OBJECTIVE

Become a meaningful contributor to an oil and gas production company

EDUCATION

- B.S. in Petroleum Engineering, Fall 2015 – University of Oklahoma – 3.74 GPA
- Mewbourne Leadership Scholar, Regents Scholar, Institutional Nominee

PETROLEUM ENGINEERING EXPERIENCE

Mewbourne Oil Company

Reservoir Engineering Intern – summer 2015 in Tyler, TX

Worked directly with senior reservoir engineers in the headquarters office.

Accomplishments

- Completion study for the granite wash formation in the Texas Panhandle
- Worked in a team environment to complete large projects in a timely manner
- Identified ways to present data to maximize effectiveness
- Worked extensively in the ARIES program for economic and decline curve analysis

Field Engineering Intern – summer 2014, 2013, and 2012 in Woodward, OK and Perryton, TX

Worked directly with drilling, completion, and production engineers.

Accomplishments

- Learned the daily operations of an exploration and production company
- Present for multiple hydraulic fracturing procedures, drilling operations, and production maintenance
- Learned the importance of punctuality and precision

ADDITIONAL WORK EXPERIENCE

Gilreath Service, Inc. in Woodward, OK

Heating and Air Condition Services – Present through 2008

Assisted in installing and service of heating and air conditioning systems for commercial and residential properties

Accomplishments

- Learned importance of timely completion of projects
- Dependable employee willing to do any job as needed
- Recognized for positive attitude and good customer skills
