

2024 Photography Summer Internship

Program Overview

The summer internship program is comprised of a 12 week session during your summer break. This position is in Oklahoma City at our Ecommerce Corporate Offices. Remote work is not available. Each student intern will work with seasoned mentors from the Hobby Lobby Ecommerce staff to process images for the Hobby Lobby website. Interns will be scheduled to work approximately 32 hours per week, with every Friday off. This program offers students an opportunity to gain real world knowledge and experience in working in a fast-paced studio environment. Students will receive guidance on lighting techniques and composition to properly capture products with customers in mind. This is a paid internship and is offered at a competitive rate of \$18.50 per hour.

Responsibilities

The selected intern will be responsible for capturing quality product images for the Hobby Lobby website and assisting in other studio processes including, but not limited to, setting up lighting and equipment, prepping and organizing products to be shot, assisting stylist with sets, and editing product imagery.

We look for potential candidates who

- Currently majoring in Photography, Marketing or related study
- Have experience working with a DLSR camera, photography equipment and Adobe Bridge/Photoshop
