Overview

IC Overview

Welcome to the Institutional Characteristics (IC) survey component. This survey component collects directory information, including data that are key to reporting throughout the IPEDS data collection and must be completed and locked before any other survey can be started. Any errors in the IC survey component can lead to further errors in the data reporting process, so please be very careful in reporting these data correctly and contact the IPEDS Help Desk (877.225.2568) if you have any questions.

This survey component also collects basic institutional information including student services and athletic association.

The IC should be completed based on the **current year**. Some IC questions may require nothing more than a confirmation if nothing has changed. Please make changes as necessary, and complete items that do need a response (e.g., enrollment questions).

Remember, it is the responsibility of the keyholder to provide NCES with accurate data about the institution. Please never hesitate to call the IPEDS Help Desk at 1-877-225-2568 and ask for help to make sure that you are reporting correctly!

Because of the importance of the IC data in Section 1 (Header Information) in determining the screens you will receive in other survey components, be sure to report correctly, and to contact the IPEDS Help Desk if you have **ANY** questions about what you need to report.

The IC data in Section 1 (Header Information) affect other survey components in the following ways:

- The Educational Offerings question verifies your institution's inclusion in IPEDS.
- The Control and Levels page is key to all survey components, especially to Finance (F) and Graduation Rates (GR). Additionally, this is important information for students, impacts many federal reports, and is used in placing institutions in appropriate net price groupings.
- Calendar system selection impacts student charges data reported in Cost (CST), Fall Enrollment (EF), GR, and Student Financial Aid (SFA) data.
- Enrollment levels impact student charges in CST and enrollment categories in the EF survey component.
- The operations question for new institutions determines reporting of 12-month Enrollment (E12).

Data Reporting Reminder:

- Report data to accurately reflect the time period corresponding with the IPEDS survey component, even if such reporting is seemingly inconsistent with prior-year reporting.

Changes to reporting:

The following changes have been made for 2025-26 collection:

- The Open Admissions question was moved to the Admissions survey component.
- The Academic Libraries expenses question was removed as the Academic Libraries survey component was discontinued.

Resources:

- To download survey materials package for this component: [Survey Materials](#)
- To access your prior year data submission for this component: [Reported Data](#)

If you have questions about completing the survey, please contact the IPEDS Help Desk at 1-877-225-2568.

3. What award levels are offered by your institution? [Check all that apply]

Award Levels reported should be completed based on the **current year**. When reporting award levels for subbaccalaureate certificates (levels 1a, 1b, 2, and 4), **determine program length by the number of credit or clock hours**.

The "Other" award level should not be used unless your program truly does not fit any of the other award levels. We expect very few institutions to fit the "Other" category.

Even though Teacher Preparation certificate programs may require a bachelor's degree for admission, they are considered subbaccalaureate undergraduate programs. Check the applicable award level 1a, 1b, 2, or 4, depending on the length of the Teacher Preparation program.

Overview

Cost Overview

The purpose of the Cost (CST) component is to collect information on student charges for Cost of Attendance estimates and to calculate an Average Net Price (ANP) for first-time, full-time undergraduate students to meet requirements of the Higher Education Act of 1965 (HEA), as amended. This component also collects information on tuition and fees for other groups of students.

Much of the data reported on CST appear on College Navigator, which is updated only one time after CST data have been reviewed by NCES. Therefore, any data reporting errors may stay on College Navigator for a full year.

Additionally, the ANP calculation has important implications for what students see about your institution, and also for the College Affordability and Transparency Center lists.

Data Reporting Reminder:

- Report data to accurately reflect the time period corresponding with the IPEDS survey component, even if such reporting is seemingly inconsistent with prior-year reporting.

Changes to reporting:

- No changes for the 2025-26 data collection period.

Summary

Cost | Component Summary

The purpose of this summary is to provide you an opportunity to view some of the data that, when accepted through the IPEDS quality control process, will appear on the [College Navigator](#) website and/or your institution's Data Feedback Report (DFR). In addition, all data reported in IPEDS survey components become publicly available through the [IPEDS Use the Data](#) and appear as aggregated statistics in various Department of Education reports. [College Navigator](#) is updated approximately three months after the data collection period closes and DFRs will be available through the [IPEDS Use the Data](#).

Please review your data for accuracy. If you have questions about the data displayed below or after reviewing the data reported on the survey screens, please contact the IPEDS Help Desk at: 1-877-225-2568 or ipedshelp@rti.org.

Overview

Completions Overview

Welcome to the IPEDS Completions survey component. The Completions component is one of several IPEDS components that is conducted during the Fall data collection period. It collects the number of degrees and certificates awarded by field of study, level of award, race/ethnicity, and sex. The reporting period for the Completions component is during the 12-month time period beginning July 1 of the previous calendar year and ending June 30 of the current calendar year; therefore, for this year's Completions component, the reporting period is between July 1, 2024 and June 30, 2025. The Completions component is also collecting the number of students (e.g., completers) who earned awards between July 1, 2024 and June 30, 2025.

Data Reporting Reminder:

Report data to accurately reflect the time period corresponding with the IPEDS survey component, even if such reporting is seemingly inconsistent with prior-year reporting.

Changes in reporting

The following changes were implemented for the 2025-26 data collection period:

- Removed question collecting student headcounts of Another Gender.
- Revised "gender" to "sex" where applicable. Revised "men" to "male" and "women" to "female" where applicable.

Use the 2020 CIP codes for this year's data collection.

The [CIP 2020 Website](#) includes a list of new CIP codes, a list of deleted CIP codes, a list of moved CIP Codes, and an online crosswalk of the 2010 CIP and 2020 CIP.

Some common Completions component errors include the following:

- Including award levels on your current year Completions that were not reported on your previous year's (PY) Institutional Characteristics (IC). [Award levels in the PY IC component cannot be changed; therefore, contact the IPEDS Help Desk at 1-877-225-2568 if you need assistance.]
- Forgetting to select CIP codes for new programs of study that are offered by the institution, but do not have completions for the reporting period.
- Forgetting to enter in zero in at least one of the cells for CIP codes that do not have completions.
- Even though Teacher Preparation certificate programs may require a bachelor's degree for admission, they are considered subbaccalaureate undergraduate programs, and students in these programs are undergraduate students.

Keep in mind that some information provided by institutions on the Completions component appear in the [College Navigator](#), which is a major tool used by consumers searching for information about postsecondary education. It is therefore vitally important that you include accurate information about your institution.

IPEDS Completion Component Summary

The purpose of this summary is to provide you an opportunity to view some of the data that, when accepted through the IPEDS quality control process, will appear on the [College Navigator](#) website and/or your institution's Data Feedback Report (DFR). In addition, all data reported in IPEDS survey components become publicly available through the [IPEDS Use the Data](#) and appear as aggregated statistics in various Department of Education reports. [College Navigator](#) is updated approximately three months after the data collection period closes and DFRs will be available through the [IPEDS Use the Data](#) and sent to your institution's CEO at the end of 2026.

Please review your data for accuracy. If you have questions about the data displayed below after reviewing the data reported on the survey screens, please contact the IPEDS Help Desk at: 1-877-225-2568 or ipedshelp@rti.org.

Perform Edits	Your institution did not report offering award level(s) (1b) in the prior year IC survey, but you indicated that one or more programs are offered at this level here. The program should be reported if it is still offered, even if there are zero completers. Please correct your data or contact the IPEDS Help Desk for assistance. (Error #10529)	Fatal	Yes	
Reason	Overridden by administrator. Institution confirms that they inadvertently omitted award level 1b in previous year. SSR			
Perform Edits	Current year completions (33) are outside the expected range when compared to the number of completions reported in the prior year (0) for: Female, 6-digit program (51.2306), Doctor's degree - professional practice award level (18). Please correct your data or explain. (Error #10535)	Explanation	Yes	
Reason	More female students completed the program this year than in previous years. Because the prior year female completions was 0, then any change would be considered a large percentage change.

12-month Enrollment 2025-26

Institution: University of Oklahoma-Health Sciences Center (207342)

User ID: 88G6681

Overview

12-month Enrollment Overview

The 12-month Enrollment survey component collects unduplicated student enrollment counts and instructional activity data for an entire 12-month period. Using the instructional activity data reported, a full-time equivalent (FTE) student enrollment at the undergraduate and graduate level is estimated (4-year institutions only). Institutions with Doctor's - professional practice students will also report the FTE enrollment of those students (4-year institutions only). NCES uses the FTE enrollment to produce indicators such as expenses by function per FTE as reported in the IPEDS Data Feedback Report.

Data Reporting Reminder:

- All institutions must use the July 1 - June 30 reporting period.
- Report data to accurately reflect the time period corresponding with the IPEDS survey component, even if such reporting is seemingly inconsistent with prior-year reporting.

Changes in reporting

The following changes were implemented for the 2025-26 data collection period:

- Removed question collecting student headcounts of Another Gender.
- Revised "gender" to "sex" where applicable. Revised "men" to "male" and "women" to "female" where applicable.

Resources:

- To access your prior year data submission for this component: [Reported Data](#)

 - Please note that any graduate level instructional activity must be reported in credit hours. (4-year institutions only)
- ☐ Clock hours
- ☒ Credit hours
- ☐ Both clock and credit hours (some undergraduate programs measured in clock hours and some measured in credit hours)

 You may use the box below to provide additional context for the data you have reported above. Context notes will be posted on the College Navigator website. Therefore, you should write all context notes using proper grammar (e.g., complete sentences with punctuation) and common language that can be easily understood by students and parents (e.g., spell out acronyms).

2. Did your institution enroll high school students in college courses for credit during the 12-month Enrollment (E12) reporting period of July 1, 2024 - June 30, 2025?

If you answer **Yes** to this question, you will be able to report the unduplicated count of high school students enrolled in college courses for credit on Part C of the 12-month Enrollment (E12) survey component.

- ☐ Yes.
- ☐ Within a dual enrollment program.
- ☐ Outside a dual enrollment program.
- ☒ No

Note:

Within a dual enrollment program is defined as within an organized system with special guidelines that allows high school students to take college-level courses. The guidelines might have to do with entrance or eligibility requirements, funding, limits on course taking, etc.

Outside a dual enrollment program is defined as high school students who simply enroll in credit courses through your institution, and are treated as regularly enrolled college students.

- Graduate credit hour activity should not include any doctor's - professional practice activity, the total of those students' FTE is entered separately instead.

FTE Reporting Reminder:

- Institutions need not report their own calculations of undergraduate or graduate FTE unless IPEDS FTE calculations would be misleading for comparison purposes among all IPEDS reporting institutions.

Student Financial Aid 2025-26

Institution: University of Oklahoma-Health Sciences Center (207342)

User ID: 88G6681

Overview

IPEDS Student Financial Aid Component Overview

Welcome to the Student Financial Aid (SFA) survey component. The purpose of the SFA component is to collect information about financial aid provided to various groups of undergraduate students and military/veteran educational benefits for all students at your institution.

Data Reporting Reminders:

- Report data to accurately reflect the period(s) corresponding with the IPEDS survey component requested, even if such reporting seems inconsistent with prior-year reporting.
- Undergraduate Student Counts
You will be asked to report information for:
 - All undergraduate students
 - Degree/certificate-seeking undergraduate students
 - Full-time, first-time degree/certificate-seeking undergraduate students (FTFT)
 - Non-degree/non-certificate-seeking undergraduate students
- Interactive Edits and Error Messages
The SFA survey component contains interactive edits to check for blank fields, invalid values, or values outside expected ranges. Some error messages require you to confirm or explain the values entered whereas other error messages are fatal and require you to contact the IPEDS Help Desk at (877) 225-2568 for resolution.
- Context Boxes
You will find optional text boxes throughout the SFA survey component. These text boxes allow you to provide more information or context about the data entered. Some context boxes may be made available to the public on College Navigator, so make sure the information you enter can be understood easily by students, parents, and the public.

