

Oklahoma Seismicity Bulletin, May 2026

Snapshot of earthquake map for May 2026. Circles are earthquakes (larger circle means larger earthquake), diamonds are quarry blasts, triangles are seismic stations. There were 187 earthquakes this month in the state.

Most active counties this month:

Carter: 72 events
Murray: 13 events
Pittsburg: 10 events
Canadian: 8 events
Lincoln: 6 events

Magnitude snapshot this month:

3.0-3.9: 1 event
2.0-2.9: 16 events
1.0-1.9: 153 events
0.0-0.9: 17 events

Oklahoma Seismic Network News

This month, the OGS seismic team installed 9 new stations, upgraded some, and drilled some new vaults to prepare for installs. This brings the total OGS (permanent) station count to 146. New installs and upgrades use the newer, OGS owned equipment (not piecemeal or borrowed) and the deeper (8 foot) vault design. No more flooding pickle barrel vaults will be deployed at new installs, and we're replacing them when upgrading existing stations.

If you're interested in hosting a seismic station, or know someone who might be, here's a link to submit a brief application:
