OBJECTIVE

To obtain a full time Petroleum Engineering position without any specific emphasis

EDUCATION

University of Oklahoma, Norman, OK Aug. 2012-May 2017

Bachelor of Science in Petroleum Engineering

Casady School, Oklahoma City, OK Aug. 2009-May 2012

Completed coursework towards a college preparatory high school diploma

WORK EXPERIENCE**SoSix Magazines**

Magazine Distributor and Promoter (July 2016- Present)

- Distributed and promoted SoSix magazines to local businesses in Norman, OK

University of Oklahoma

Petroleum Engineering Research Assistant (Summer 2016)

- Researched the impact of Nanofluid injection on low vs. high permeability cores during acid treatments
- Conducted parallel sand pack and core flood tests using Nanofluid to study conformance control
- Presented weekly findings to research group and provided recommendations for further tests

Occidental Petroleum

Reservoir Engineering Intern (Summer 2015)

- Analyzed competitor completions to create a field development strategy using Spotfire software
- Created development type curves using PEEP software
- Conducted an economic evaluation to determine when development would be economically viable
- Provided recommendations for future development to upper management

Chaparral Energy LLC.

Reservoir Engineering Intern (Summer 2014)

- Used ARIES, Wellview, OCC, and IHS to find data for IHS Harmony analysis
- Used IHS Harmony software to run decline curve analysis on horizontal wells
- Made recommendations about the play and horizontal wells within the play to upper management

Mustang Fuel Corporation

Oil and Gas Production Intern (Summer 2013)

- Created and maintained excel databases for Petroleum Engineers and provided support when required
- Analyzed IHS/OCC drilling, completion, and workover reports to create wellbore diagrams, AFEs, and field maps
- Worked with Geology department to determine reservoir thicknesses and depths
