

Organic Geometry by Lori Bacigalupi

ENGAGE CALENDAR

WELCOME

A MESSAGE FROM THE DEAN

Greetings! We invite you to explore the 2025–2026 Engage Calendar and an inspiring season of musical theatre, art, dance, music, and drama in the Weitzenhoffer Family College of Fine Arts.

As we begin our Second Century, as a college we're thrilled to present more than 400 events — from bold new performances to stunning exhibitions, and renowned guest artists from across multiple disciplines in collaboration with our carefully recruited faculty, staff, and students.

This fall, University Theatre presents a fresh balletic take on *A Midsummer Night's Dream*, the haunting opera *The Turn of the Screw*, the comedic chaos of Mel Brooks' *Young Frankenstein*, and the touching transformation of *A Christmas Carol*. Add a masterful Musical Mosaic, recitals, concerts, and exhibitions showcasing our students' remarkable talent and it's quite a fall!

The season continues in January with imaginative choreography, music from across the centuries, evocative designs, dynamic modern dance, and the timeless voices of Aristophanes and Mozart — all brought to life for you by the artists of the College of Fine Arts.

The possibilities are endless—experience the arts like never before! We hope you will support our students by selecting one of the funds listed in the calendar, and we look forward to welcoming you to the Second Century!

With all best wishes,

Professor Mary Margaret Holt

Dean, Weitzenhoffer Family College of Fine Arts

Nichols' Chair, Regents' Professor, and Presidential Professor

ON THE COVER

THE ARTIST

Lori Bacigalupi is an MFA candidate with an emphasis in printmaking. This summer marks the completion of her second year. During the course of her studies, Lori became interested in sculpture and conceptual art.

"Finding my voice as an artist is not only a realization, it's also a recognition," Lori says. "My internal and external worlds are one—there's no difference. I am motivated to find the hints and to realize the connections. That keeps me going, that's everything," she adds. Of late, "the grid has emerged as an important clue" Lori concludes.

THE ARTWORK

Organic Geometry is a longing for balance, a call to perfection.

Lori used natural dyes on pine including indigo, quebracho wood dye, and an organic floral for yellow. The black and white check latex stands in contrast to the natural colors. The triptych format has its own miraculous asymmetrical balance.