Changes to reporting:

The following changes were implemented for the 2025-26 data collection period:

- Changed Section 1 of the SFA Survey to collect the same student counts and aid amounts for categories and sub-categories of undergraduate students.
 - What was previously Part B, which included all undergraduates, all degree/certificate-seeking undergraduates, and all non-degree/non-certificate-seeking undergraduates has been split into 3 parts – Part B (All undergraduates), Part C (All degree/certificate-seeking undergraduates), and Part D (All non-degree/non-certificate-seeking undergraduates)
 - Additional aid types have been added for these categories to align with data collected for FTFT non-degree/non-certificate-seeking undergraduates
 - What was previously Part C is now Part E, which includes all First-time, full-time degree/certificate-seeking undergraduates
 - Additional aid types have been added for these categories to align with data collected for the other student categories in Parts B-D
- Clarified instructions that institutions need to include Iraq and Afghanistan Service Grant (IASG) awards in Federal Pell Grant student counts and award amounts reported to IPEDS due to a change mandated under the Fostering Undergraduate Talent by Unlocking Resources (FUTURE) Act.
- Clarified what benefits need to be included in Section 2 of the survey component
 - Institutions should report Department of Veteran Affairs Post-9/11 GI Bill tuition and fee, books and supplies, and housing benefits disbursed known to the institution in Section 2 of the SFA Survey.
- Clarified that institutions need to report the federal share of Department of Veteran Affairs Yellow Ribbon benefits disbursed known to the institution in Section 2 of the SFA Survey.
- Revised FAQs and made other minor edits for clarity.

Part C - Enter Student Counts and Financial Aid Award Amounts

Instructions:

In the fields below, report student counts and the total financial aid amount awarded for each student category and financial aid type for the reporting period requested. Enter unduplicated student counts within each aid type (e.g., Federal Pell Grants). However, a student can appear in more than one financial aid program group.

Reporting Reminders:

- Report all other students, including students with intellectual disabilities enrolled in a U.S. Department of Education approved comprehensive transition and postsecondary (CTP) program, at the degree/certificate program level assigned by the institution.
- If students are not admitted and enrolled as degree/certificate seeking taking prerequisites (preparatory courses) offered as part of a Title IV eligible program to satisfy entrance requirements for a Title IV eligible program at your institution or another institution, report them as non-degree/non-certificate seeking undergraduates.

For this part, report:

Section 1 - Comparison Chart

Summary Data by Student Category and Financial Aid Type

Instructions:

- The SFA Comparison Chart provides a summary of the data reported in Section 1 of the survey. Summary data is based on the preloaded data and information reported on the previous screens in this section for all undergraduate students and full-time, first-time degree/certificate-seeking undergraduate students.
 - Values displayed for All undergraduate students, All degree/certificate seeking undergraduate students, and All non-degree/non-certificate seeking undergraduate students should match the values reported in Section 1, Part B;
 - Values displayed for Full-time, First-time degree/certificate seeking undergraduate students should match the values reported in Section 1, Part C; and
 - NCES calculated values for the student count and total amount of aid awarded for All other degree/certificate seeking undergraduate students should be the difference between the values reported for All undergraduate students and Full-time, first-time degree/certificate seeking undergraduate students.
- If values displayed do not match your institution's calculations, please correct the numbers reported before moving forward to complete Section 2 of the SFA Survey.
- Data for all degree/certificate seeking undergraduate students and full-time, first-time degree/certificate undergraduate students are published on College Navigator.

Note:

- Data for the 'all other degree/certificate undergraduate' students and all non-degree/non-certificate undergraduate students will appear in the IPEDS Data Center for data users, but not in College Navigator.

Screen Entry	This value is out of range compared to the prior year amount. Please correct your data or explain. (Error #7265)	Explanation	Yes	
Reason	We had a drastic decrease in the number of students who qualified for the VA Post 9/11 GI bill. During the 2023-2024 year we had 38 students and during the 2024-2025 year we only had 16 undergraduate students who received these funds. This would account for the average being less than last year.			
Screen Entry	This value is out of range compared to the prior year amount. Please correct your data or explain. (Error #7265)	Explanation	Yes	
Reason	We have three students who received the tuition assistance program but only for one term each. Last year the two students we had received multiple term disbursements within the year which accounts for the difference between last year and this year.

