The **Covid-19 MAXIMUM Occupancy** was calculated for spaces in their current orientation, in many cases as if there were no furniture in the spaces; which would make it a purely gross square footage calculation. Any furniture added to accommodate a certain type of event would change this number and require someone from the Fire Marshal's Office to go to the space and measure the layout in order to provide a new Covid-19 occupancy number. The **Covid-19 MAXIMUM Occupancy** number is intended to provide a "do not exceed" baseline number and reduce from there as furniture layouts are added and orientations are changed.
