RISK MANAGEMENT

OCTOBER 2024

NEWSLETTER

MEET TIM WISEMAN

BIG MOVE FOR ERM

Enterprise Risk Management has been housed at the Nuclear Engineering Lab for several years now. Starting in October we are officially moving to the third floor of the beautiful and historic Evans Hall to be closer to the Team at Legal Counsel. We have enjoyed working alongside of the Human Resource, HR Records and Staff Senate department. Many of whom we now call friends.

WE ARE HERE TO HELP!

Remember that your ERM Team is here to help you with questions about insurance coverage while driving for the University, reporting injury claims, Youth Protection registration, International Travel registration, risk mitigation. We can come talk to your department/group. Schedule your RoadShow today!

Meet the new University Risk Officer, Tim Wiseman, with duties on the Norman, Health Sciences and Tulsa campuses. Tim comes to us after previously serving in similar roles at East Carolina University most recently, the University of Wyoming. In addition to experience at other institutes of higher learning, Tim also served his country in the U.S. Army for 26 years. Some of Tim's primary focus areas for OU include:

Creating efficiencies in risk management and insurance processes across all campuses by infusing Enterprise Risk Management (ERM) and compliance best practices into OU's current risk and compliance management frameworks. As well as improving the use of Key Risk Indicators (KRI's) and risk information reporting/communication to build OU's risk intelligence and promote better risk-informed decision making.

Tim maintains two offices and splits his time each week between the Norman (Evans Hall, Room 317) and HSC-OKC (Byrd Library, Room 137) campuses.

CONTACT US

In the event of an accident or incident, the need for risk assessment, or if you just want to know more about risk management, contact us or come by anytime. Our office is open weekdays: 8 AM to 5 PM.

You can reach us at: (405) 325-2490