Overview

Admissions Overview

Welcome to the IPEDS Admissions (ADM) survey component. The primary purpose of ADM is to collect basic information about the undergraduate selection process for entering first-time, degree/certificate-seeking students in the fall term. This includes information about admissions considerations, admissions yields, and SAT and ACT test scores (if test scores are used in admissions decisions).

Data Reporting Reminders:

- Report data to accurately reflect the time period corresponding with the IPEDS survey component, even if such reporting is seemingly inconsistent with prior-year reporting.
- Institutions operating on a traditional academic year calendar (semester, trimester, quarter, or 4-1-4) report admissions as of the institution's official fall reporting date or October 15. Institutions operating on an "other academic calendar", a calendar that differs by program, or that enrolls students on a continuous basis (referred to as program reporters) report admissions as students who enroll any time during the period of August 1 through October 31.

Changes to reporting:

The following changes have been made for 2025-26 collection:

- Added Part A – Screening Questions
- Expanded Part B to collect admissions considerations information for transfer-in degree/certificate-seeking students at institutions that do not have an open admission policy and for students in program(s) with admissions requirements at institutions that are primarily open admission but have at least one program that is not open admission (if applicable).
- Added two admissions considerations for transfer-in students in Part B (if applicable).
- Expanded Part C to collect applicants, admits, and enrolled counts for transfer-in degree/certificate-seeking students at institutions that do not have an open admission policy and for students in program(s) with admissions requirements at institutions that are primarily open admission but have at least one program that is not open admission (if applicable).
- Expanded Part C to disaggregate applicants, admits, and enrolled counts by race/ethnicity and full-time/part-time enrollment status.
- Expanded Part D to collect test score information for transfer-in degree/certificate-seeking students at institutions that do not have an open admission policy (if applicable).
- Added Part E – Waitlist, Early Decision, and Early Action (if applicable).
- Revised "gender" to "sex" where applicable. Revised "men" to "male" and "women" to "female" where applicable.
- Removed question collecting student headcounts of Another Gender.

Part A - Screening Questions 1

1. For the Fall 2025 admission cycle, did your institution have an **open admission policy** under which virtually all students that completed a high school diploma (or received a GED/ other equivalent) were admitted for all or most entering undergraduate-level programs?

Institutions that require only an Ability to Benefit (ATB) or similar test beyond the high school diploma/equivalent, and only reject a very small number of students based on the test, are also considered open admission.

If your institution has one or more programs with admissions requirements, you should select 'no' to this question.

Data reported to the Admissions survey component will vary based on response to this question.

- ☒ Yes, all undergraduate-level programs at the institution are open admission.
- This response will result in no admissions data, other than the ATB question, being collected.
- ☐ No, all or nearly all undergraduate-level programs at the institution have admission requirements.
(i.e., all or nearly all entering students are evaluated against admission criteria to be granted admission to the institution)
- This response will result in admissions data being collected for **all entering students**.
- ☐ No, only one or a few undergraduate-level programs at the institution have admission requirements.
(i.e., all or nearly all programs are open admission; only students applying to a limited number of programs are evaluated against admission criteria to be granted admission to the institution)
- This response will result in admissions data being collected **ONLY for entering students in those programs with admissions criteria**.

Part A - Screening Questions 2

3. For which entering degree/certificate-seeking undergraduate student type(s) does your institution have admissions requirements?

- ☐ First-time students
☒ Transfer-in students

4. If your institution has admission requirements for both first-time students and transfer-in students, are these requirements the same?

- ☐ Yes
☐ No

5. Did your institution enroll first-time degree/certificate-seeking undergraduate students in Fall 2025? If no, you will not report admissions data for first-time students.

- ☐ Yes
☐ No

6. Did your institution enroll transfer-in degree/certificate-seeking undergraduate students in Fall 2025? If no, you will not report admissions data for transfer-in students.

- ☒ Yes
☒ Students may transfer credits earned from coursework completed at another postsecondary institution (e.g., college, university).
☒ Students must complete a minimum number of credit or clock hours to enter as a transfer-in student.

Part B - Admissions Considerations

1. Select the option that best describes how your institution used any of the following data in its undergraduate selection process for the fall 2025 student cohort.

