the social, political, and environmental foundations of our societies. How did scientists and others come to recognize this threat and how can we understand the emergence of global and local efforts to confront climate change? This course explores the history of climate change, from the emergence of climate science to debates about projects meant to mitigate and adapt to it. Throughout, we will evaluate the past to consider our paths forward.

#### **INSTRUCTORS:**

Dr. Peter Soppelsa and Dr. Suzanne Moon

# All lectures are free and open to the public.

For information or accommodation on the basis of disability, please contact:

Peter Soppelsa (peter.soppelsa@ou.edu)
or Suzanne Moon (suzannemoon@ou.edu)

Support for this course was provided by the Office of the President, the Department of the History of Science, The Department of History, The Department of Native American Studies, and the Institute for Risk and Resilience. The University of Oklahoma is an Equal Opportunity Employer.