The options are:

- Required to be considered for admission (not applicable for legacy status)
- Not required for admission, but considered if submitted
- Not considered for admission, even if submitted

Considered means that an institution includes an item in the package that is reviewed by admissions officers during the review process and the item may factor into a decision for admission.

Part C - Applicants, Admits, and Enrolled - Transfer-in students

Provide the number of **Transfer-in students, degree/certificate-seeking** undergraduate students who applied, who were admitted, and who enrolled (either full- or part-time) at your institution for Fall 2025. Include early decision, early action, and students who began studies during the summer prior to Fall 2025.

Report admitted students who enrolled in the summer ONLY IF they remained enrolled into the fall.

Only include levels that you indicated were offered in the IC survey component. If you made an error in IC, please remember to fix the error next year.

Note that "sex unknown" students must be allocated into the 'Male' and 'Female' categories.

Overview

Outcome Measures Overview

Welcome to the IPEDS Outcome Measures (OM) survey component. The OM component collects award and enrollment data from degree-granting institutions on four undergraduate cohorts and eight undergraduate subcohorts at three status points: four-years, six-years, and eight-years after entry.

The four cohorts of degree/certificate-seeking undergraduates are:

- First-time, full-time entering (FTFT)
- First-time, part-time entering (FTPT)
- Non-first-time, full-time entering (NFTFT)
- Non-first-time, part-time entering (NFTPT)

For each cohort, two subcohort groups have been added to the OM component - Pell Grant recipients and Non-Pell Grant recipients - resulting in eight undergraduate subcohorts.

Data Reporting Reminders:

- Report data to accurately reflect the time period corresponding with the IPEDS survey component, even if such reporting is seemingly inconsistent with prior-year reporting.
- All institutions must report on a **FULL-YEAR** cohort. The OM cohort year is 2017-18. The full-year cohort coverage period is July 1, 2017 - June 30, 2018.
- Institutions will establish their OM cohorts based on their subcohorts of entering Pell Grant recipients and Non-Pell Grant recipients. Institutions should first identify their entering degree/certificate-seeking undergraduates during the cohort coverage period of July 1, 2017 - June 30, 2018, and place each student in the appropriate subcohort. Each student should be reported only once.
- All institutions are required to report transfer-out student data.
- For each status point, institutions will report the highest type of award conferred to a student for each subcohort. The three award categories are certificates, Associate's degree, and Bachelor's degree.
- Institutions should report exclusions for the entire eight year period only on the "Establishing Cohorts" screen. Additional exclusions cannot be reported on the status point screens (i.e., four-years, six-years, or eight-years after entry).
- IPEDS will ask for an estimated time it took to complete the OM component. Include in that estimate the time to review instructions, research data sources (i.e., coordinate with IT and Student Aid offices), complete and review the component, and submit the data.

Changes to reporting:

- No changes for the 2025-26 data collection period.

Important Dates to Remember:

All reporting institutions will report on degree/certificate-seeking undergraduates who entered the 2017-18 cohort year: **(July 1, 2017-June 30, 2018)**.

- Four-year status point was as of **August 31, 2021**
- Six-year status point was as of **August 31, 2023**
- Eight-year status point was as of **August 31, 2025**

Reporting Tips

Establishing Cohorts

2017-18 Entering Undergraduate Cohort

July 1, 2017-June 30, 2018: Full Year

- Begin by identifying your entering degree/certificate-seeking undergraduates for the full year of July 1, 2017 - June 30, 2018.
- Then report each student under one of the eight subcohorts (Pell or Non-Pell Grant recipients FTFT, FTPT, NPTFT, NPTPT).
- Each entering student should be reported only once.
- The four cohorts and total entering students will be calculated based on your subcohort reporting.

NOTE: Once a student is in the cohort, the student remains in the cohort, even if the student's attendance status changes (i.e., full-time to part-time, or vice versa) or if the student drops out, transfers out, or transfers back into the institution during the eight-year period. However, institutions can make adjustments to the cohort for allowable exclusions, which include the death of a student, total and permanent disability, military deployment, or service on an official church mission or with a foreign aid service of the Federal government. Exclusions are for the ENTIRE eight years for the entering 2017-18 cohort.

Overview

Fall Enrollment Overview

The Fall Enrollment component collects student enrollment counts by level of student, enrollment status, sex and race/ethnicity. In addition, first-time students' fall-to-fall retention rates and the student-to-faculty ratio are collected. Enrollment by age is required in odd-numbered years, and enrollment by residence of first-time undergraduates is required in even-numbered years.

Institutions operating on a traditional academic year calendar (semester, trimester, quarter, or 4-1-4) report Fall enrollment as of the institution's official fall reporting date or October 15. Institutions operating on a calendar that differs by program or that enrolls students on a continuous basis (referred to as program reporters) report Fall enrollment as students enrolled any time during the period August 1 and October 31.

Data reporting reminders:

- Report data to accurately reflect the time period corresponding with the IPEDS survey component, even if such reporting is seemingly inconsistent with prior year reporting.
- Part B, Enrollment of students by age, is required this year.
- Part C, Residence of first-time degree/certificate-seeking undergraduates, is optional this year.
- For reporting students studying in consortium agreements, please refer to the Resource page at <https://nces.ed.gov/ipeds/report-your-data/data-tip-sheet-reporting-data-consortium-institutions>.

Changes to reporting for 2025-26:

The following changes were implemented for the 2025-26 data collection period:

- Removed question collecting student headcounts of Another Gender.
- Revised "gender" to "sex" where applicable. Revised "men" to "male" and "women" to "female" where applicable.

Part A - Fall Enrollment - Sex Unknown

Reporting Reminders:

- The purpose of this supplemental section is to determine whether institutions are able to report the number of students for whom sex is unknown. Note that these students must still be allocated into the 'Male' and 'Female' categories in all other sections of the survey component.
- Institutions should not ask students that do not select a binary sex to allocate themselves to a binary sex; it is up to the institution to allocate unknown students into the binary categories throughout the forms where required. One method commonly used by institutions is to allocate these students to the binary categories required in other parts of the form using the proportion of male to female reported.

	Current Year	Current Year
Grand total	1,216	2,688

Overview

Human Resources Overview

Welcome to the IPEDS Human Resources (HR) survey component. The HR component collects important information about your institution's staff.

Data Reporting Reminders

- Report data to accurately reflect the time period corresponding with the IPEDS survey component, even if such reporting is seemingly inconsistent with prior-year reporting.
- Report each employee only once. If an employee could be coded in more than one occupation, code the employee in the occupation that requires the highest level of skill OR if there is no measurable difference in skill requirements, code the employee in the occupation in which they spend the most time.
- Report staff members difficult to categorize in the "Human Resources Survey Evaluation" box at the end of the survey.
- Enter data on each displayed screen. If a screen is not applicable, enter at least one zero in a field on the screen and save before continuing.
- When reporting salary data (applicable to degree-granting institutions only) include all full-time, non-medical school, instructional staff - both with and without faculty status.

See the instructions for the **Key Reporting Concepts** section – which will have basic reporting concepts that will assist you in completing the Human Resources survey component.

Changes to reporting for 2025-26:

The following changes were implemented for the 2025-26 data collection period:

- Revised "gender" to "sex" where applicable. Revised "men" to "male" and "women" to "female" where applicable.

Resources:

- To download the survey materials for this component: [Survey Materials](#)
- All staff must now be reported using the new IPEDS occupational categories, which align with the 2018 Standard Occupational Classification (SOC) codes. Additional information and resources can be found in the [IPEDS HR/SOC Information Center](#), including general information about the SOC, the IPEDS/SOC crosswalk, a SOC Browse Tool, Frequently Asked Questions, and Web Tutorials.

NOTE: The above data are based on the Salary Outlays part of the IPEDS HR component. The Weighted average monthly salaries of full-time instructional staff by academic rank are calculated by adding the salary outlays reported for Male plus Female by academic rank, then dividing the sum by the "Total Number of Months" for Male plus Female by academic rank. Salaries of full-time instructional staff paid less than 9 months per year are not collected. Also, salaries of medical school staff are not collected. The weighted average monthly salaries may be included in the DFR.
